Why not choose a woman's work?

Out of the myriad occupations that present themselves to a girl today, surely that of fine corset-making is one for which she is by disposition and natural ability exceptionally well qualified. With the Gossard organization she receives, too, along with a regular substantial salary, a substantial share in the company's annual profits. Her hours are agreeable, her surroundings cheerful, and her associates girls of character and intelligence. The company's rapid growth is creating opportunities for promotion, forcing us to increase our staff. If you can meet our requirements we shall be glad to

LIVE STOCK MARKET

Whether it was the abnormal weather Whether it was the abnormal weather conditions, the generally inferior quality of the offerings, or the light demands, or a little of all, Thursday's market was a pretty quiet affair, with a light run of 300 cattle, and some of these unsold. The First-class machinists, Punch press hands, Metal cutter operator, heavy steers would have sold all right if they had been there, but there were none Cabinetmakers and offered for sale. There is not very much to be said about the market beyond the fact that it barely held steady with the Good wages. Steady work.

week's prices: Hogs were steady at 201/4c fed and watered, 201/2c weighed off, and 191/2c f.o.b. The outlook for next week is for Canadian Aeroplanes, Ltd. steady to strong prices. It looks like 201/4 fed and watered.

> The lamb market opened fairly steady for one or two lots, but soon weakened and sold off from \$1 to \$2 per cwt., with prospects as much lower again for Monday. The lamb market is out of all reason, and away beyond the reach of th ordinary citizen, with no justification for such inflated prices. The sheep trade is steady and so are calves.

SASKATCHEWAN'S CROPS

The Massey-Harris Company yesterday received the following advice from Yorkton, Sask., dated Aug. 12: "Recent reports indicate heavier loss from frost than first report. Some points very severe. Late crops are improving. Have had a steady three-day rain. Oat crops improving, and, with favorable weather after present rains, conditions should improve. Recent hail did considerable damage at about ten points."
