LOCAL AND DISTRICT.

The outward appearance of the Askin street Methodist Church has been considerably improved by the removal of the fence in front of it. A baseball match will probably be arranged for in a few days between "D" Company, I. S. C., and "D" Company, Seventh Battalion. Mr. George Thompson, stenographer at Messrs. John Elliott & Sons, is confined to his bed with a serious attack of inflammation of the bowels. Mr. George Moorehead is home on a visit. He is now a practicing barrister in Chicago, and is doing well with his abundant energy and push in that great field. Bro. T. Bland was Monday night the recipient of a beautiful Past Regent's jewel in appreciation of passing creditably through the chairs. Bro. J. B. McKillop made the presentation.

The London South Glee Club gave a concert at the Old Men's Home on John street last evening, and another one at the Old Women's Home on King street on Thursday evening. William Peel was arraigned before Judge Davis yesterday on a charge of assaulting P. C. Smyth. He elected trial by jury, and was remanded to the Assizes, which open on Monday next. Mrs. Gregsten's friends and beneficiaries will rejoice in her recovery from the recent severe illness that has kept her confined to her home for the few weeks. She was out Monday for the first time. Col. Tracy's bay mare, by John E. Rysdyk, dropped a standard-bred filly to Parker's Kentucky Poteen, an inbred Wilkes, on Sunday last. The colt is large and fine and ought to be a good one. Mayor Taylor has given the City Engineer instructions to send a couple of men over to the new Ward on Thursday morning to repair the sidewalks on Stanley and other streets, some of which are in a very dangerous condition. Superintendent J. A. Boswell and Route Agent R. Helms, of the Dominion Express Company, went west on the Chatham train yesterday morning to locate agencies on the Erie and Huron Railway, the American Express Company retiring after May 1st. Mr. W. J. Hayward, Inspector of Weights and Measures at Windsor, has seized at that town thirteen packages of salt for being short weight and not having the gross weight marked on each package. The salt came from Thomson Bros., St. Clair salt wells, Michigan. Citizens desirous of witnessing the opening game of the baseball season between the Tecumseh and Bisons at Buffalo on Thursday afternoon, should take advantage of the cheap rate offered by the Grand Trunk, and hand in their names to Gillean's jewellery store without delay. William Beaton and Fred Lighthall were summoned to appear before Squire Jarvis, and answer a charge of trespassing on Thomas Culvert's property in London West. It is alleged that the defendants make a thoroughfare of Mr. Culvert's lot when they draw gravel from the river. A correspondent, writing from Wardsville, says:—"The Mt. Brydges spring show was held on the 24th inst., and the majority of the farmers were greatly dissatisfied with the awards, especially in the important draft class. Unless managers of spring shows afford to employ competent judges instead of grocery clerks and machine peddlars we think they had better leave the judging to the farmers." Nelson Blackwell was charged with the larceny of a lot of underclothing, etc., from E. H. Caddy yesterday before the P. M. He pleaded guilty, but as the Crown Attorney represented that the goods were paid for, and recommended leniency, the P. M. suspended sentence in the case. A woman was fined \$20 for violation of the Liquor License Act, and five young men who were in the bar were assessed \$2 each. Alex. Addison was remanded for six days on a charge of drunkenness. James Thompson was fined \$3 or six days for a similar offence.

Early in June, 1890, the Canadian Pacific Railway, in connection with the Wabash Railroad, will run a through westbound daily train between Montreal and Chicago, the first of its kind in Canada. The route will be via the Canadian Pacific Railway and its recently completed extension from this city to Detroit, and thence via the Wabash Railroad to Chicago. All the equipment will be new, containing the latest improvements. The trains will consist of three classes, and will be made up of first-class buffet coaches, and the superb first-class sleeping cars, finished inside with light woods, for which this railway has become so justly celebrated. East of Detroit meals will be served in the buffet car, and west of Detroit in the Wabash dining cars. It is the intention to leave Chicago at four p. m., and arrive in Montreal the next evening to make connection with the trains for Quebec, St. John, N. S., Halifax, Portland, Me., and Boston. West-bound, the train will leave Montreal about 9 p. m., making all eastern connections and arriving in Chicago the following night in time to connect with the late trains for the west and north-west.

