

They may assail Ireland too—the time is most appropriate, and we won't forget their consideration—and sneer at the Governor and his family, (it is not their first time) but, all will not save them from our exposure of their ignorance. We will watch their hollow arguments, and brazen falsehoods, and as the pair of "Raps" do not admire our simile of the "counter," we will place the counterfeit on an anvil as hard as their thick skulls, and "hammer out all the Protestant forgeries" with a sledge borrowed from themselves, just as we have refuted their theology by the testimony of their own Divines!

#### THE IMPOSTORS OF ACHILL.

We publish for the benefit of "the Big Irishman of Dutch-town," the following extract from a Letter of Archbishop McHale to Mr. Lucas of London, dated the 2d of February "ult."

"Achill has been selected as the battle ground on which such Associations as those that are said to be countenanced by the Duke of Manchester are fighting, in order to succeed in their unholy crusade against the ancient faith. The intelligent and liberal Mr. Hall has done much to dissipate the delusion under which many a well meaning Englishman laboured, by exposing the frauds and impostures of that notorious colony. Yet they are availing themselves of the present awful distress to push on their wicked scheme of Proselytism, making it a condition in affording any temporal relief, to poison the faith of the poor victims of destitution!"

*The Monsters!* Mr. Hall is an Englishman and a Protestant. He visited Achill.
