

Your Board has great pleasure in recording its conviction that upon the whole, real, sound progress is being made by the Church in the Missions under its charge. It is gratifying to find, that notwithstanding the reduced means from which most people are suffering in these hard times, ample evidence is not wanting to testify that the work carried on by the clergy is full of encouragement.

Full information as to the details of that work will be found in the individual reports of the clergy herewith submitted to the Society.

But few permanent changes have taken place during the past year.

The only appointments made have been those of the Revd. A. J. Woolryche to Bury, removed from Stoneham, and the Revd. G. R. Walters to the Mission of Malbaie—both made in the month of September.

All of which is respectfully submitted.

J. W. QUEBEC,
Chairman.

A. A. VON IFFLAND,
Secretary
