DAADER FONORRI

Hon, R. L. Borden and Members of His Cabinet Enthusiastically Welcomed by Halifax People

HALIFAX, N. S., Nov. 2.-This great winter port of the Dominion gave a welcome today and tonight without precedent or parallel to the uncrowned king of Canada.

Mr. Borden put in a busy day inspecting the navy yard, attending the Canadian Club luncheon, and taking a sail around the harbor. Attended by the minister of marine and other members of the government, he took passage at 3 o'clock this afternoon on the steamship Aberdeen. The prime minister's vessel was saluted, and subsequently convoyed by H. M. C. S. Niobe and Can-

Tonight Mr. Borden was the guest of honor at a magnificent banquet, attended by nearly 1,000 people, who crowded the monster Mayflower rink. The meeting was distinguished by a most enthusiastic loyalty to the Conservative party and to its great leader. When Mr. Borden rose to speak there ensued a scene of most remarkable enthusiasm. The entire audience rose to their feet, cheering wildly, and singing by common impulse the National Anthem, and then cheering over and over again until the prime minister imposed silence upon

Great demonstrations of welcome also greeted Hon. George E. Foster, Hon. Frank Cochrane and other members of the cabinet, who responded to the toast of "The Cabinet," eloquently proposed by Mr. A. D. Crosby, Mr. Borden's running mate at the last two elections in Halifax. There were but three toasts-"The King," "Mr. Borden" and "The Members of Mr. Borden's Cabinet."

Mr. Borden's response to the toast his honor was in part as follows: "The policy of the Liberal-Conservative party as presented to the people in the recent contest is before you. I will not dwell upon it tonight. Among some of its principal items are such encouragement of the great and basic industry of agriculture as will enable those who till the soil to receive the highest return for their products, to turn out their products in the highest form, and at the same time preserve the fertility

of the land. "Hand in hand with this is the aid and encouragement which we propose for the purpose of establishing and maintaining permanent highways of a character suitable to our conditions. Some such effort is needed in the interest of effective schemes of transportation which ought to be the aim of every

progressive government. "Regulation of our tariff upon reasonable business principles is an important article of our policy that is to be carmanent tariff commission, which will ascertain all necessary facts in connection with the conditions and cost of production, and which will advise as to the conclusions which ought to be drawn from the facts so ascertained.

"We propose also to extend that re form of the civil service which we initiated while in the opposition, and which the late administration carried out in part upon our initiative.

"So far as trade relations are concerned, we believe that the true idea of reciprocity can be found within the vast dominions of this empire, with its wonderful variety of natural and other products which can be exchanged to the mutual advantage of all. We do he drew his pistol and shot, hitting not claim to be infallibe, but we do claim that as servants of the people of Canada we shall give to our public du- union machinists, his men striking a ties the best that is in us and no man | the time the federated shop employees

names of Sir Charles Tupper and Sir John Thompson are honored today by party. One of them passed away in the full maturity of strength and vigor, and leaving a great name behind him, The other, Sir Charles Tupper, the grand old man of Canada, has attained his ninetieth year, and beyond the seas in the old Motherland he takes as keen an interest in the welfare of this great do- MR. RICHDALE'S minion as he did in the days when he led with marvelous vigor and ability the Conservative party for his province and dominion.

"The courage, faith and achievements of these great leaders will not fail to be an inspiration to us, and I shall be more than satisfied if I may be enabled to perform my allotted task with such advantage to my country as that which characterized their aims and their efforts. I thank you from the bottom of

my heart."

LANSDOWNE, Ont., Nov. 2 .- Hon. W. T. White, minister of finance, made his nomination speech to the Conservatives of Leeds this afternoon. In the course of his address, Mr. White explained how it came about that he found himself minister of the crown without having a seat in the House of Commons. Although a Liberal in the past, he felt that in the negotiation of the reciprocity treaty the government had made a mistake and joined the ranks of the Liberal-

"I entered by the door," said Mr. White; "I did not climb up some other way. After the eelctions I retired to my desk with no intention of continuing in politics, when Mr. Borden sent for me and asked me to enter his cabinet." On the tariff question, he said: "I think I am safe in saying there is in contemplation no immediate change in the tariff. In future there will be no change without the most careful study, and the most just consideration of the claims of all who may be interested."

