"Another good way to get rid of rats is by means of a trap. When a rat is caught in a trap it is the easiest thing imaginable to get rid of all the rats in the premises. While the rat is in the trap get a red-hot poker and singe the hair off him. Then, when he has been well singed, let him make for his hole, you can gamble that you will not be bothered by that fellow or his mates any more. As soon as he is released he communicates to his mates the he communicates to his mates the treatment he has received and there is a wholesale exodus of rats from that neighborhood."

Political a man killed b ya canon. Political opposition, this being a French colony, caused the church to make a great demonstration. The procession was nearly two miles long. A small cannon, which was hauled about for saluting purposes, was discharged amid a large crowd. Mr. Sarraud, a merchant of standing, fell. One side of him was blown away and his death followed at once. There was much excitement over the accident. The laws against religious bodies, and particularly against public demonstrations, will now be strictly enforced.

A General Clear-up of Our Cpen Stock Patterns. It is long since we had such a dainty morsel of news to give you-six months or so. For its twice a year that it happens. On Thursday we intend to take the remnants of our open stock dinner patterns and make them up into sets. You see breakages make oddments, and as set after set is made up these gaps are all left till the last. So to-morrow we will make up each set as far as the stock goes and fill in the balance with the nearest match-

ings we have. Of course you won't expect to pay full price-though you'll get a full set (97 pieces)-because the cream jug or two or three cups or a plate or two are not of the exact pattern. So we'll fix the limit at half-price and in many cases at about one-third the regular price.

The majority of the sets will contain these 97 pieces:
