DISTRICT VISITORS' SOCIETY.

During the past nine months the Ladies report the following work done: 4,004 visits paid, 4,748 tracts distributed, 86 children promised, and in many cases brought to Sunday School, 20 adults led to promise attendance on Divine Service, and 68 Relief Tickets given to those in need. Many boarding houses have been visited by the ladies, and some of the young men induced to join the Sunday Morning Bible Class.

Special mention must be made of the temperance work done in some of the districts.

One month's report shows an addition of 20 to the ranks of the Cathedral C. E. T. S., 18 of whom were heads of families, and 21 children to the Band of Hope, the work of one visitor, many others also doing good work in this cause.

The Sewing School has likewise had its numbers enlarged by the efforts of the District Visitors. During the past few months several of the workers have been laid aside from sickness or other causes, or we think the number of visits, &c., reported would have been considerably larger.