On Monday evening the last entertainment for the season under the auspices of the St. John's Parish Club took place, and proved a most gratifying success. Formed as the association has been for the promotion of friendly intercourse between all classes of the congregation, the hearty response given to the invitation of the club to the members proved conclusively that the efforts have not been vain, for a most happy, enjoyable and interesting evening can hardly be conceived. The various interesting subjects under the able management of different members proved highly interesting, especially those of Dr. Woolvorton, which consisted of a large number of curiosities. The electrical department under the skillful manipulation of Mr. Rupert Reame, and the photographic display, all contributed to the interest of the evening. The museum of antiquities, as arranged, being a collection of a number of relics of the past which have never before been on exhibition, elicited considerable interest and comment. Refreshments were also provided for the visitors, which, together with a musical programme, rendered at short intervals, contributed to make the first part of the evening's entertainment a decided success. The concluding portion consisted of numerous selections of scientific subjects by the aid of the lantern, graphically described by Mr. W. J. Imbach, whose knowledge in such matters is most thorough, and whose kindness unfeigned.

MEMBER FOR LONDON.

That is what Mr. W. R. Meredith will continue to be FOR FOUR MORE YEARS, AT LEAST. He is Again Unanimously Nominated as THE CONSERVATIVE STANDARD-BEARER. And Accepts the Nomination in a Scathing Speech—Roundly Conservative Meeting Last Night.

A special meeting of the Young Men's Liberal-Conservative Association was held in their rooms at the Masonic Temple last night for the consideration of important business. There was a large representation of members of both associations, and the greatest enthusiasm was manifested in the proceedings. The president of the Young Men's association, Mr. T. P. Blackwell, occupied the chair, and after routine matters had been attended to, Ex-Ald. Callard, in a neat speech, moved that W. R. Meredith be the candidate of the Liberal-Conservative party of the city of London at the approaching elections to the Ontario Assembly. Mr. R. R. Bland seconded the nomination in a few timely sentences, and the resolution on being put to the meeting, was carried unanimously amid enthusiastic applause. The chairman of the different ward committees, Messrs. Bland, Taylor, Priest, Judd, Owens and Batzner—were appointed to interview Mr. Meredith (who was attending the Western University convocation), and report to the meeting the result of the interview. At the close of the convocation, Mr. Meredith visited the club room and the president tendered him the unanimous nomination of the Conservative party for London in the coming contest. Mr. Meredith, who was most enthusiastically received, in accepting the nomination, said he felt flattered by again receiving the nomination of the Conservatives of his native city. If the issues before the people of this Province were not of the gravest character that had yet been presented he would not be in public life today. Nothing could be more to his own personal disadvantage than that the Conservative party should be returned with a majority at the approaching election. The principles on which the Conservative party appealed to the country were those of truth and justice. They were offensively called " Tories," but what party was that was the author of the most liberal and progressive measures that had been placed on the statute books of the Province? On that ground alone he appealed to Liberals as well as Conservatives to rally to his support. The Conservative party went into this fight full of hope. He asked the young Conservatives of London to look not only after the other day, but to look to the future. He asked the young men to all the surrounding ridings, and to generally keep a watchful eye after the whole of Western Ontario. He repeated that the prospects for the Conservative party were bright, and the Mowat Government already felt that their fate was sealed. The Minister of Education, he was informed, was not likely to carry West Middlesex, and the Government was likely to be defeated in his own riding. The Provincial Treasurer was afraid to face the election with that portfolio. These were surely good signs for the progressive party. Mr. Meredith again thanked the Young Conservatives of London for honoring him with the nomination, and called upon all liberal-minded men to rally to the support of the Conservative party in this contest.

On resuming his seat Mr. Meredith received an ovation at the hands of all present, after which arrangements were perfected for a vigorous prosecution of the canvass, and the meeting adjourned.

THE "Y" ANNIVERSARY.

Kitchen Garden Work Illustrated in Victoria Hall Monday Night—Report of the Young Women's Temperance Union and its Work.

Mr. V. Cronyn presided at the Y. W. C. T. U. anniversary in Victoria Hall Monday night, and, despite the numerous other attractions, the young ladies are to be congratulated on the success of their first anniversary, the character of the attendance and the fact that the hall was as full of people as it could comfortably hold. Rev. Mr. Porter, Mr. William Bowman and a number of ladies occupied seats on the platform. About 30 little girls in white caps and aprons surrounded the stage and gave a portion of the hall the likeness of a flower bed. The proceedings opened with the singing of a hymn, after which Rev. Mr. Porter led in prayer. The chairman spoke briefly in regard to the purpose for which the gathering was held and the work of the "Y's." The kitchen garden, he explained, was the kitchen as the garden where habits of neatness and good housekeeping were cultivated. It was no new statement that comfortable homes were a great factor in keeping men and boys out of the bar-rooms, and they possessed a good moral as well as a good physical influence. The young ladies of the association realized this, and they tried to train the little girls up in the science of good housekeeping, and habits of neatness and order. They tried further to teach the little ones the physical effects, the evils of alcohol, and its injury to the human system. The men were usually the transgressors and the women and children the sufferers. The young women were doing their best to remove that evil. They were also trying to provide for working young women a something similar to what the Y. M. C. Association was doing for young men, furnishing them with a place to spend their leisure and surrounding them with pleasant social influences of good moral tendency. In these objects he thought the union should have the countenance and support of all present. The report read by Mrs. Allen, president, gave a clear and detailed statement of the work of the union since its organization. A visit to this city by Miss Tilley and her address on the methods of work had prompted the young ladies to take up the branches in which they were now successfully engaged. They had started with a membership of 20, and now had 60 active members on their roll. She explained at some length the lessons which they strove to impart to the children as a practical means of fighting the drink traffic, and then spoke of the home for young women which they strove to make of their rooms, a place where the

