

SOLDIERS' CHOICE FOR LEGISLATURE

Alberta's Woman Member Tells Toronto Press Women About England.

HAD WOMEN'S SUPPORT

Some of the Conditions in War-Time Seen by English Hospital Nurse.

Members of the Women's Press Club were privileged yesterday afternoon to have as their guest Lieutenant Roberta Catherine MacAdams, M.L.A. for Alberta, who was passing through Toronto from overseas to attend the sessions of the legislature. She left the city last night en route for the west.

Miss MacAdams has been dietitian at the Ophthalmic Hospital, and it was while in this position that she gave the great soldiers' vote that gave her a place in the legislature. Perhaps because she had so important a position and also because she had secured election to parliament, the general conception of Miss MacAdams was very far from the reality, as she is almost girlish in appearance, and is not as yet hedged about with the things which might tend to awe her sister women.

In a most interesting address in the course of which she proved herself a speaker of considerable length without for a moment losing the attention of her audience, Miss MacAdams told of conditions overseas and as she sees them on her return. She told of the time of her election and of the help given her by the English press women who gave her more free advertising than any of her opponents could possibly buy with any amount of money.

Wonders About Canada. Speaking of the soldier who will return to Canada, Miss MacAdams said that conditions have made his life so problematical that his country has become a very dear thing to him. He recognizes that changes are taking place in Canada and wonders if the new democracy will sympathize with him in his new developments.

Everyone looks so well fed and clothingly well, that the way that a woman from overseas saw Canadians on her return, and in somewhat the same manner did they appear to the speaker. Sweats and real cream in your hair have long since disappeared in England, she told her audience.

A graphic picture was that of three young women who were the first of femininity whom she saw on her return from rescue work in Canada. All were absolutely in touch with the things of the war and yet had been able to retain the niceties of womanliness which she regarded as a privilege.

Women of England. The women of England were spoken of with great enthusiasm. In civil life they are doing most of the things that men did formerly. They climb ladders to clean windows, they are employed on all the household work outside of cars, while in the army the men are doing the things of housekeeping that before the war belonged to the domain of woman.

In this great regard for women, Miss MacAdams found a partial solution for the opposition that suffrage women had formerly met with from men. Opposition came from the feeling of protection felt by the men of England for their womankind.

Mrs. W. J. Hamann, sister of Miss MacAdams; Lady Falconer, Miss Gallagher, Dr. Helen MacMurphy were among the guests present. Mrs. Black was hostess, and Miss Louise Mason introduced the speaker.

Encouraging reports of the year's work were given at the annual meeting of Queen Street Auxiliary Union Jack Chapter, I.O.O.F., held in the schoolroom at Islington Wednesday.

The meeting was well attended and an interesting program was given. Thirty-eight meetings had been held during the year with an average attendance of 13 members. The larger part of the work is done by the members at their homes and the funds mainly kept up by voluntary collection. One cent was held during the year which realized \$31.70.

One hundred dollars was sent to Canadian Red Cross for hospital purposes, also 135 pyjama suits, 73 towels, 24 anti-venom shirts, 14 help-cloths, 13 pillow slips, 36 wash cloths. Also to Mimico Union Jack Chapter 90 anti-venom shirts, 233 pairs socks.

The financial statement showed total receipts \$338.73, a balance on hand of \$48.80. The new officers elected were: president, Miss French; secretary, Miss Seaton and Miss Darling; auditors.

Charged with the theft of two cases of whiskey from the Canadian Pacific Railway, John McLarty, 67 Vernon street, was arrested last night by County Constable Hughes. McLarty, who is in the employ of the railroad as a switchman, is alleged to have taken the liquor from a car which was standing on a siding. He will appear in the police court this morning.

Sisley in removing a scarlet fever placard from his home at 248 Scarborough road, B. Thompson has issued the following statement: "Inspector Berry of the Medical Health Department, should not have entered my house and inspected the case, knowing that Dr. O. Sisley, the family physician, had the case in hand. The hat incident, true, was mentioned only to show what officiousness and arrogance the case was handled. We think it a great injustice that we should be placarded after having the case inspected by such well-known physicians as Dr. Sisley, Dr. Campbell and Dr. Allan Brown, of the Hospital for Sick Children, who all stated that it was not a case of scarlet fever."
