

THE EVENING TIMES AND STAR, ST. JOHN, N. B., TUESDAY, MAY 4, 1915

McAvity's Messenger

We will send any article in this advertisement, postpaid on receipt of Price—anywhere in Canada.

Electric Flashlights are no longer a novelty, but a thoroughly practical and satisfactory medium for obtaining a quick, strong, safe light—useful in a thousand and one emergencies.

The O. K. Electric Lantern

The Lantern that is rapidly displacing undesirable oil lanterns and lamps, as it is absolutely safe around gas, gasoline, oil or hay.

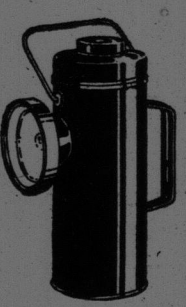

It is clean and convenient—no smell, heat or smoke; no fire risk; no danger of explosion. Ready for instant use anywhere and absolutely reliable where an oil lantern would be valueless.

The O. K. Lantern has no projecting parts, the handles press against the sides, permitting it to be carried in the pocket. Uses any ordinary No. 6 dry cell battery and gives from six months' to one year's service from one battery at a cost of 80c.

Size, 6 inches, 27-8 inches diameter.

Pressed Steel, Black Rubber Finish, complete with Battery. Each.....\$2.25

The Lightning Bug Electric Lantern

This Lantern takes any standard No. 6 dry cell battery, the same as the O. K. It is made on the same principle and has the same uses, the difference being in that the reflector is on the side and there is a top ball for convenient carrying and a side handle for snapping into dark corners.

Size, 7-1-2 inches high, 8 inches diameter.

Pressed Steel, Black Enamel Finish, Complete with Battery. Each.....\$1.75

The Meteor Electric Lantern

This Lantern is designed to attach direct to any ordinary No. 6 dry cell battery, no case being required. It takes up very little room and is easily and quickly attached to binding posts of battery.

With Battery.....Each \$1.25

Without Battery.....Each .75
