

A fifth wing, built in 1907, provides strictly private rooms, electric lighted, steam heated, for the senior pupils, with hot and cold water at all times in the adjoining baths.

The Domestic Science Kitchen and Gymnasium are equipped with every modern appliance and are under the direction of graduate-specialists (American School of Home Economics and the British School of Physical Culture).

DOMESTIC SCIENCE  
AND GYMNASIUM

The Infirmary, under the supervision of a trained nurse, and the Dining-room have both been modified to suit new conditions. The food is plentiful, varied and nourishing, planned to create healthy appetites rather than to satisfy abnormal cravings.

INFIRMARY

The school uniform has been criticized as "trying" but our object in adopting it was to impress upon girls that personal charm is dependent less on dress than on *poise, manner and careful grooming*.

UNIFORM

The Course of Studies has been modified to conform with the college requirements of the leading Canadian and American Universities. The senior pupils are obliged to attend the cultural lectures at the Woman's Section of Laval University and are eligible to degrees from the University proper.

COURSE OF STUDIES
