BLOOD FLOWS IN RUSSIA

Details of Fierce Street Rioting in the City of Warsaw.

CROWDS SHOT BY MILITARY

Bomb Thrown in the Police Sta- tion Wounding Many Persons.

BERLIN, Aug. 16.—A despatch to the Vossische Zeitung from Warsaw, dated yesterday, gave details of yesterday's rioting. The despatch says: "The disturbance was due to the determination of the revolutionists to revenge the arrest of 140 workmen of an enamelled ware factory. The firing began at 1 o'clock in the morning in various parts of the city, as if by concerted signal. In many places the military fired on the crowds indiscriminately, and the exact number of killed is not yet known. Bodies picked up in the streets continue to be brought in to the morgue on Theodore street, which is guarded by troops. "Many of the wounded conceal themselves, because the soldiers arrest all wounded persons. Strong patrols of 20 to 50 cavalrymen are riding through the streets, searching passers-by for arms. The streets in the Jewish quarter are deserted because of the military patrols knocking down with the butts of their rifles everybody they meet. "A bomb was thrown in the afternoon into the window of the police station, wounding 17 policemen and 20 passers-by."

War of Terrorism

St. Petersburg, Aug. 16.—The war of terrorism which the fighting organization of the social revolutionists declared immediately after parliament was begun in earnest. From all parts of the empire the telegraph brings the same story of attacks on police officials of all classes, accompanied in the majority of cases by plunder. The Polish revolutionists are especially active. There is a veritable reign of terror from the Vistula to the German frontier. Almost fifty cases of assassination were reported early last night.

The resumption of terrorist activity on a large scale makes the task of the police more difficult and darkens the prospect of the present ministry accomplishing anything in the direction of an amelioration of the situation. While for the moment the campaign of the revolutionists is bound to increase the revulsion of the more conservative public opinion against the wild work of the extremists, it is at the same time certain to force the government to redouble the measures of repression, which it is claimed will in the end drive public sympathy back to support almost any means of relief. Some of the despatches from Poland assert that the outbreak of terrorism is in retaliation for wholesale arrests and repressions of the governor-general.

Five Killed

Plock, Russian Poland, Aug. 16.—Last night five policemen were killed and two were wounded. The assassins escaped.

Meeting Invaded

Moscow, Aug. 16.—While the constitutional democrats were conferring at the house of Prince Dolgoroukoff today a sergeant of police appeared and ordered them to disperse; but in the representations of Prince Dolgoroukoff to the prefect of police, that the meeting was of a private nature, the conference was allowed to continue.

Campaign Literature

It is the intention of the constitutional democrats to issue a campaign book containing an article by M. Rodchikoff, Prof. Mitukoff and other leaders.

Denounce Socialists

Warsaw, Aug. 16.—The Polska Gazette and the Davon Polska, organs of the Polish Nationalists, today published strong leading articles denouncing the state of anarchy which the socialists are producing in Poland, whose objects, the papers declare, is not the attainment of freedom, but the bringing about of a civil war.

ACCIDENT AT NAKUSP.

Little Francis Bourne is injured by the Fall of a Derrick.

Nakusp, Aug. 16.—A sad accident befel a little boy named Francis Bourne, about 10 years of age, son of F. Bourne, of Bourne Bros., merchants of Revelstoke, while playing on the C. P. R. transfer slip this morning. Immediately after the arrival of the steamer Kootenay from the south. The steamer Minto was lying alongside the slip at the time, and it is presumed that the swell following the Kootenay after landing moved the Minto against the slip derrick, which unfortunately fell on the barge and caught the boy, fracturing his leg above the ankle and crushing his foot. He was immediately released and attended to by Miss Holton, a trained nurse, a passenger on the steamer, and later was conveyed to Revelstoke for medical attendance. The child was on a visit here, accompanied by his mother.

KING AND EMPEROR SHAKING HANDS

Hold Conference at Cronberg, Prussia—Speculation in Diplomatic Circles—Sir Charles Har- ding's Presence Significant.

