Insurance Companies Are Reaping a Golden Harvest as Result of Suffragette Depredations - Women's Organization Shattered by Arrests of Leaders.

Special Cable to The World LONDON, May 8.—(Copyright.)— Enquirles instituted by The Toronto World at Lloyd's today developed that the insurance companies are reaping a golden harvest as a result of the suf-frage depredations. Business has re-ceived a great impetus both from the insurance of golf links as well as from fire risks.

Numerous golf clubs have insured against revenue losses as the result of militant interference, while others have taken out policies insuring golf

In the meantime the senate finance committee will study the bill while the house ways and means committee will organize committees preparatory to the transaction of the ministers.

As such a resolution would mean the resignation of the ministers concerned and would break up the cabinet, there is no likelihood that the majority of the house of commons will do anything of the kind.

The Times, which printed these rumors today, also published an editorial today, admitting that no charge of corruption had been sustained against the ministers in regard to the Marconi transactions, but saying that they were guilty of grave indiscretion and declaring it the duty of the house of commons to record its opinion to that effect unless stock exchange speculation is to become a recognized right of ministers.

Tomorrow the tariff shifts from the house, with its overwhelming majority, to the senate, where the party's slim majority of six already has been reduced, as far as this bill is concerned, to four. Unless senators familiar with the progress of such legislation are mistaken, there is now little prospect of a final vote on the bill before August 1.

The bill's passage thru the senate will be fought at every turn by a Republican organization, apparently entirely in accord on this subject, and entirely willing to spend unlimited time and energy in an effort to defeat it.

The house then got back into committe upon clause 4, which reads as follows: "The said ships, when constructed and equipped, shall be placed by the governor in council at the dis-

posal of his majesty for the common defence of the empire." Mr. Stevens, the Conservative mem-ber for Vancouver, created a mild sensation by criticising the bill. He said the ships should not be loaned to Great Britain, but should be given outright; he also complained that there was no provision for the speedy construction of the ships. The ships under this bill might be constructed this year, next year or any old time. In conclusion, Mr. Stevens said that shipbuilding could not be carried on in British Columbia to advantage until the great iron deposits of that province were developed.

Again the Guillotine.
Mr. German of Welland then moved to amend clause 4 so that the \$35,000,-000 would be expended under the Naval Service Act of 1910.