home influences could be spread around those whom circumstances deprived for a time of their home. The union had resolved not to depend for their income on any entertainments or sales of tickets or anything of that kind. They believed their cause was good, and were willing that it should stand on its merits and depend on the good will of the public. The rooms were opened on the direction of a committee, of which Miss Ware was superintendent, and Miss Von Brockdorf secretary. They held three weekly classes for the children, and they desired to take up subjects like book keeping, shorthand, sewing, etc., to enable the young women to develop the talents that God had given them. They hoped that all their sisters would show sympathy with the movement, by joining the association or making use of the rooms. Under the direction of Miss Smith and Miss Chisholm the children gave a number of kitchen garden exercises in a very pleasing manner, including the broom exercise, setting the table, etc., singing as they marched. Miss Zeigler's solo and a piano selection by Miss Morley made up a programme both varied and entertaining.

THE SPORTSMAN'S COLUMN.

Notes of Interest from the Race Track, Diamond Field and Other Sporting Centers. Catcher J. J. Adams has been released by St. Louis. Hanlon thinks the Pittsburg League club will die before the first of June. Coogan, who has played right field for the Newarks for some seasons back, is discharged. On Saturday Ed. Crane was presented with a fine gold-headed cane by his South Boston admirers. The Cleveland Brotherhood people are angry young McGill, the pitcher who was tried by them at St. Louis. N. Y. Press.—"Estherbrook is a popular fellow, and will work like a hero now that he is with Mutrie." This is "guff." "Snake" Ames, of Princeton, and Harry Bates, of Harvard, are both to pitch for the Staten Island Athletic Club this year. Chicago hadn't a catcher last year who was the equal of Kittredge in throwing to bases. He was Keefe's old back stop. The Pittsburg National League club has released two of their players unconditionally—Bradenburg, catcher, and Routcliffe, fielder. There is talk of transferring the Buffalo Brotherhood club to Washington. Buffalo will not support a club at fifty cents admission. Jack Sneed, of Toledo, was fined fifty dollars and suspended for record-playing the other day. Al Tebeau will probably sign with Toledo. The Brotherhood's double umpire system doesn't seem to prevent kicking. Comiskey loudly complains of the treatment his club received at Pittsburg. The National League championship race gives promise of being a close one. The playing strength of the different clubs seems to be well equalized. It seems that a good many of the long hits made by Brotherhood players were due to the Keefe ball, which is much more lively than the Spalding ball. Harry Taylor, who is now covering short field for the Louisvilles, is one of the best players in the league. He is an excellent general player and a hard hitter. The "col" pitchers are legion this year, and all seem to be winners. Men like Sharoff, Nichols, Daniels, Vickery, Lincoln, Rhines and Rusie are of great value nowadays. Earl, who is now playing second base for Anson's team, is a catcher. His handling of ground balls is decidedly awkward, yet he manages to get his man out after a struggle. John Clarkson will probably be laid up for a month. In the meantime Getzein, Nichols and Taber will have a chance to show what they can do for Boston in the pitching line. Rainey, who was hit by a pitched ball in Friday's game, is slowly improving, and it is probable that the danger is past. He is able to partake of food, and his condition is reported to be much better. The Players' League club, of Pittsburg, will reduce the price of admission to the games from 50 cents to 25 cents, with 25 cents extra for grand stand seats. The reduction went into effect yesterday.

IRVING.

