The exceptionally strong position of the Company, the soundness of its Assets (no losses having occurred on invested funds since the Company started), the gratifying increase in business during the year, and the fact that our Liabilities are computed on a basis that would add \$30,000 to our Surplus if computed on Government Standard, are all strong points in favor of this excellent Company. TORONTO MARKETS.

Toronto, March 13th, 1902.

Chemicals, Drugs, Etc.—Locally not much change in conditions has taken place since last report, and an average business is being done. In New York the volume of trade has not been large latterly. A good demand is reported from manufacturing consumers, but their requirements, as a rule, are for limited quantities in each line. The market has a fairly steady tone, without any great fluctuations in price. Quinine is unsettled, awaiting settlement of the uncertainty regarding the prices realized at current sales.

Dry Goods.—Wholesale dry goods houses have been very busy the last two weeks. Visiting dry goods men from the country at the time of the millinery openings left an aftermath in a large volume of orders, which are now being taken in hand. No complaint as to prevalent business conditions seems to be forthcoming from the average merchant, either in the city or in rural districts, and all are looking forward to bright times.

Flour and Grain.—Flour keeps pretty steady just now, 90 per cent. patents selling at \$2.85 in buyers' bags, middle freights. Oatmeal and cornmeal are firm. Bran and shorts remain about the same. In grain no changes have been
