ST. ANDREW'S CHURCH, Smith's Falls, recently enlarged and refitted, was reopened on Sabbath. Sth inst., by the Rev. Principal Grant. The following evening a most successful tea-meeting was held.

a most successful tea-meeting was held.

ON Friday evening, 6th inst., about eighty of the congregation of New Glasgow and Rodney gathered at the manse and took full possession. The ladies of the party spread a sumptuous table, to which justice was done by all present. After a few hours had passed in social enjoyment, the nastor conducted a short enjoyment, the pastor conducted a short service consisting of singing, reading and prayer, when the numerous visitors departed leaving behind them many tokens of their good will.

prayer, when the numerous visitors departed leaving behind them many tokens of their good will.

THE opening services of High River church, in the Drumbo settlement, were conducted by Rev. J. Herdman, of Calgary, morning and afternoon, Mr. Hillyer (Methodist) assisting in the afternoon. We take the following interesting particulars from the Calgary Herald: "The two reverend gentlemen delivered addresses, instead of a sermon, to the largest body of people who have thus far assembled in that locality to participate in religious exercises. It is pleasant to be able to record the fact that the church was dedicated free of debt. The energy with which the erection of the building was pressed forward shows the character of the congregation. Not three months have passed since the intentions of the people took shape, and the whole of the work was executed in two months, the lumber hauling, carpentering and other work being all done within the congregation. The building is 20x30 feet, with a vestibule, and has, in cash and labour, cost about \$700, of which \$125 was a contribution from the Church and Manse Building Fund of the Presbyterian Church in Canada. The site, on a hill, is most commanding, being at the mouth of High River, near its junction with the Bow, and the church can be seen from every side for a long distance. The Rev. R. A. Munro, ordained missionary, will have the care of the congregation, his supervision including the High River, Pine Creck and Sheep Creek districts. It is but proper to state that all denominations were represented among the contributors to the building fund and in the large body of attendants at the opening exercises. The Dunbow ceitlement is a an analysis of the proper of the contribution and its ranid tributors to the building tunn and in the large body of attendants at the opening exercises. The Dunbow cettlement is a typical Alberta settlement, and its rapid progress districts the speed at which certain places of the district are filling up. Three years ago a few pioneers, mostly the bear had made homes there. The Three years ago a new pioneers, mostly bachelors, had made homes there. The families, and what may be spoken of as the church-going people, have nearly all come in during the last eighteen months, many within the last two months. They come from Scotland, England and Eastern Canada, and are understood to be away above the average in Intelligence and in-

other rallying point for the settlers and for the promotion of the spiritual and intellectual improvement of the district. Minard's Liniment Cures Diptheria.

KEEP YOUR

British Arms

CLOTHING STORE.

If you really want to know what the word Bargain means; dustry. They have already a school-house (this independent of the Industrial School located at High River), in charge fied before, come to the "British Arms" on next Friday.

> We know many people have attended our neighbours' regular bargain day sales on Fridays, and they undoubtedly do offer goods at attractive figures, but we have determined that our "bargain day" shall so completely outshine anything ever seen in Toronto that it will be the "nine-days' wonder" of Toronto.

It is our first attempt, and we mean to do it well—so well that everyone who comes will say, "There is a store that does just what it advertises."

The Fall of the Christians:

An Historical Romance of Japan in the 17th Century. By Prof. W. C. Kitchin, Ph. D.

"The Fall of the Christians" is a history of the desperate struggle of Christianity against Paganism in Japan over two hundred and fifty years ago, as related in ancient manuscripts discovered by the author. There were then several thousands of Christians in Japan, and the attempt to exterminate them led to one of the most sangulary struggles recorded in history. The heroism of the Christians, both men and women, and their fortitude under the most appalling dangers, as portrayed by Professor Kitchin, will enlist the sympathics of the civilized world.

SPECIAL FEATURES.

SIXTEEN PAGES

Herbert Ward, Stanley's Companion. Herbert Ward, the companion of Stanley in his explorations in Africa, is one of the few men connected with Stanley's African explorations who has ever returned alive from the "Dark Continent." Mr. Ward's nrticles running through eight numbers of the "Ledger" are of the most intensely interesting description; and cover five years of his adventures in Africa, and they will be illustrated by sketches made by Mr. Ward, and by the regroduction of photographs taken by him in Africa, and they will throw much light upon the manners and customs of the hitherto unknown cannibal tribes of Africa.

Life in British America, By Rev. E. R. Young.

Being the adventures and experiences of Rev. E. R. Young, the celebrated missionary, and his wife during their residence in the Polar region twelve hundred miles north of St. Paul, in which Dr. Young narrates how he tamed and taught the native wild Indians of the Northwest; how he equipped himself for and how he made his perilous sledging and hazardous cance trips when visiting all the Indian settlements within five hundred miles of his home.

Nihilism in Russia, By Leo Hartmann, Nihilist.

Lee Hartmann, a fugitive from Russian authorities, has been connected with the most daring feats of the Russian Nihilists.

