

## HOPEFUL SIGN SEEN OVER COOK'S MOVE IN BRITISH STRIKE

**Sends Message to Ministry  
of Labor; Another Act  
Hints Long Fight**

Canadian Press Despatch.  
LONDON, Aug. 25.—One development in the coal situation today is taken as a possible move toward peace, while another might be considered as preparations for continuance of the strike.

A. J. Cook, secretary of the Miners' Federation, it was announced, had been in communication with the Ministry of Labor and this was interpreted as a hopeful sign, especially as Mr. Cook said that he and the other leaders desired a meeting with Sir Arthur Steel-Maitland, who is in charge of the situation in behalf of the government.

Mr. Cook's message was passed on to Sir Arthur, who is in Scotland, and it is understood that he will return to London tomorrow.

In the meantime arrangements are going on for Parliament to meet in short session next Monday to confirm the government's emergency regulations, which automatically expire Aug. 30.

Two proclamations signed by the King were published by the Official Gazette today, one declaring a continuance of the "state of emergency" and the other summoning Parliament to convene Aug. 30. Parliament will renew the state of emergency unless there is definite proof that the miners and mine owners will settle their differences in the next few days.

Probably all the members of Parliament, except Lady Astor and Miss Wilkinson, will hurry to London from various parts of the country in expectation of lively debates regarding picketing and alleged interference by the police in the mine fields.

## KILLS SUITOR WHO CALLS ON DAUGHTER

Youth's Head as He Sits in  
Auto**

NEW YORK, Aug. 25.—Dominick Ferri, of Jamaica, Queens, stopped his automobile in front of 168-67 Ninety-third Avenue, Jamaica, and tooted his horn three times. The signal was meant for Angela Santucci, seventeen years old, who lives near.

Angela's father, Thomas, had forbidden her suitor the house, and since then Ferri's car was to be seen in front of her home almost every evening. This time a man stepped from behind a tree, walked to within a few paces of the automobile and fired four shots from a revolver at its driver. Every bullet struck Ferri in the back. He slumped in his seat and was dead before the smoke had blown away.

A moment later Thomas Santucci opened the front door of his home and walked in. He met his daughter, Angela, coming downstairs, a wrap hung over her head. Without a word, he pressed something into her hand and turned and walked out.

The object was a revolver, and

recked of recent discharge. Angela looked through the glass panel in the door and saw Ferri's unnatural posture and the crowd which was collecting about his car. She hastened back upstairs and hid the revolver, after throwing the four empty cartridges it

contained out a window. Later the police prevailed upon her to give up the weapon and tell what she knew of the story. They are looking for her father.
