THREE HUNDRED PER CENT PROFIT

Romantic Story of Dominion Textile Company.

(Toronto Globe Editorial.)

The story of the Dominion Textile Company as unfolded before the Parliamentary Committee on the Cost of Living is so romantic that it would have been unfair to the public if the tale had been buried in a dry financial statement.

The company was organized only in 1905, but it has done amazingly well for its age. It issued preferred stock to the companies it took over, and adopted the favorite device of creating millions of common stock, mostly water, as a pledge of its faith in the future. The net earnings in the past fiscal year were $3,434,752. After deducting rentals, bond intrest, preferred dividends, and war taxes, and making ample allowance for depreciation and replacements, there was available $1,559,888 as profits on $5,000,000 of common shares which represented only $500,000 in cash. The common shareholders got $479,000, leaving a surplus of $1,159,888 which was added to previous surpluses of $2,189,194—a tidy nest-egg, $3,349,082. The $4,500,000 of common stock for which not a dollar has been paid has been quoted as high as $100. a share. It was explained that the company had bought raw cotton at $22 a hundred pounds and the price had risen to $50., but the company maintained that the benefit of this should go to itself, not to consumers.

The Dominion Textile Company is a lusty infant, but it would resist any attempt to deprive it of its tariff bottle. The country has a whole nursery of the same kind.

COPENHAGEN CHEWING TOBACCO

Copenhagen is used differently from ordinary chewing tobacco.

Take a small pinch, for a start, and put it between the lower lip and gum, in the centre.

Afterwards you can increase the size of the pinch to suit the strength of the chew you desire.

Copenhagen is strong, because the tobacco of which it is made is cut into fine grains, which makes it impart its strength thoroughly and quickly.

Hence, a little "pinch" goes a long way, showing that Copenhagen is not only an unusually economical chew, but also one of the finest quality, being made of the best, old, rich, high-flavored tobacco.

HUN WARSHIPS IN GERMAN WATERS ARE REPORTED SENT DOWN

Were Anchored Off Kiel, Wilhelmshaven and Other Points.

Weimar, June 22—(By the Associated Press)—The German warships were not surrendered to the Allies and which have been anchored off Kiel, Wilhelmshaven and other points, have been sunk by German sailors manning them, according to a report received here from a reliable authority.

Accoding to the report there were twelve German war vessels, besides destroyers, which were in German waters, not having been turned to the Entente under the armistice provisions.

London, June 22—Early this morning a violent explosion occurred close to the spot where one of the German warships was sunk yesterday, says a Kirkwell despatch to the Central News. A huge column of water and much debris were thrown up.

The single German warship, which remained anchored last night, has gone aground. All the German crews have been placed aboard the British battleship Royal Sovereign.

MISSING SOLDIER.

Another case of a missing soldier is mentioned in the Halifax Recorder which tells of the arrival of Mrs. Baillie of Dalhousie, N. B., in that city to meet her son Claude. He had telephoned her of his arrival, and it was ascertained by the police that he had telephoned from a pay station in Halifax, after which he had disappeared. He returned from overseas two years ago and went to Racine, Wis., for his health, leaving there for home early in May. He was next heard of in Port Huron, but the Recorder says he has never reached home. He is described as twenty-one years of age, about six feet tall, weighing 160 pounds, with dark brown eyes and nearly black hair, with a large mouth.

Getting killed in an automobile accident is rather common. A most up-to-date method is by falling out of an aeroplane.
