

FIRE. FIRE. COAL. FIRE. FIRE.

We beg to announce that notwithstanding the severe loss sustained by us in the almost total destruction of our coal docks by fire, we are in a position to furnish

FRESH MINED COAL WITH PROMPTNESS AND DESPATCH.

We have arranged with the Lehigh Valley Company to ship daily in box cars direct from Mines,

Newly Mined Coal in First-Class Condition,

Which we offer at lowest market prices. Coal damaged by fire

WILL BE DISPOSED OF AT ONCE AT SPECIALLY LOW RATES,

As we desire to rebuild our Coal House as quickly as possible in order to fill it with

NEWLY MINED COAL.

We desire on this occasion to thank the public for many kind expressions of sympathy, and assure them that our business will suffer no interruption.

J. R. BAILEY & COMPANY.

She Knows the Way.
A pretty little brunette, says the New York World, sat in the end of the reserved seats on the grand stand on the polo grounds one day last week.

"Do you know," she asked her escort, "that there are many really well educated men who play ball for a living? There's Johnnie Ward, the short-stop of the New York team. They tell me he is remarkably bright in legal matters. He was graduated from Columbia law school with high honors recently. It is said he intends to study under Roscoe Conkling. There is Jim O'Rourke. He is a civil engineer by profession, they say."

"But you know Decker? No? Well, he was an umpire whose decisions caused general dissatisfaction. He is a lawyer. I don't think much of a lawyer who can't give fair decisions or opinions on such trivial matters as baseball plays, do you?"

"But the funniest experience I have had was one day last summer. Charlie and I were driving on a road just outside Cincinnati, when he came upon an artist sketching a pastoral scene. He was a nice-looking young man, and I asked him to let me look at what he had done. In the afternoon Charlie and I went out to see the game between the Cincinnati and Athletics. The first player who attracted my attention was the artist whom I had seen at work in the morning. I asked a man near me what the player's name was, and he said: "Dat Long John Reilly, der best first baseman."

When Napoleon talked of invading Italy one of his officers said: "But, sire, remember the Alps." To an ordinary man these would have seemed simply insurmountable, but Napoleon responded eagerly: "There shall be no Alps." So the famous Simplon pass was made. Disease, like a mountain, stands in the way of fame, fortune and honor to many who by Dr. Pierce's "Golden Medical Discovery" would be healed and so simply insurmountable. It is specific for all blood, chronic lung and liver diseases, such as consumption (which is scrofula of the lungs), pimples, blotches, eruptions, tumors, swellings, fever-sores and kindred complaints.

—West Toronto Junction is within a few minutes walk of the Union station by the trains of either the Ontario and Quebec and the Grand Trunk or the Northern. The proper dessert for an undertaker—Berry pie.

—Ayer's Ague Cure is strictly a vegetable preparation and is warranted to cure all malarial disorders.

The rich relative always dies a lingering death.

—Consumption and melons are "forbidden fruit" to many persons so constituted that the least indulgence is followed by attacks of cholera, dysentery, griping, etc. These persons are not aware that they can indulge to their heart's content if they have on hand a bottle of Dr. J. D. Kellogg's Dysentery Cordial, a medicine that will

IT LEADS ALL.
No other blood-purifying medicine is made, or has ever been prepared, which so completely meets the wants of physicians and the general public as

Ayer's Sarsaparilla.
It leads the list as a truly scientific preparation for all blood diseases. If there is a lurking impurity of the blood about you, cleanse it and expel it from your system. For constitutional or hereditary Catarrh, or for any other disease of the blood, which are indications of scrofulous origin.

"Hutto, Tex., Sept. 23, 1882."
"At the age of two years one of my children was terribly afflicted with a disease which was terrible to me. At the same time his eyes were swollen, much inflamed, and very sore. Physicists told us that a powerful and artificial medicine must be employed. They united in recommending AYER'S SARSAPARILLA. A few doses produced a perceptible improvement, which, by an adherence to your directions, was continued to a complete and permanent cure. No evidence has since appeared of the existence of any scrofulous tendencies, and no treatment of any disorder was ever attended by more prompt or substantial results."
Yours truly,
E. F. JOHNSON.

THE FRUITFUL SEASON.
The fruitful season of the year is prolific with many forms of bowel complaints, such as diarrhoea, dysentery, cholera morbus, cholera infantum, etc., as a safe-guard and positive cure for these distressing and often sudden and dangerous attacks nothing can surpass that old and reliable medicine, Dr. Fowler's Extract of Wild Strawberry.

—Jos. Beaudin, M.D., Full, P.Q., writes: "Dr. Thomas' Electric Oil commands a large and increasing sale which is richly merited. I have always found it exceedingly helpful; I use it in all cases of rheumatism as well as fractures and dislocations. I made use of it myself to calm the pains of a broken leg with dislocation of the foot, and in two days I was entirely relieved of the pain."
—"When all other remedies fail" for bowel complaint, colic, cramps, dysentery, etc., "then Dr. Fowler's Extract of Wild Strawberry comes to the rescue." Thus writes W. H. Crocker, druggist, Waterdown, and adds that "its sales are large and increasing."
