The fact that prices of securities on the Toronto Stock Exchange did not break on Friday to the low prices quoted on the Montreal Exchange was encouraging to holders, and the feeling on Saturday improved some, with stocks closing strong at an advance.

Some investment orders were put in for Commercial Cable, and good things seem to be expected of this security. It is said that the average earnings last week of this company show an increase of \$1500 per day over the corresponding week of last year.

The rates for call loans on Saturday n Wall-street do not reflect the con-lition of the money market. There are o deliveries on Saturday, and interest

on Monday. Last Saturday the quoted rates of interest were nominal.

A member of one of our largest grain exporting houses told a World representative on Saturday that there was a good Continental demand for Manitoba hard wheat and that exports are likely to increase considerably in the near future.

Wheat in Chicago on Saturday sold as low as 56 7-8c for May delivery. This is the lowest price yet recorder for the present crop. On Monday it is estimated that the visible supply in the mear continuous hard wheat supply in the mear continuous hard will increase from 2 to 3 million bushels for the week.

McIntyre & Wardwell (John J. Dixon) received the following despatch to-day from Schwartz, Dupee & Co., Chleago:
Wheat made a new low record to-day-50%c for May, but it closed a shade better than last night. It was an exceedingly nervous market, made so by the condition of Wall-street. The steadying influences were firm cables, the large export business done at New York Friday, the appointment by the President of a very satisfactory Venezuelan commission and the prospect betwen now and Monday of a cold wave. The Friday's export business at the seaboard was put as high as 1,000,000 bushels. Northwest receipts were not so large—672 cars, against 924 last week and 329 last year. Clearances from both coasts for the week 2,056,000 bushels. The cash business here was limited. Estimates on the visible put it between 2,000,000 bushels exceed the was a lot more liquidating by hold ers. When the weather forecast was is sued, indicating a cold wave within 48 hours, there was important local covering. The Modern Miller was rather bearish claiming that wheat had been greatly in proved by the recent rains. It is conced ed that financial matters will dominate everything for a while. Still there is more confidence than there was Friday or Thurs day in good things. If good securities should steady and begin to advance when would find friends.

Corn. Wet wenther and impassable road west mrde a firm corn market. Receipt were small—280 cars; the estimate Monday was 235.

There was a good cash deman for immediate shipment, but rail rates expire in about a week. That may chang the cash situation. Seaboard clearances 2,000 bushels.

Provisions very soft early. The pit was raily against the market advanced o covering of shorts, chiefly by the English house, and closed firm at about the sam price as yesterday. The hog market word on the market it is difficult to forecast it course the coming week, but it preser conditions continue lower prices as more conditions continue lower prices as more conditions continue lower prices as more cond A trial solicited.