CRONBERG, PRUSSIA, Aug. 15.—King Edward arrived here on a special train from Frankfurt at 8:45 a. m. today. Emperor William and the Prince and Princess of Prussia met him at the railroad station. The Emperor assisted the King in alighting and then they kissed each other on both cheeks. The meeting was very cordial. The King wore a black Prince Albert coat and a silk hat. The Emperor had on the uniform of the Posen Jaeger regiment with a steel helmet. King Edward was accompanied by Sir Charles Hardinge, permanent under secretary of the foreign office, Major-General Sir Stanley Clarke, chief of staff, and Major Frederick E. G. Pousobny, equerry to His Majesty. Sir Frank Lascelles, the British ambassador to Germany, and the British consul-general, Francis Oppenheimer, joined the royal party at Frankfurt. After introductions had been exchanged the royal party and their following proceeded to Friedrichshof in

however, avoid all extravagant hopes in this direction, evidently trying to keep within the safe minimum of practical results. Nobody expects positive political arrangements but the Cologne Gazette, which usually reflects the views of the foreign office, expects the rulers to discuss all political questions concerning Germany and Great Britain, and also the general position of European politics. The Post, which also maintains a close connection with the foreign office, cherishes the "great expectation" that much of the ill-feelings and many of the misunderstandings may be removed by a frank face to face talk. A tone of sincere admiration for the King prevails all the leading articles. The Cologne Gazette greets His Majesty with feelings of reverence; the National Zeitung calls him a practical statesman of the first rank, and the Neuste Nachrichten, while complaining that the King's policy has been to isolate Germany, pronounces him a "political artist."

A Strict Silence Maintained

London, Aug. 15.—The strictest silence is maintained in official circles as to the subjects to be discussed by King Edward and Emperor William at their meeting at Friedrichshof. Up to

automobiles. The streets were profusely decorated with evergreens, flags and streamers. Their majesties were heartily cheered by the crowds and school children who were lined up all along the route. Many Englishmen from surrounding watering places were also present.

Press Comment

Berlin, Aug. 15.—The press of all sections treats King Edward's visit to Emperor William from the stand of being a sign of improved relations between the Emperor and the King, and the fact that he is attending the dinner at Cronberg, which is the first step towards the belief that the visit will have a beneficial effect on the people of both countries, besides mending their political relations on a better footing. The papers of the last moment it was not admitted at the foreign office here that Sir Charles Hardinge, permanent under-secretary of the foreign office, would accompany the King. He had been away on a holiday and broke it up to join the royal party on the continent.

SERIOUS BUSH FIRE IN ISLAND DISTRICT

One Thousand Acres Laid Bare in Vicinity of Fiddick's Junction.

NANAIMO, Aug. 16.—(Special)—A bush fire which started at Fiddick's Junction on Friday last turns out to be a conflagration of large proportions, with some sensational features attached to it. The fire started near the old sawmill at Fiddick's and before it had run its course it had swept over 1000 acres of land practically clean. The old mill building, the sawmill, together with a barn and eight unoccupied houses and a considerable quantity of lumber. The fire is not yet over, but the most immediate danger has passed. Unless rain sets in quickly it is liable to continue with renewed activity, and it is hard to tell where it will end. A sensational feature in connection with the affair is that Mr. Thatcher, to whom most of the buildings belonged, together with two or three other residents in the vicinity claim that the fire was incendiary. When the fire first started, Thatcher and others went to the place and found about 75 square yards on fire. From this place they tracked a man's footsteps down towards the river. The marks showed that the man had stopped here and started another fire. They say they do not know who the party is, but have well-defined suspicions, and more may yet be heard of the affair. A few men who fought the fire did heroic work, and for three days and nights not a man went to bed, and they had their meals carried out to them. One man, Mr. Fry, dropped from sheer exhaustion, and blind with smoke and choked with dust, had to be led home, as also did Mr. Thatcher. The whole vicinity is in ashes.

Notifying the people of the vicinity it was found that the young woman had evidently been the victim of a serious attack. She was alive but unconscious. A heavy mark over the eye indicated that a severe blow had been struck, while finger marks on the throat and a terribly swollen tongue showed that if the blow had not rendered her unconscious, an attempt to strangle had.
