

## TRANSPORT CANADA

### \$290,211

Transport Canada's official development assistance (ODA) for fiscal year 2012–2013 totalled \$290,211.<sup>33</sup>

The Canada Post Corporation makes an annual assessed contribution to the Universal Postal Union. This contribution has been reflected in previous reports on ODA. The assessed contribution for 2012 was 1,670,800 Swiss Francs (or approximately \$1.5 million Canadian). It is expected that the 2013 contribution will remain the same, although the amount is subject to change following budget discussions at the Universal Postal Union, which will take place in the fall.
