Labor Party's Amendment Providing For a Single Chamber Voted

London, May 3.—Parliament bill, known also as the veto bill, for the curtailment of the power of the House of Lords, passed today the committee stage in the House of Commons practically without amendment, amidst seenes of great enthusiasm.

The refusal of A. J. Balfour, leader of the Opposition, to vote against the preamble to the veto bill, removed any danger that might have been apprehended from the revolt of the Laborites against the preamble and this portion of the measure, the consideration of which was regarded as the most critical test for the Government proved easiest to carry. Girl Murdered on Hamilton Mountain May Have Been From That City.

Hamilton, May 3—Because Miss May Lefleur, of this city, has not heard from her sister, Mrs. Cora Townsend, who formerly resided at 69 George street. Toronto, since just before the mysterious Barton murder in October, 1905, she fears that the victim of the tragedy may have been her sister. She has communicated her fears to the local police. Although the age of the missing woman corresponds with that of the victim of the Barton murder, the description does not seem to fit in with the other details.

Miss Lefleur falled to identify the photograph shown her of the murdered woman as that of her sister, although she thoughs there was a slight resemblance.

Her father, who resided on Bay street north, was equally undecided.

# The Corset Creates the Figure And Perfects the Form If You Choose the Right Corset ROYAL WORCESTER Comfortable Seated

The most potent charm of womanly beauty is a perfect figure, attained only through wearing perfect Corset, correctly fitted. "ROYAL WORCESTER" Corsets enhance and beautify every figure, molding the form until it assumes the graceful and symmetrical lines of the ideal, all of which is accomplished fully in accord with the laws of health and hygiene. A Corset illfitting and poorly made, destroys the very charms which nature intended should be emphasized, and many a figure is marred by lack of attention to that most important factor-THE CORRECT CORSET AND HOW TO WEAR IT.

CORSETS

## Why These Models Have Preference Over Made-to-Measure Corsets

In the first place they are made on perfect model lines, and mold the figure into that perfect form, while the made-to-measure Corset follows the lines possibly developed by an out-of-shape pair of Corsets, and are designed and built on these imperfect lines, not intended to improve but to retain the figure, no matter how imperfect or out of harmony with present style ideals it may have become, possibly only by wearing imperfect

We invite every woman who has the slightest suspicion that the Corset she is wearing is not perfect in every particular, to visit our Corset Department and have a free fitting and demon-tration of the Corset she should wear. Models for every type of figure.