Cold Wave Comes

WASHINGTON, Nov. 2 .- A cold wave has tightened its grip on the country from the Rocky mountains eastward to New England and southward as far as Northern Texas and across the Gulf states to Northern Florida. Temperatures below freezing were reported from most of this territory today, and weather bureau officials said there appeared to be no warmer weather in sight for a couple of days at least. The first zero weather of the autumn was reported from Huron, S.D. Other tempera tures reported were: Omaha 16, Sioux City, Iowa, 10; St. Paul 16; Amarillo Texas, 16: Oklahoma City 26: Memphis 30; Nashville 28; Asheville, N.C., 20 Chicage, St. Louis and Indianapolis 22; Cincinnati 26: New York 36: Philadelphia and Washington 40; Burlington, Vt.

Short of Gasoline

VIIMA, Arizona, Nov. 2.-Aviator Cal P. Rodgers had his first bitter experience with the Arizona wastes today. though he has been flying over them for the last two days. Flying at an altitude of more than 3,000 feet, Rodgers was compelled to land at Stoval Siding, 60 miles east of Yuma, late today because his supply of gasoline was exhausted. Stoval Siding is not a very populous village, consisting merely of the station nouse and many sand dunes. There was a telegraph operator there, however, and this is what saved Rodgers from a much more unpleasant experience. As soon as he landed, Rodgers rushed to the station and telegraphed to Yuma for special train to bring him a supply of

Mme. Albani's Experience LONDON, Nov. 2.-Mme. Albani, who has just taken farewell of the musicloving public at the Albert Hall, once went over to Berlin to sing in Wagner's "Lohengrin," and the old Emperor was so delighted with her performance that next day he sent to her a beautiful white swan of the sweetmeat kind, together with a diamond bracelet. To a friend the English singer remarked that only once before had she been equally delighted, and that was on the occasion of her marriage with the impresario, Mr. Ernest Gve. when "Punch" included here in his series of "Fancy Portraits" with the legend "A thing of beauty is a Gye for ever!"

Quarrel Arising Out of Machinists Strike at Portland Leads to Fatal Shooting

PORTLAND, Ore., Nov. 2.-William A. Wortman, a union machinist, was shot and killed late today by Burt Hicks, proprietor of a small machine

The shooting occurred in a store at ried out by the establishment of a per- Grand Avenue and East Morrison street, after the men had fought their way from the sidewalk, where the quarrel commenced. Hicks surrendered himself to the police. He admits the shooting, but says it was in self

> defence. According to the story that Hicks told the police, Wortman had followed him for several blocks, and when Hicks stopped at the store entrance, Wortman walked up to him and applied a vile epithet. Hicks responded in kind and the men clinched. They scuffled through the store entrance and half way back to the main aisle, when, Hicks, declares, Wortman made a motion as if to draw a revolver When his opponent did this, Hicks says

Former Grand Vizier Said to Have Excuse for His Failure to Provide for Defence of Tripoli

LONDON, Nov. 2.-The Daily Telerraph's Constantinople corresponder says a sensation has been caused by the revelation that Hakka Bey, the exgrand vizier, if impeached for failure in the defence of Tripoli, will declare that the German ambassador repeatedly assured him Italy would never send a regiment or a ship to Tripoli. For that reason his cabinet had not considered it necessary to despatch troops, or war naterial to Tripoli.

Driven Back by Turks TRIPOLI, Nov. 2 .- The Eighty-secon Italian infantry was forced to fall back rom its position by a force of Turks which appeared before the line of deexplode rendered ineffective fire from furkish guns brought up south of El Mosri today. Address to Soldiers ROME, Nov. 2.-A dispatch to the Giornale Italia from Tripoli describes the observance of All Souls' Day at the Italian military headquarters at Bumelina. After the chaplains had celebrated mass, each general addressed the soldiers, urging them to imitate the example of the officers and men who had won victory and honor for their country by shedding their blood. The thousands of soldiers responded with cries

of "Long live Italy." New Move Reported MALTA, Nov. 3 .- It is reported that

the whole Italian fleet has left Tripoli for Turkish waters.