Mr. Hartmann shows how the intelligent people of Russia are becoming Nihilists in consequence of the despotism of the form of government. A participant in plots to kill the Czar, such as the blowing up of the Winter Palace, he is able to give true information as to how this and other great schemes were accomplished. The situation in Russia is sufficient to increase the love of every true American for our form of government.

Into Mischief and Out, By Elizabeth Stuart Phelps. This is a story of college life. It describes, in a graphic manner, the troubles which overtake bright students who get into mischief, and their skillful manouvres to evade the consequences of their conduct.

The Character of the New York Ledger.

The New York Ledger directs its efforts towards crowding out that trashy and injurious literature which is polsoning the minds of American youth. The Ledger appeals to the intelligence of the people, and depends for its support on that inste which prevails for insocent and amusing entertainment and healthful instruction. The Ledger will contain the best Nerial and Short Mories, Historical and Biographical Sketches, Travels, Wit and Humor, and everything interesting to the Household.

ILLUSTRATED POEMS form a specially attractive feature of this number.

HON. EDWARD J. PHELPS, Ex-Minister to Fugland,
writes the end paper this month.

THE completion of the 3d year is signalized by this superb fourth year and seventh volume. Its aim has been that its articles shall be of interest in themselves, cover. over and above their timeliness and authorship, and that great variety shall be secured to its readers. It is believed that the full announcement, a summary of which follows, gives promise of a year of great popular and artistic attractiveness. Among the important features are:

AN ADDED DEPARTMENT AND INCREASED SPACE. It has been decided to open with the January number a department for the brief consideration of subjects of both passing and permanent interest, and for this purpose a few pages will be added to each number. This feature in the Magazine will give, it is believed, a new plannest of hylichteness and wariate. element of brightness and variety.

AFRICAN EXPLORATION AND TRAVEL will be treated from several points of view. MR. HERBERT WARD, who spent five years on the Congo, will write of that now famous region. Other articles in the same field will appear, and several by wellknown artist travelers. All richly illustrated.

LIFE ON A WAR SHIP. MR. R. F. ZOGBAUM, the artist and writer, has received permission to accompany the the life at sea of officers and men under the altogether novel conditions of the New Navy. The articles embodying these studies, with his own illustrations, will appear through Scribner's Magazine. HOMES IN CITY, SUBURBS, AND COUNTRY. The city homes will be discussed by CHARLES F. Mckim, the embedding inent architect; the country and suburban homes will be treated by writers of equal authority. In connection with this will be given a paper describing how houses have been built by people of small means through Building and Loan Associations. The articles will be illustrated.

FICTION. In January a new novelette in four parts will be begun by OCTAVE THANET, with illustrations by A. B. FROST. Later there will be a serial by an anonymous writer, for which the publishers are safe in prophesying an amount of attention given to no novel which has appeared in this form for many years. The SHORT FICTION of the year, it is believed, will be unusually strong.

THE CITIZEN'S RIGHTS. A series of articles upon a great class of rights and privileges for which the citizen pays will be covered the Rights of the Citizen as a householder, as a traveler, as a user of the public streets, his rights to his own property, to his own reputation, etc. They will be contributed by writers who will speak with authority, among them will be E. L. GODKIN, FRANCIS LYNDE STETSON, F. W. WHITRIDGE, and others.

THE ELECTRIC ARTICLES will be completed by several carefully-illustrated papers, beginning in January with "Electricity in the Household," by MR. HENNELLY, Mr. Edison's chief electrician. An article on Electric Railroads is one of those remaining in this series.

ERICSON, THE GREAT INVENTOR. There will be two articles upon John Ericsson, the great inventor, written under peculiar advantages by MR. WILLIAM C. OHURCH, who, at Captain Ericsson's request, was made his authorized biographer and intrusted with his papers. The illustrations will include much that is of the highest interest and novelty; the original unpublished akotches of the Monitor, etc.

HUNTING ARTICLES. A group of articles on Hunting will appear during the year, numbering perhaps as many as the

SINGLE ARTICLES in GREAT VARIETY. Among them are: "In Parls with the Three Musketeers," written and illustrations and results of the French Exposition; three on English, French, and German Carleature respectively; two especially attractive articles called "In the Footprints of Charles Lamb"; papers on Neapolitan Art, on French Illustration, on Print Collecting; a remarkable article on Marlame de Staël by a well-known diplomatist, with some recently-discovered material; MR. SIDNEY COLVINS article on George Meredith, MR. HUMPHRY WARD'S on some great Picture Sales, with illustrations by HARRY FURNISS; on Water Storage in the West, and on Mining, the latter with novel photographs; Australian papers; on the Floral Decoration of Ponds and Lakes, with some very beautiful effects; and a group upon Physical Conditions in the United States, by PROF. N. S. SHALER, with illustrations.

MR. ROBERT LOUIS STEVENSON will continue to contribute to the Magazine during 1800. The names of other important contributors will appear in more specific announcements; and several important projects, of which the beginning at least will fall within the next twelve months, are purposely reserved for description when the arrangements in progress for them shall be further advanced.
