

Walworth, who has given us an extended biography—and articles in various publications, keep a wondering world informed about her; and it is not surprising that a renewal of devotion to the holy Iroquois maiden has been remarked in recent years. Every summer many pilgrims cross over the river from Montreal, gather around her shrine, listen to the story her life, and recite in her honor the prayers, Father Chauchetière tells us, it was usual to recite in his time, two hundred years ago. All these sympathetic tributes of pen and tongue are simply echoes which have come down to us from the seventeenth century. They are growing more frequent in recent years. They give us the assurance that the memory of one of the most interesting figures of this continent, now being auspiciously revived, will not be allowed to fade away.