Recapture Possible LONDON, Nov. 2.—The Daily Mail Constantinople correspondent writing from Tripoli under date of October 27, describes the situation as extremely grave, and adds that the idea that the Turks and Arabs may recapture the town is not so impossible as may seem to the outside world. He says:

"The Italian lines have been drawn in until they are little beyond the town itself. The failure of the attempt of the retreating Italians to blow up the old Turkish fort containing a large stock of shells makes it possible for the Turks merely to walk in and resume pessession of the fort."

The Daily Mail's Constantinople correspondent says: "The latest news from Tripoli received at the war ministry vanced to posts 200 yards from the town. The minister of the interior has issued a decree subjecting the Italians to an income tax and municipal dues, from the laster of which subjects even of non-capitulation powers are free."

A dispatch to the Daily Mirror from Tripoli, dated November 1, says: "The Turks yesterday shelled the town from Fort Hamedi, which the Italians were obliged to abandon. The fleet replied, wrecking the fort. It is reported that many Turks were killed. All is quiet today."

BRUISES AFTER DEATH

Evidence Given by Undertaker in Mus der Trial Buns Counter to Common Belief

REDDING, Cal., Nov. 2.-Evidence nding to upset the theory of the prosecution in the trial of Daniel Fleming of George Villier, of Tacoma, was introduced today by the defense. The strong est evidence was given by W. P. Buckley, an undertaker at Tacoma, who at the coroner's inquest proved an equally strong witness for the prosecution, laying the foundation for the theory that bruises cannot be caused lipon a after death. Buckley was called to the stand today by the defense and said that he desired to change his testimony on that point. He declared that experiments performed by him as deputy coroner of Tacoma proved that a blow upon a dead body would cause an abrasion that could not be told from a

ruise received before death. Villiers was killed upon the roof of Southern Pacific freight car, and Fleming is charged with having beaten and choked him to death. A photograph of bruises on the neck of the body purporting to show that they were received before death is a part of the evidence

in the case. A. M. Dick, a local undertaker, testified today that in preparing the body for shipment to Tacoma, he tied a cord about the neck. The photograph of the

bruises was taken in Tacoma Buckley on the stand today cited the experiments he had made in Tacoma since he was first called in this case. He said that four days after the blows had been struck, bruises became visible. He told of experiments upon several odies, all of which resulted, he said,

Trial Judge Barber, who had been sked to commit Fleming to jail during the trial, announced today that he would decide tomorrow. Fleming is now at liberty on \$25,000 bail.

FIFTY LIVES LOST WHEN STEAMER SANK Japanese Steamer Shintsu Maru, For merly Baron Cawdor, Went Down

Off Hainan Island in Typhoon

The steamer Cyclops, which reached the outer wharf Wednesday night from the Orient, brought news of the loss of the steamer Shinshu Maru, former ly the Baron Cawdoi, in a typhoon off Hainan Island, with loss of many of the crew. The Shinshu Maru, 3,400 tons, left Milke on September 13th, with 57, of a crew, bound for Singapore with a cargo of 4,000 tons of coal. On September 18th the hurricane increased in force and when night closed in the Shinshu Maru was riding on the crest of mountainous waves one moment and the next she was wallowing in the trough of the sea, while a furious wind swept her decks, and a torrential downpour of rain made it impossible for the crew to see the length of the ship. The lifeboats were washed away with most of the deck fittings. and the hatches were torn from their fastenings. But the steamer continued to ride out the gale, until the water found its way into the engine room fence last night. Failure of shells to and put out the fires. Then all control of the vessel was lost, and waves broke high over her.

