ALL VIRUS FULLY WARRANTED.

It is hoped that the Profession will appreciate the importance of fully supporting *Physicians* devoted to this laborious and expensive specialty, and responsible for the quality of all *Virus* issued.

If the patronage of Physicians is distributed amongst all, who, often without any fitness, offer to supply true animal virus; the simple result will be that no one will receive enough to maintain a proper establishment.

Our Senior Partner has been for over twenty years devoted to the specialty of Vaccine supply. He introduced *true* Animal Vaccination into America in 1870; and our establishment is by far the most perfect and extensive in the world.

SPLINTS FOR SURGEON'S USE.

JAMES ELLIS has for some time past directed his attention to the manufacture of splints. They are made of Basswood, Whitewood and Pine, strong and light, and some of them ingeniously carved or hollowed out to fit the inequalities of the surface. The splint for Colles' fracture is one of the most striking, being a correct representation of Bond's splint, carved out of solid basswood. They are also very cheap and curable. Orders may be addressed to

J. H. NASMITH & CO., Druggists, London or Stratford
GARLAND & RUTHERFORD, Druggists, Hamilton.

H. J. ROSE, Druggist, Toronto.
