TIMBER LIMITS SALE.

Persons in the market for timber limits
will be given an opportunity of purchasing
valuable berths on Tuesday, April 18th,
when Mr. Peter Ryan will offer for sale by
public auction virgin limits in the township
of Ermatinger, on the north shore of Lake
Huron. These comprise four lots of nine
square miles each, being one of the best
properties in the province. The sale will
take place at the Board of Trade rooms,
Toronto, at 2 p.m. on the date named, and
should bring together a large gathering
of lumbermen. The advertisement of the
sale appears in another column.

CURRENT TRADE CONDITIONS.

ONTARIO.

The severe weather has not been con-
ducive to a heavy demand for lumber,
and such buying of small lots as has tak-
en place has been chiefly for filling up
purposes. Retail dealers are apparently
keeping out of the market until they are
better able to estimate the volume of the
year's building operations. The fact is
generally admitted, however, that both re-
tailers and consumers are carrying light
stocks, and that sooner or later they
must add materially to their stocks. From a
wholesale standpoint the volume of
business is quite encouraging. Sales
are being made freely for shipment by
vessel upon the opening of navigation.
One transaction reported involves ten
million feet of lumber, but, while gener-
ally credited, the details have not been
learned. Logging conditions in
the pine districts are most favorable, and
the outlook is that nearly all operators
will succeed in getting out their contem-
plated cut. The hardwood situation is
but a repetition of past weeks. The con-
suming industries are operating to their
full extent, but are evidently deferring the
purchase of their lumber supply in the
hope of getting some concession in price.
Whether or not they will be successful in
this depends entirely upon the hardwood
manufacturers, who up to the present
time have positively refused to yield.
Lath and shingles are strong. At Geor-
gian Bay points as high as \$2.75 is being
asked for No. 1 lath and \$2 for No. 2.

QUEBEC AND NEW BRUNSWICK.

The outlook for spruce lumber seems
to be improving as the season advances.
Representatives of Quebec houses are
meeting with considerable success in
effecting sales in Great Britain, and there
now seems to be reason to believe that
about the usual quantity will be marketed
here. There is a greater number of en-
quiries for stock from the Eastern States,
especially for clapboards and shingles.
Cedar shingles, on Boston rate of
freight, are generally held at \$2.85 to
\$2.95 for extras, and \$2.60 for clears, al-
though as might be expected, sales are
being made below these figures by deal-
ers who are anxious to realize immedi-
ately. Logging operations are proceeding
satisfactorily, although in some parts of
Nova Scotia deep snow is interfering with
successful work.

MANITOBA AND BRITISH COLUMBIA.

The demand for lumber in Manitoba
and the Territories is showing more ac-
