There was a marked scarcity of choice butcher cattle in the market today to plenty, and for these the market was "no good," to quote the dealers. What few loads there were of this class were soon picked up at good prices, one commission being filled for a choice load of butchers for Ottawa, the price being \$4.75, which happened to be higher than anything in the export class today, the latter offerings being very small and only of medium quality, selling at around \$4.50, though for choice export cattle, if there are any to be had, \$4.75 to \$4.90 is quoted today. CZAR TO REPRESS AND REFORM: STOLYPIN ANNOUNCES POLICY

St. Petersburg, Sept. 6.—An official communication, embodying the whole Government programme, was published last night.

The programme embraces courts-martial for political crimes, and an increase of the penalties for revolutionary propaganda, and expresses a firm When John drove the splinter into determination to preserve order. It also promises a liberal measure of reforms, and that useless restrictions

on Jews shall be abolished forthwith. Measures are promised in the direction of greater provincial autonomy. Zemstvos will be introduced in Poland and the Baltic Provinces. An income tax will be instituted.

Reforms in the police and other public service also are promised. The communication which was issued after protracted discussion by Premier Stolypin and the council of ministers, leaves the situation but little The one thing evident is that the Premier intends to carry out broad

reforms on one hand, and to pursue a policy of repression on the other. A general meeting of Octrobists and peaceful regenerationists will be held at the end of September. It is believed that at that time the Octrobist party will be dissolved or merged with the peaceful regenerationists.
