The MAYON—The difficulty is that the City and the Government have to act conjointly in this matter. The certificate should be honored on the signature of the city engineer and the surveyor general.

ALD. BAKER did not think it fair that the corporation should try to hamper the company by unnecessary restrictions. If he were one of the promoters he would drop the whole thing. The corporation of the city had no right to step in and tell the promoters of the company what they shall do and what they shall leave undone. ALD. STYLES said that he attended the recent conference on this by-law, and was disappointed at not having received more information. He had not learned, as he expected, what class of country was to be opened up—whether a big district was to be opened up—whether a big district was to be opened to agriculture, good mines tapped, or what traffic was likely to be gained. He would like to see the citizens properly protected in the matter.

ALD. MCKILLICAN suggested an adjournment, to enable the Council to think the matter over.

ALD. HUNTEE pointed out that Ald.
