

THE HYSLOP BICYCLE.....

Both in Women's and Men's

Are, without exception, not only the handsomest and best finished wheels in the world but are also the strongest and easiest running machines built.

Crossley....

**Canada's Great
Evangelist**

Says **The Hyslop Wheel** has a bad fault: It does not give him exercise enough; it runs too easy. Is that the trouble with your wheel?

Dr. Robertson...

**Stratford's Veteran
Cyclist . . .**

Rode from Stratford to Toronto and return in one day, 206 miles, on this wheel.

These Machines are fitted with the **CELEBRATED ÆOLUS BOTTOM BRACKETS AND HUBS.** The most mechanically correct Brackets made. See and be convinced.

HYSLOP, SON & MCBURNEY
