The catarrh had made its way so gradually into his lungs that he did not realize his condition until he was examined for the above company and rejected, being made to believe that he was not lung for this world.

His lungs gave him much pain, and he was gradually growing weaker, having lost over 20 pounds. No medicine seemed to give him any relief.

His heart also seemed to be sympathetically affected and gave him much pain.

The doctors said his spleen was diseased and very much enlarged. His pulse was very high, tongue coated, and he had lost all energy and took no interest in anything until he heard of so many patients who had been cured at the Medical Institute. 198 King west, and he determined to call upon them, knowing that they charged nothing for consultation and advice. After a careful examination the doctors told him that his case, though serious, was not a hopeless one, and, under proper treatment, he would recover. He therefore began treatment with them, and to his surprise he improved so last that he soon found himself completely well and has had no return of the symptoms, although it is now more than one year since he stopped treatment and he has been in perfect health ever since, as can be verified by any une who will call and see Mr. Walker for themselves. This is no miracle or Faith Cure, but one of those stubborn facts which is of daily occurrence at the Medical Institute, and can be substantiated and will bear investigation by any one.

Mr. Walker is a well-known manufacturer and proprietor of the Dust-proof Cheese and Cracker Show-case.

It appears to be perfectly durable, does not absorb fluids, and is consequently always sweet and clean. Another good feature it possesses is that it never becomes slippery. I do not see how it is possible to have a more satisfactory flooring for stables. Yours very faithfully, FREDERICK W. STRANGE, M.D.