The steamer rapidly became waterlogged, and it was apparent to master, officers and crew that she must soon go under. It was equally evident to the seamen that every man must shift for himself. At two o'clock on the morning of September 19th the Shinshu Maru went down, but owing to the hazy weather the captain lost his bearings, and is unable to say where the wreck now lies, beyond the fact that it is somewhere in the vicinity of Hainan Island. Captain Murase clung to a drifting spar, and a stoker was also washed ashore clinging to a piece of

Captain Murase was adrift 12 hours after the foundering of the ship. At about three o'clock on the afternoon of the same day, he was washed ashore near a village in the Wenchangshin district of Hainan Island. After a spell on the beach the weary mariner walked to the village, but not caring about the look of the villagers, who appeared to be anything but hospitable, he made a hasty departure, and travelled close to the seashore until darkness set in. Then he lay down by the wayside and slept the sleep of the ex hausted until early on the morning of the 20th, when he again resumed his journey. He reached another village before noon, and this time he fell into the hands of friends. Going to the school, he succeeded by writing in making the Chinese schoolmaster acquainted with his plight, and the sympathetic villagers, when they were told the story, willingly rendered him every assistance. At his request a search party set out to look for castaways and returned with the rescued stoker. The that in the struggle for the possession captain remained with these kindly villagers for a couple of days, during crew were found.

NELSON SCHOOL QUESTION

Small Hope of Provincial Governmen Making Extraordinary Grant Savs Hon. Dr. Young

The provincial department of education has as yet received no new request from the city council of Nelson for special financial assistance in connection with public school maintenance during the remainder of the year, although Mayor Selous is quoted in current press despatches as saving that he "has every reason to believe the provincial government would pay a nortion of the cost of operating the schools until the end of the year, the grant by the council having been exhausted." Hon. Dr. Young holds out but little hope that any such suggested application for financial assistance would be successful, indeed pointing out that previous requests of similar Oakland for the alleged murder of character have been of necessity refused.

Dominion Cooperage Production The amount of cooperage produced canada during 1910 has been compiled the Dominion Forestry Branch at Ottaw Reports were received from one hundre and thirty-three firms, of which ninety-for Reports were received from one hundred and thirty-three firms, of which ninety-four were in Ontario, showing that slack and tight cooperage was produced in Canada to the value of one million seven hundred and forty thousand dollars. As the hardwood forests of Canada are already greatly depleted, and as the Canadian products transported in barrels are chiefly flour and apples, requiring only slack cooperage, the tight cooperage stock manufactured in 1910 amounts to only one-fifth of the total value. Barrels made from tight stock are used as containers of oils, alcoholic liquors and other liquids, and as Canada has practically no wood of sufficiently clear quality for such stock, the most of it has to be imported as staves or stave bolits from the United States. Of the total, slack cooperage made up one million three hundred and ninety-five thousand dollars, which is two two hundred thousand dollars, which is two two hundred thousand dollars less than the 1909 value. Notwithstandings the decrease in value of slack cooperage for 1910, the number of pieces produced was five hundred thousand more than in 1909. Practically no cooperage is manufactured in Canada for export, and whatever quantity is shipped out is the cooperage left. tity is shipped out is the cooperage left on the manufacturers hands after the do-mestic market has been satisfied. In the middle of the last decade the export trade was quite an important branch of the cooperage industry, but in 1910, exports of staves, heading and barrels amounted to only one hundred and fifteen thousand dol-

WASHINGTON, Nov. 2.-Attorneys nterested in the Oregon cases, involving the constitutionality of the initiative and referendum, waited throughout today in the supreme court of the United States hoping that their cases would be reached. They were disa ointed. The court was unable to dispose of business ahead of the cases before adjourning for the day. These probably will be taken up for consideration tomorrow.

Massace of Hankow Inhabitants by Imperialist Troops Expected to Complicate Situation in China

PEKIN, Nov. 2 .- The massacre o natives at Hankow by Imperial troops ntelligence of which has reached both the war office and the German legation, may prove a serious hindrance to the peace negotiations with Yuan Shi Kai has been endeavoring to inaugurate with the rebel leaders. The Imperialists have apparently got beyond con trol, and further fighting is feared. In such a case it will be difficult to profect the foreign concessions, as they are separated from the native city by streets only 50 or 60 feet wide.

