Huntington, W. Va.—Mrs. Eloise Hughes Smith, a survivor of the Titanic disaster in 1912, who was granted a divorce a month ago from Robert P. Daniel of Philadelphia, another survivor of the same disaster, was married a few days ago at Trenton, Ohio, to L. C. Cort, of Huntington, former Penn State athlete. Announcement of the marriage was made by the bride's mother, Mrs. James A. Hughes.

TO AVOID PAINS OF RHEUMATISM

This Trouble Is Located In The Blood, And Relief Comes Through Better Blood.

Rheumatism comes with thin, impure blood, and can only be driven out of the system by enriching and purifying the blood. The chief symptom of rheumatism is pain. The most successful treatment is the one that quickly banishes this disagreeable symptom. Many rheumatic people suffer pains that could be avoided by building up the blood. The value of Dr. Williams' Pink Pills in rheumatic troubles is proven by the testimony of Mrs. A. Bryson, Arthur, Ont., who says: "I was so used up with rheumatism in my shoulders and neck that I could not turn in bed without the help of my husband, and the pain at times was almost unbearable. I took doctors' medicine which did me little or no good. Then I began taking Dr. Williams' Pink Pills and have since been free from rheumatism. I can also recommend the pills to young mothers, as in my own case I found they are unexcelled. I may also add that I recommended Dr. Williams' Pink Pills to a neighbor who took fainting spells at the change of life, and who could not walk any distance. She took the pills for nearly three months and they made her a strong and healthy woman."

(Continued from Page Two) FOREST PROTECTION

in France and Belgium. This area had been denuded of trees to furnish material during the Napoleonic wars. It was replanted, and the result was the forest of Glenmore sprang up again as vigorous as ever and supplied the trees for use against the Germans. Farmers might well put all their uncultivated land into timber cultivation and conserve their bush acres by removing dead and fallen trees, and otherwise put to practical use the knowledge of forestry they have acquired. More and more should Canadians adopt all available measures for forest protection, insect and disease control, and by cutting timber in such a way as to provide for renewed growth. Until the practice becomes general and Canadians are as careful to avoid injuries to a forest crop as they would be to a wheatfield—and have the reverence for a tree the poets sing about, we shall always be up against the "forest and timber conservation problem." Members of parliament should try to recognize that this forestry problem is an agricultural problem. Timber is a crop. Mr. Barnum's letter is concise and is worthy of careful and serious perusal by our legislators, who would do well to heed his suggestions, the adoption of which might go a long way towards increasing the wealth of the timber crop. The elder wooded countries regulate the tree resources and see to it that their capital stock remains intact by cutting only the annual increment. If Canadians use up their wooded capital, the only alternative must be a foregone bankruptcy.—Editorial, "The Gazette," Montreal, April 18th, 1923.

CANDIDATES MAKE LAND IN TIME TO FILE DOCUMENTS

Ice-bound Politicians Finally Get Into Newfoundland Election Fight—Two Nominated by Telegraph.

St. John's, Nfld.—On the eve of nomination day, government and opposition candidates for two electoral districts of Newfoundland escaped from the steamer Kyle, on which they had been ice-bound seventeen days, and made shore over the ice floe. Attorney General Warren, who is a candidate in Fortune Bay district, and his opponent, Edmund Outerbridge, walked three miles over the ice to reach Breton Harbor, where they will be nominated.

Messrs. Small and Chambers, government and opposition candidates in Burgo districts, also reached shore, but they are still far from their destination. They will be nominated by telegraph.

It was said that the election in Burgo might be deferred, as it will be impossible to distribute the ballot papers and ballot boxes, which are still on the steamer, unless an offshore wind disperses the ice fields. The four candidates left St. John's more than two weeks ago to campaign in their districts.

SNOW FIGHTING COST MAR. DIV. OF C. N. R. \$650,000

Mr. L. S. Brown, General Manager of the Maritime Division of the C. N. R., states that the past Winter has been the worst in the history of the road, so far as snow fighting is concerned and has cost over \$650,000 more than last year. When there is added to this the extra time involved by trains being delayed and the damage to equipment due to snow, the amount will run well over \$1,000,000 in excess of last year. P. E. I. has been especially hard hit, about \$9,600 per day having been paid out for snow shovelling alone.

WHAT IS THE EXPLANATION THIS TIME

We always, all of us, used to growl about these east winds in the Spring. If we were only clear of them we would have the finest climate in the world. It was the rawness in them: we didn't mind the cold, no, of course not. Well, last year the winds prevailed from the west and the Spring was late and cold and all the Summer there was you could put in your hat. And this year the winds are holding mostly from the west and north-west and, believe us or not, this isn't much of a Spring to brag about, even if it is a fine day today. —Picton Advocate.

"SIGNS OF RAIN"

- 1. The hollow winds begin to blow; 2. The clouds look black the grass is low; 3. The soot-falls down, the sparrow's sleep; 4. And spiders from their cobwebs creep; 5. Last night the sun went pale to bed; 6. The moon in halos hid her head; 7. The boding shepherd heaves a sigh; 8. For, see, a rainbow spans the sky! 9. The walls are damp, the ditches smell; 10. Closed is the pink-eyed pimpernel; 11. Hark, how the chairs and tables crack! 12. Old Betty's nerves are on the rack; 13. Loud quacks the duck the peacocks cry; 14. The distant hills are seeming high; 15. How restless are the snorting swine! 16. The busy flies disturb the kine; 17. Low o'er the grass the swallow wings; 18. The cricket, too, how sharp he sings! 19. Pass on the hearth, with velvet paws; 20. Sits wiping o'er her whiskered jams; 21. Through the clear streams the fishes rise; 22. And nimbly catch the incautions flies; 23. The glow worm, numerous and light; 24. Illumed the dewy dell last night; 25. At dusk the squallid toad was seen; 26. Hopping and crawling o'er the green; 27. The whirling dust the wind obeys; 28. And in the rapid eddy plays; 29. The frog has changed his yellow vest; 30. And in a russet coat is dressed; 31. Though June, the air is cold and still; 32. The mellow blackbird's voice is shrill; 33. My dog, so altered in his taste; 34. Quits mutton bones on grass to feast; 35. And see you rooks, how odd their flight! 36. They imitate the gliding kite; 37. And seem precipitate to fall; 38. As if they felt the piercing hail; 39. 'Twill surely rain; I see with sorrow; 40. Our jaunt must be put off tomorrow.
