

job within the corporation, and in the process of making application he naturally had to have a medical. The doctor in charge was a Dr. Rosetti, who made the following statement:

CNR will not hire diabetics for any position no matter how stable or unstable the person's diabetes may be.

Dr. Rosetti said he had never allowed a diabetic who had come through his office to be hired by the company. Other matters have come to my attention in connection with diabetics who have been discriminated against. I have mentioned in the House the matter of the Bank of Montreal. Soon after that incident I received a letter from another diabetic in Toronto who had on file a letter from another bank which had the same discriminatory hiring practices. We now have a government agency discriminating against diabetics.

The extent to which these companies go to discriminate against diabetics indicates the need for the kind of tribunal which the hon. member for Calgary North (Mr. Woolliams) is recommending ought to be included in the legislation. I, therefore, want to go on record as supporting this kind of amendment which would ensure protection of the rights of this minority group who are facing flagrant discrimination on the part of large corporations.

The Acting Speaker (Mr. Turner): Is the House ready for the question?

Some hon. Members: Question.

The Acting Speaker (Mr. Turner): All those in favour of the motion will please say yea.

Some hon. Members: Yea.

The Acting Speaker (Mr. Turner): All those opposed will please say nay.

Some hon. Members: Nay.

The Acting Speaker (Mr. Turner): In my opinion the nays have it.

And more than five members having risen:

The Acting Speaker (Mr. Turner): Call in the members.

The House divided on the motion (Mr. Woolliams) which was negated on the following division:
