

knowledge in text and picture were such a conspicuous and rational advance in his first edition that it instantly won the foremost place, which has never since been disputed. The foremost anatomists have been engaged in the many successive revisions, of which the present is perhaps the most thoroughgoing. Every page has been scrutinized and whole sections rewritten, notably those on the brain, spinal cord, nervous system, and viscera. The magnificent and unique series of illustrations has been enriched with 231 new engravings, and the use of colors has been greatly increased. Thus this great work is again brought to date with lavish expenditure of labor and money. It is probably the cheapest of all products of the press, considering the fact that it contains the ripest anatomical knowledge of the world, and presents it with an unequalled wealth of illustration.

*Atlas and Epitome of Obstetrics, Diagnosis and Treatment.* By DR. O. SHAEFFER, of Heidelberg. From the Second Revised German Edition. Edited by J. CLIFTON EDGAR, M.D., Professor of Obstetrics and Clinical Midwifery, Cornell University Medical School. With 122 colored figures on 56 plates, 38 other illustrations, and 317 pages of text. Philadelphia and London; W. B. Saunders & Co. Toronto: J. A. Carveth & Co. 1901. Cloth, \$2.00 net.

This book treats particularly of obstetric operations, and besides the wealth of beautiful lithographic illustrations, contains an extensive text of great value. The symptomatology and diagnosis are discussed with all necessary fulness, and the indications for treatment are definite and complete. In this new edition both text and illustrations have been subjected to a thorough revision. Most of the colored plates are new, and illustrate the modern improvements in technique as well as a vast amount of new clinical material.

*Essentials of Obstetrics.* By CHARLES JEWETT, A.M., M.D., Sc.D., Professor of Obstetrics and Gynecology in the Long Island College Hospital, and Obstetrician and Gynecologist to the Hospital, etc. New (2nd) edition, revised and enlarged. In one 12mo volume of 376 pages, with 80 engravings and 5 colored plates. Cloth, \$2.25 net. Lea Brothers & Co., Publishers, Philadelphia and New York.

The early exhaustion of the first edition of Dr. Jewett's practical and compendious little work is very satisfactory proof of its value and helpfulness. Its object is to place the essential facts and principles of obstetrics within the easy grasp of the
