Can. Equipment & Supply Co. Ltd. CALGARY  
and EDMONTON.

## IT TAKES TIME

to get into a safe. Burglars can't take chances on interruption.

And interruption is certain if you have Central Station Signal Service. They cannot enter the vault or touch your safe without sending in an alarm which brings a special officer to the scene, post-haste.

If you employ a night watchman too, it forces him to report every hour from every part of the building and gives him a ready means to call assistance in any emergency.

No matter what is wrong we know it quickly—and take the proper measures in time to save heavy loss.

It will pay you to learn more about this service by asking our nearest Office for Bulletin

# BITUNAMEL

REGISTERED

Has been tested and found to be the most satisfactory and reliable foundation waterproofing solution on the market.

BITUNAMEL has been used on all the buildings constructed by the Board of Education, as well as on numerous of the largest factory and office buildings erected during the past six years in Toronto, Montreal and other cities and towns.

It is easily applied; does not require heating or melting, and dries quickly with a hard enamel-like surface.

*Write for samples and literature.*
