To the Schot of the British American Cultivator BIE:

Lam a native born Canadian, and feel much interested in the welfare of my coun--I settled on the farm where I now reside, about fourteen years ago, when it was in a state of nature, however by persevering industry, and by the blessing et a kind Proone hundred acres. As the process of bonging wild land into a state of cultivation, is in all cases nearly the same, the improvements in my mode of farming, was scarcely visible. for the first few years. After my ground became nearly clear of stumps, my anxiety increased, to adopt a more improved system of currivation, I accordingly became a subscriber to the new Genesce Farmer, and have truly tested the advantages to be derived from an agricultural periodical. When I called at the Post Office for my last No. of that paper, the Post Master remarked, that we had an Agricultural paper published in this Province, that it should be supported in preference to a Foreign publication.
This was the first intimation I had on the

subject-we compared it with the Now Genesee Farmer, and found it to be equally as large, and examined its contents, and was much pleased with the matter it contained.

I concluded it was much better to support a publication of our own when it was equally as good and as cheap and much better adapted to our own country than theirs, and by that means keep our cash on this side the Nagara River to support our own Artizans and Mechanics, &c. As I had only an other number of the Genesee Farmer" to complete the year, I immediately became a subscriber to your publication, and paid the money in advance, according to your regulations. I emeerely wish you success, in your laudable and praisewortly undertaking and I hope every Canadian Farmer, will take an interest in your publication, and those who are in the habit of taking Americ n Agricultural pa-pers, will see the prop iety of patronizing one at home—No doubt your publication will shortly become as good as the best of theirs, as soon as your circulation becomes as extensive. LEVI WILLSON.

Trafalgar, Dec. 4th, 1841.

Mr. Severn's Berkshire Hog, York.

MR. EDITOR.

three feet high, and measures five feet eight inches, from the nose to the root of the land, lately killed, weighed 170 lbs nett., !e-ail, and weighs 493bs. Imported hun from any only 6 months old. I have a young full 'ail, and weighs 493lbs. I inported him from ochester when a sucking pig, and am sorry idd not procure his pedigree from the origiand owner, suffice it to say, that the pair from which he was bred, were imported from Singland in 1839.

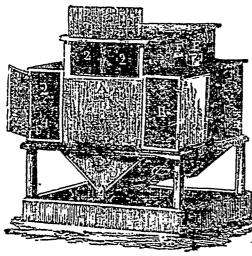

The good qualities of this important breed

of Swine, are so well known that it will al-My full bred Berkshire Hog York, is most be superfluous to describe them. They 20 months old the 25th of this month, stands answer well to cross with the common breeds of our country, one of which Mr. Gowbred Berkshire Boar, 3 months old, which weighs 177lbs.

York took the first prize at the last Toronto Cattle Show and Fair.

JOHN SEVERN.

Yonge St. Nov. 29th, 1841.

Perfect Bec Hive and Non Swarmer.

This cut represents the have placed in the used as a swarmer. The centre box, including both apartments, upper and lower, holds on its back side, where the bee manager on bushel and a half, not including the performs most of the managing has have, out of the way of his bees at work, square box, or lower apartment. When the When the colladeral B, on the left, and 2, 4, on the right, are both added, the hive is used as a Kon Swarmer, when both are off it is as a Non Swarmer, when both are off it is

CONTENTS OF THIS NUMBER.

PUBLISHED MONTHLY.

J. EASTWOOD, & W. G. EDMUNDSON.

PROPRIETORS,

Terms.-

W. G. EDMUNDSON, -Editor. Office, 38, Youge Street.

-One Dollar per annum, (including

postage.)

PAYABLE ALWAYS IN ADVANCE.

Any person obtaining 10 subscribers and transmutting their subscriptions (free of postage) to the Proprietors, shall receive a copy each munth for himself, gratis. Any person or agent ordering fifty copies to his address, and forwarding Fifty Dollars to the Proprietors (free of postage) will be intitled to sixty copies of the Cultivator, and a copy neatly bound sout him at the expiration of the year with the Proprietors' thanks.

All communications to be addressed to the Edi-

Postuge — Our friends will please remember that if we were to pay postage on letters bearing remittances, contributions, ic the sooner we closs our publication the better, for a failure would be the inevitable consequence. The plan we will invariably adopt is this — We will pay the postage on our paper to all parts of the Provinces—we exp-ct in return, all letters in connection with our publication will be post paid. Those who tail to remit their subscription money free of postage, the amount paid by us will be deducted from their subscription. On one letter we have paid 6d, another 1s., and on a third 3s. 10d each, containing one dollar the first in contorning with this arrangement would be entitled to 10 numbers, the second to 9s, and the third to 3 numbers—Editor's Note
