A ONE HORSE FARMER

We Do Not Want This Kind in Bridgetown

He will ride around a week looking for a \$2 pig.
He will sprain his back lifting something to show how strong he is.

He will pay \$3 for a new bridle and let the calf chew it to pieces before Sunday.

The one horse farmer has a life long ambition to wear a dirty shirt.
He will get all the neighbors to help in getting a cow out of a bog then let her die for want of attention.

Stock will get in and destroy his crop at a place in his fence he has put off fixing for six months.

He will complain of hard times and then tear his pants climbing a fence where a gate ought to be.

He will alarm the neighborhood by getting up before day and setting around and not going to work before sun up.

He will ridicule the mechanism of a corn planter and then go out and smash his thumb nailing a board on the fence.

He will talk all Sunday about what he knows about farming and then ride around the neighborhood Monday looking for seed potatoes.

He will go to town Saturday and come back with fifty cents worth of coffee a paper of pins, and a dollar's worth of chewing tobacco.

He will go in his shirt sleeves all day to show how much cold he can stand then return home at night and occupy two thirds of the fire place till bed time.

He is economical; economy is his fort. He will save ten cents worth of axle grease and ruin the spindle of a wagon. He won't subscribe for a paper, but will borrow one from his friend and forget to return it.

THREE EGGS FOR A NICKEL IN CHINA

Coal 50 Cents a Ton and Wheat 30 Cents a Bushel Rebuilding Shanghai

NEW YORK, March 8.—About 300 members of the American Manufacturers' Export Association got a thrill when Julian Arnold, commercial attaché at Peking, told them about China.

For, said Mr. Arnold, anthracite coal sells there for fifty cents a ton, wheat brings 30 cents a bushel, and eggs are practically free at three for a nickel. But as the attaché pointed out, that's no Chinese panacea for the H. C. of L. West China, lacking transportation can't get the stuff out into the world. The Chinese, he said, are rapidly injecting the Occidental idea into their business and they are particularly keen for building materials and methods from the breezy western nations.

Shanghai, which is the New York and Chicago combined of China, is being virtually rebuilt under the direction of American architects. Mr. Arnold advocated the introduction of young Chinese into American business houses as likely to stimulate Chinese-American trade and national good feeling.

Selling abroad under the present adverse exchange conditions was discussed by Joseph McElroy, an exporter. He said business men should make an effort to halt the proposed scheme to shelve the bureau of foreign and domestic commerce. Mr. McElroy disclosed that certain English firms were counting on English exchange getting around normal at the end of six months, but said he was not so optimistic himself.

ONTARIO RURAL SCHOOL FAIRS
During the year 1919 the Ontario Department of Agriculture, through its agricultural representatives, distributed seeds and eggs to 78,946 pupils in 3,278 rural schools of the province. R. S. Duncan, B. S. A., writing in the Agricultural Gazette, for January states that the following quantities were distributed: 1,890 bushels of potatoes, 432 bushels of grain, 12,575 packages of root seeds, 30,700 packages of vegetable seeds, 21,900 packages of flower seeds and 11,045 dozens of eggs of a breed to lay strain of Barred Plymouth Rocks. These figures give some idea of the magnitude of the school fair movement in Ontario.

The first school fair was organized in 1909 with three schools taking part. Ten years later 357 rural school fairs were held in the province and the pupils had 69,848 home plots and made 111,823 entries. It is estimated that about 250 people saw the first school fair in which 58 pupils took part, while last fall 92,600 children and 107,599 adults attended the school fairs in Ontario. This is truly a wonderful growth.

RE-MODELLING OF "CORNWALLIS INN"

The extension improvements on the new D. A. R. Hotel, "Cornwallis Inn" at Kentville are being pushed rapidly forward. The two wings are about completed and ten new baths are being installed. The glass enclosed verandah when completed will give a very pleasant and sunny appearance to the dining room, which will be greatly enlarged. The ladies' parlor with its fine large fire place and furnishings, will open into the ladies glass enclosed sun parlor and writing room, which faces the D. A. R. Tennis Courts. When re-modelling is completed this will be one of the finest hotels in the province. Notwithstanding the extensive building operation being carried on this popular hotel is filled to capacity, every effort being expended in inconveniencing guests as little as possible.

MEAN WEAK BLOOD

A Tonic Medicine is a Necessity at This Season

Dr. Williams' Pink Pills are an all year round tonic, blood builder and nerve strengthener. But they are especially valuable in the spring when the system is clogged with impurities as a result of the indoor life of the winter months. There is no other season when the blood is so much in need of purifying and enriching. In the spring one feels weak and tired—Dr. Williams' Pink Pills give strength. In the spring the appetite is often poor—Dr. Williams' Pink Pills improve the appetite tone the stomach and aid weak digestion. It is in the spring that poisons in the blood most often find an outlet in disfiguring pimples, eruptions and boils. Dr. Williams' Pink Pills speedily clear the skin because they go to the root of the trouble in the blood. In spring anaemia, indigestion, neuralgia, rheumatism and many other troubles are most persistent because of weak, watery blood and it is at this time when all nature takes on new life that the blood most seriously needs attention. Among those who have proved the value of Dr. Williams' Pink Pills is Mr. Archie D. Carmichael, Tarbot, N. S., who says—"For a number of years I was bothered with pimples which would break out on my face and body. The trouble was always worse in the spring and although I tried different treatments, it was without much success. In the spring of two years ago, the trouble was worse than usual and although I was taking medicine it did not help me until I finally decided to try Dr. Williams' Pink Pills. Under this treatment the pimples disappeared and there has since been absolutely no return of the trouble."

Dr. Williams' Pink Pills can be obtained from any dealer in medicine or by mail at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

\$1365 GR

F.O.B. CHATHAM WARTAXTRA

When the Gray-Dort was designed our engineers had two definite orders: "Build an economical, simple priced car."

"Build a light car, at least stronger and finer and greater value than the usual twenty-five pound light-car purchasers have been getting. The original Gray-Dort was built these orders. Every improvement refinement since that time has been in line with this policy.

And yet the price is only \$1365, what you get in to-day's Gray-Dort \$1365.

A big motor—3½-inch bore and 4-inch stroke—finely finished and running. A forty-pound crankshaft against the usual twenty-five pound crank. Three-ringed pistons, instead of so. Three-ringed pistons, instead of so. Ringed. Cellular radiator, instead of tube and fin. Newly improved carburetor. Improved Connecticut. The starting and lighting system is Westinghouse, a big car feature.

We designed a bigger and better rear axle light car—and we are having it built exclusively for the Gray-Dort here in Chatham. We've set a new standard of safety by Thermoid brake-lining. We've increased safety by building a steering gear 50% bigger stronger. We've put in a bigger gas tank, top is really a one-man top. The gears can be shifted with two fingers' pressure. The emergency brake is now on a lever. The instruments handy.

With a shorter cowl, there is more room in the driving department. There are 60 inches more leg-room in the tonneau. Side-curtains open with the doors. You sink the seats at the most comfortable angle. The top is really a one-man top. The gears can be shifted with two fingers' pressure. The emergency brake is now on a lever. The instruments handy.