The talk of a compromise on dates between the National League and the Brotherhood grows stronger daily. There is nothing in war, and the sooner both sides see it that way the better for base ball. Wilnot, Carroll and Andrews, of the Chicagoans, may not be able to bat any harder than did Anson's outfield of last season, but they are certainly much faster men than Van Halten, Ryan and Duffy. "Grasshopper Jim" Whitney is pitching a strong game for John Morrill's nine in Boston. Mertie Hackett, who caught Whitney when both were members of the Boston team in 1883, is the catcher of the team. In a day or two Manager Primrose will have two strong players in his Metropolitan Club. They are Delmore, who played ball for the Norwalks and New York Reserves last season at second base, and Warner, a catcher of some note. The Canadian Lacrosse Association, at a meeting held in Hamilton, arranged a South-western League, composed of Detroit, Windsor, Chatham, Blenheim and Ridgeway. P. E. Arkell, of Blenheim, is secretary of the district. The Newmarket (Eng.) first spring meeting opened yesterday. The race for the Hastings' plate of 500 sovereigns was won by Baron de Rothschild's Haumea, Abington's Haecker 2nd, White's Kirkham 3rd. There were twelve starters. The Saginaw team defeated the Flint Club on Monday by 8 to 5. The principal features of the game were the excellent batting of Joe Gallagher, who made a long hit over center field, fence for a home run; the pitching of the kid, Kelpo, the one-hand catch of Sippi and the hitting and fielding of Frank Day. Mr. J. B. Perkins, who named and brought out Guy, has a son of the The King, which he will make the people talk about before long. He is a very handsome horse, and is pure gaited. Mr. Perkins is not an enthusiast. He is one of the best judges of horses in Ohio. They are sportsmen out in California. The two-year-old trotter, Sacramento Girl, showed so much speed as a yearling that the breeders did not care to enter colts against her in two-year-old stakes. Rather than spoil sport her owner said he would not let her be entered in races for that age. It is such action as this that makes sport worthy of the name. Several horses are undergoing a preparation in this city for the events at the Woodbine. They are—(Mr. T. D. Hodges, Owner, Dan Curtis, Trainer), Kyrie, blk c (3), by Strachino—Lady Lucy; Kistring, blk f (3), by Strachino—Curtolina; Countess, b f (3), by Newcourt—Tolima. (Col. Peters, Owner); Bonny Gertrude, b m (6), by Lord Byron—Blink Bonny. President Spaulding, of the Chicago League club, said yesterday that all the talk about the National League going back on its adopted schedule was the weak intention of the enemy. The matter of transferring the Pittsburg League club to Chicago, he said, was an affair simply between those clubs, and affected no one else. Mr. Spaulding positively denied any intention of a general change in the League schedule. While the Cleveland team was out West on its preliminary trip the club stopped over Sunday night at Kirksville, a small place in Iowa, not far from Des Moines. Manager Schmelz and the entire club went to church in the evening, and as the men came out of the building came up to Schmelz and said:—"If I get three hits to-morrow I'll go to church twice every Sunday during the remainder of the season." One hundred and thirty-four mares have produced two or more 230 performers by one sire. Green Mountain has checked the list with six performers by Harry Clay. Beautiful Bells, Black Flora and Mianehaha come next with four each, sired respectively by Electioneer, Admiral and Sultan. Tea produced three each, viz.:—Clara, to Rysdyk's Hambletonian; Dolsley, to Jay Gould; Duroc Maid, to Princeps; Emeline, to Aberdeen; Fanny Jackson, to Daniel Lambert; Flora, to Harry Clay; Gin Burner, to Barney Wilkes; Kate, to Rysdyk's Hambletonian; Myra Shaw, to Blue Bull; Ned, to Magie; Waterwitch, to Belmont; and Whalebone, to Daniel Lambert.

A very pleasant time was spent last evening by the Central C. J. S. G. at their usual place of meeting, Wesley Hall. Most of the evening was devoted to art. The quotations were taken from Ruskin and the book "How to Judge of a Picture" was the subject of study. One of the principal points dwelt on was, that a picture should be an autobiography of the artist, expressing his ideas, feelings, impressions or beliefs. In prompt topics were also included in, and some of the members grew quite eloquent in discussing "Africa," "Galistone," "The Dual Language" and "Architecture."

Whist Mr. and Mrs. J. D. Saundy, of London West, were attending divine service on Sunday evening last, some sneak thieves entered the house by taking out a pane of glass and stole two valuable watches and about \$60 in money. No clue has been obtained of the robbers, although it is supposed they were well acquainted with the premises.

Mr. Henry Marshall, Reeve of Dunn, writes—"Some time ago I got a bottle of Northrop & Lyman's Vegetable Discovery from Mr. Harrison, and I consider it the very best medicine extant for Dyspepsia. This medicine is making marvellous cures in Liver Complaint, Dyspepsia, etc., in restoring the blood and restoring manhood to full vigor. A lady writes:—"I was enabled to remove my corns root and branch, by the use of Holloway's Corn Cure. Others who have tried it have the same experience."