It is reported that the board at Pekin has declined to accept the suggestion of foreign doctors to form a Red Cross society on the lines of the Geneva convention, the board seemnig to feel that the rebels do not deserve humane treat ment. The massacre, according to some advices, began before the depart

ure of General Vin Tchang. The exodus from Pekin continues, the doors of many shops, as well as the private houses, being closed in anticipation of a massacre. The missionaries, who have had a conference with the le gations, have decided that the new soldiers placed in each of the four large misson compounds would suffice to prevent ordinary outlawry and looting, which is expected to begin any night. Should there be a general outbreak, all the others could take refuge in the Methodist mission, which is immediately east of the legation quarter and is easily defended.

An official despatch from Shih Kai Tan, Shan Shi province, says that a regiment of Shan Shi troops, which has been dispatched to assist the imperialists, has mutinied. The mutineers killed their brigadier-general and then bombarded a Manchu city, massacring thousand Manchus, including the gov-

ernor and his family. General Yin Tchang, who until a few days ago was commander of the Imperial forces at Hankow, returned here today. There was a great crowd at the station at the time of his arrival, but no demonstration occurred.

It is understood that the national as sembly is showing determined opposition to the foreign loan for which arrangements have been made, arguing that such a loan is unnecessary.

At Close Quarters.

Letters dated October 29 and 30 from the Associated Press correspondent with the imperialist army at Hankow say of the city there was hand to hand fighting in the streets, the quarters bewhich time they assisted him to make ing too close for shooting. The rebels, a thorough search of the vicinity, but mostly raw recruits, not understanding none of the missing members of the the use of the rifles, were driven back with much slaughter, their dead piling up on the quay. The casualties among the imperialists for two days, October 28 and 29, were 30 killed and 160 wounded. The rebels had about 700 killed and wounded.

The fighting, continues the correspondent, until the last three days had not been serious. The rebels had the advantage in artillery, but their shells did not explode. The imperialists had the advantage in troops, but they were poorly provisioned. No prisoners were taken. Rebels captured alive were sho

or decapitated. It is learned that the most barbarous outrages were perpetrated on innocent persons in the villages. An officer of Yin Tchang's staff explained that the outrages were committed by only forty men of the Hupeh division.

General Yin Tchang refused permision to the correspondents to proceed to the front and placed them under the strictest surveillance. At headquarters all telegrams undergo the strictest censership. The staff officers, says the orrespondent, are quartered in an express with engine attached for imme diate service.

Poreign Officers. The chief of staff, Colonel Yin, is now at the front directing operations. The general staff consists mostly of Ger man and Japanese trained men, but the campaign does not reflect much credit. them, as they are seemingly ignorant of the country.

The soldiers are not bothered by the fficers and do as they please. Comng from the northern provinces, they have no sympathy with the rebels. Prior to the opening of operations on ctober 27, General Yin Tchang told the respective commanders that the advance must be made and rewards were offered to the soldiers for every man captured. The advance was slow be cause the imperialists had to advance through pools of water for much of the distance. The rebels, who at first numbered not more than 1,000, shot from the house tops until compelled to re-

LONDON, Nov. 2.—A special dispatch rom Shanghai says the imperial troops set fire to the native city of Hankow on Monday night. The city, the dispatch adds, has been burning fiercely since. Parliamentary Demands

LONDON, Nov. 3 .- The Peking correspondent of the Times says the national assembly which is school as a restrain-

ing influence-upon the military, will insist upon the removal of all Manchu prerogatives, the disbandment of all thu corps throughout the empire, the abolition of the Manchu pension list on one year's notice, abolition of eunchs, the discarding of the queue and

distinctive Manchu dress. Finally, the assembly aspires to abolish all customs, laws and regulations which are incompatible with a constitution on the British model.

TARIFF REFORM

Report for Past Year Says Movement Has Been Accelerated by Ocourrences in Canada

LONDON, Eng., Nov. 2.-A report ssued today declares that within the east year the tariff reform movement has advanced more rapidly than during any previous period since the league formed. The advance was greatly assisted and accelerated by the American offer of reciprocity to Canada. The report says the dramatic result of the Canadian elections had removed this menace to the unity of the empire, and had ensured the triumph of the imperial policy.
