

I will take an early opportunity of placing in your hands a full record of the administration of the Hon. Mr. Mowat during the last four years, and that record will, I am sure, fully warrant you in sustaining his administration, and renewing my services as your Representative.

It will also be my duty at such times as may suit your convenience, to explain personally and in public discussion all the acts of the Reform Administration, as well as such as concern myself specially as your Representative.

Recognising fully the honour of serving one of the constituencies of what has been justly called the "garden county of Ontario,"

I have the honour to be, until I have the pleasure of meeting you personally,

Your obedient servant,

ADAM CROOKS.

Education Department,
Toronto, April 9th, 1879.
