FINANCIAL AND COMMERCIAL

-New Oats \$1.25 to \$1.35 Cwt.

Rainy weather again interfered with the local market this morning, very few farmers coming to town as a result. Coupling this with the fact that this is a busy time on the farm, being largely taken up with threshing and other fall work, a small market was the natural result. Hay still sells as high as \$16, but the ruling price is not above \$15.50 per ton.

the ruling price is not above the per ton.

Old oats sold yesterday at \$1 45, the ruling price being \$1 40 per hundred-weight. New oats are worth from \$1 25 to \$1 35, the larger quantities selling at from \$1 30 to \$1 32 per hundredweight. Dressed hogs are remaining at \$8 75

and \$9 per hundredweight.
Wheat is slightly more active at
from 85 to 88 cents per bushel.
On the fruit market peaches sold On the fruit market peaces so to day at from 45 to 80 cents per basket. Grapes were worth 20 and 25 cents per basket. Ripe tomatoes sold at 25 cents, and green tomatoes at 20

WINNIPEG. Sept. 28.—The weather
over the Canadian West was generally
extremely unfavorable for harvesting and
threshing operations. Cash demand was
decidedly active over Wednesday. Not
decidedly active over wednesday.
only was spot stuff bought cagerly, but
there was an improved inquiry for "B.
and I." stuff, also. Some export houses
were buyers, but apparently pur-
chases were to fill boats previously char-
tered for bids were decidedly out of line,
The builish report of the Saskatchewar
Government was undoubtedly a factor in
the return to higher levels. October
closed %c. December %c, and May %c
closed %c. December %c, and may %
up. October oats were the feature of the
Winnipeg market. Shorts got uneasy and
covered. The advance was at %c for Oc-
tober, %c for December and %c for
May. September corn was 1/4c lower, De-
cember %c higher and May 1/2c higher

NEW YORK, Sept. 29.—The early London cables indicated a materially lower opening today, being from ½ to % points down, with such loss as the latter for the Harriman issues on the strike ultimatum and over a point for Amal. Copper and Aichison, to say nothing of steel. The belief that war is imminent in Tripoil does not help sentiment on the other side, where it is feared that the Moslems may revolt the world over, causing widespread trouble. The President, as might be expected, since he is making political propagands, stated in his speech that the prosecutions of big corporations will continue where begun, no matter if business should suffer, the Sherman law being apparently to his mind, perfection. It remains to be seen if the shopmen will seriously tie up the Harriman lines, and in any event the sirtke could not take place at a better time for the roads, as there is much unemployed labor in the country. The short interest will make the best of all such bear agruments to retrieve their position of supremacy in the market, and sharp fluctuations may be witnessed before business settles down to a more normal basile, Resistance will be noted on any had break, and the better class active besses should be a purchase then

bad break, and the better on any bad break, and the better class active issues should be a purchase then for turns of a few points, though we would sell on bulges for the present. The hational banks have increased their loans since the last call of the comparioler of the treasury about \$55,000,000, though no special significance need be attached to this factor. Investment buying of selected stock should be a factor on good declines, though the public is still indifferent. 2 p.m.—War has been declared between Italy and Turkey.

"BEAUTY SPOT" TONIGHT.

Comedian With "The Beauty Spot," at the Grand Opera House Tonight. west, will return to the Grand Opera House tomorrow, Saturday, matinee and night. "The Virginian" is a play of western life, when men were men simply for the sake of being manly, and when life on the range meant; clear eye, a steady nerve and a conscience that was never bothered by the ethical niceties of civilization, but which glways knew a duty and how to fulfit it. The hero of Own Wister's novel has the essential qualities of a real man of the west, a cowpuncher, as they were before the barbed wire fence came into use it the cattle country.

"THE EARL OF PAWTUCKET."

If you want to enjoy an evening of delicious drollery and humor and see a comedy pure and simple, in which all seriousness has been laid gaide, you will enjoy "The Earl of Pawtucket." by Augustus Thomas, which Jolin Cort has made an elaborate revival of this season, and is presenting Lawrance D'Or ay in his original interry role of Lord Cardington, The star will be supported by a merry company of players, including some of the original Madison Square Theatre company, who were with Mr. D'Orsay when the comedy was first given in New York. The also comes to the Grand Opera House Monday evening next. "THE EARL OF PAWTUCKET."

MISS BILLIE BURKE. The principal male character in "The Runaway," Miss Fillie Burke's new comedy, is an artist of middle age. Of course,

Directions---How to Use Cooking Bags:

1. Select one that "fits" the food intended to be cooked. 2. Grease slightly the inside of the bag, except in the case of vegetables, or when water is to be added.

3. When the food has been prepared for the bag, place the same on the table, and lift the uppermost edge of the bag

while you insert the contents. 4. Fold the mouth of the bag two or three times and fasten with a clip, or pins, or in any other way that will

secure as nearly as possible a hermetical closing. Should it ever happen that a bag leaks, simply transfer

it with contents undisturbed to another bag. 5. The oven, any kind of which will do, should be kept clean, and if properly heated, as with the old style of cooking, results should satisfactorily follow. Average oven heat should be about 200 degrees, Fahr., and when the bag is put into the oven this heat should be reduced by about 30 degrees. In the case of ovens with solid shelves, a wire grid should be placed on the shelf with a space between and the bag with contents on the grid. Experience will soon teach the cook when the oven is hot enough without the use of a thermometer.

6. The oven door will not require to be opened every now and then "to see how the roast is doing." The whole force of the heat is playing upon the bag and from within it cannot escape.

7. Exercise care in taking the bag out of the oven, and if gas is used the bag should be kept out of danger of contact with the flame. A plate inserted under the bag will best remove it from

8. When taken out for use the bag should be ripped open from the top and the fragments thrown away.
