

aged 34 years. Born U. S. Married. Hoboken."

"History of the case:—Dyspepsia for past four or five years. About 14 months partial loss of power and numbness in lower extremities. Girdling sensation about abdomen. (November 29th, 1889, not improved; external strabismus of the left eye and dilatation of the left eye.) Some difficulty in passing water at times; no headache, but some dizziness; partial ptosis past two weeks in left eye.

"Ord. R. F. Bi pep. and Soda." These are the marked symptoms of a severe case of locomotor ataxia. "And Dr. Starr said a case with such marked symptoms could not be cured, and Quant, who was receiving treatment in the out-patient department, was given up as incurable."

"There never was a case recovered in the world," said Dr. Starr." And then said: "Dr. Ware can tell you more about the case, as Quant was under his more personal treatment. I am surprised," he said, "that the man is alive, as I thought he must be dead long ago."

Our reporter found Dr. Edward Ware at his office, No. 162 West Ninety-third street, New York. He said: "I have very distinct recollections of the Quant case. It was a very pronounced case. I treated him about eight months. This was in the early summer of 1890. I deemed him incurable, and thought him dead before now. Imagine my surprise when I received a letter from him about two weeks ago telling me that he was alive, was getting well and expected soon to be fully recovered."

"What do you think, doctor, was the cause of his recovery?"

"That is more than I know. Quant says he has been taking some sort of pills and that they have cured him. At all events, I am glad the poor fellow is getting well, for his was a bad case and he was a great sufferer."

Dr. Theodore R. Tuttle, of 319 West Eighteenth street, to whom our reporter is indebted for assisting courtesies, said of locomotor ataxia: "I have had several cases of this disease in the course of my practice. I will not say that it is incurable, but I never knew of a case to get well; but I will say it is not deemed curable by any remedies known to the medical profession."

After this successful and confirmatory investigation in New York, our reporter, Saturday April 2nd, 1882, visited St. Peter's Hospital, in Albany, corner of Albany and Ferry streets. He had a courteous reception by Sister Mary Philomena, the sister superior of St. Peter's hospital, and when told the object of his visit, said she remembered the case of poor Mr. Quant very distinctly. Said she: "It was a very distressing case and excited my sympathies much. Poor fellow, he couldn't be cured and had to go home in a terrible condition of helplessness and suffering." The house physician, on consulting the records of St. Peter's hospital, said he found only that Charles A. Quant entered the hospital March 14th, 1890, was treated by Dr. Henry Hun assisted by Dr. Van Derveer, who was then

(1890) at the head of the hospital, and that his case being deemed not possible of cure, he left the hospital and was taken to his home, as he supposed, to die.

Such is the full history of this most remarkable case of successful recovery from a heretofore supposed incurable disease, and after all the doctors had given him up by the simple use of Dr. Williams' Pink Pills for Pale People. Truly it is an interesting story of a most miraculous cure of a dreadful disease by the simple use of this popular remedy.

A further investigation revealed the fact that Dr. Williams' Pink Pills are not a patent medicine in the sense in which that term is usually understood, but are a scientific preparation successfully used in general practice for many years before being offered to the public generally. They contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la grippe, palpitation of the heart, pale and sallow complexions, that tired feeling resulting from nervous prostration; all diseases depending upon vitiated humors in the blood, such as scrofula, chronic erysipelas, etc. They are also a specific for troubles peculiar to females, such as suppressions, irregularities and all forms of weakness. They build up the blood and restore the glow of health to pale or sallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, over work or excesses of whatever nature.

On further inquiry the writer found that these pills are manufactured by the Dr. Williams' Medicine Company, Brockville, Ontario, and Morristown, N. Y., and are sold in boxes (never in loose form by the dozen or hundred) at 50 cents a box, or six boxes for \$2.50, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Company, from either address. The price at which these pills are sold makes a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

FITS.

All Fits are stopped free by Dr. KLINE'S GREAT NERVE RESCUE. No Fits after first day's use. Marvellous cures. Treatise and \$2 trial bottle free to Fit cases. Send to Dr. Kline, 931 Arch St., Phila., Pa.

TO THE DEAF.

A person cured of Deafness and noises in the head of 23 years' standing by a simple remedy, will send a description of it free to any Person who applies to Nicholson, 177 McDougal street, New York.

THE DEAF HEAR SOUND DISC. WHICH IS GUARANTEED TO HELP A LARGER PERCENT OF CASES THAN ALL SIMILAR DEVICES COMBINED. THE CASE FOR THE DEAF IS PLACED OPEN IN THE EAR. POSITIVELY INFALLIBLE. WORN MONTHS WITHOUT REMOVAL. H. A. WALKER, Bridgeport, Conn.

AMMONIA

IN BAKING POWDER

Is a Disease-Producing Agent

ITS volatility is bridged by reaction with the gluten in the Flour. The preparation of an UNOBJECTIONABLE BAKING POWDER containing AMMONIA is impracticable. Avoid all risk and use

WONDER IN WELLAND!

A Representative Farmer Speaks.

MR. C. C. HAUN.

The following remarkable facts are fully certified to as being undeniably correct in every particular. Mr. Haun is well known in the vicinity, having resided here over 100 years, and is highly respected as a man of the strictest honor, whose word is as good as his bond.

As will be seen from his letter, four physicians had attended him, and it was only after he had given up hope of cure that he decided to try Burdock Blood Bitters on the recommendation of a neighbor who had been cured of a similar disease by its use. Mr. Haun writes as follows:

Dear Sir:—I think I have been one of the worst sufferers you have yet heard of having been ten years in the hands of four of our best doctors without obtaining permanent relief, but continually growing worse, until almost beyond hope of recovery, I tried your Bitters and got relief in a few days. Every organ of my body was deranged, the liver enlarged, hardened and torpid, the heart and digestive organs seriously deranged, a large abscess in my back, followed by paralysis of the right leg, in fact the lower half of my body was entirely useless. After using Burdock Blood Bitters for a few days, the abscess burst, discharging fully five quarts of pus in two hours. I felt as if I had received a shock from a powerful battery. My recovery after this was steady and the cure permanent, so that for the four years since I have had no return of my ailment. I feel that I will take an occasional bottle, not that I need it but because I wish to keep my system in perfect working order. I can think of no more remarkable case than what I have myself passed through, and no words can express my thankfulness for such perfect recovery.

C. C. HAUN, Welland P.O.

In this connection the following letter from T. C. GIBSON, Esq., a leading druggist of Welland, Ont., speaks for itself:

Dear Sir:—I have been personally acquainted with Mr. C. C. Haun for the last 20 years, and have always found him a very reliable man. You may place the utmost confidence in anything he says with regard to your medicine. He has on many occasions within the last four years told me that it was marvellous the way the Burdock Blood Bitters had cured him, and that he now felt as able to do a day's work as he ever felt in his life. Although quite well he still takes some B. B. B. occasionally, as he says, to keep him in perfect health.

Yours truly, THOMAS GIBSON, Welland, Ont.

The steadily increasing sale of B. B. B., the length of time it has been before the people, and the fact that it cures to stay cured, attest the sterling merit of this monarch of medicines, the people's favorite blood purifier, tonic and regulator.
