FREDERICTON, Dec. 28.—The New Brunswick branch of the Canadian Legion of the British Empire Service League was in quarterly session here today at the Canadian Legion quarters and considered a number of matters of importance. The New Brunswick branch is reported to be in a flourishing condition at the present time. The paid up membership is upwards of one thousand.

The council also desired to recommend that J. G. Hart, of Saint John, be appointed to the canteen fund board for New Brunswick, in connection with Col. Alex. McMillan, D.S.O., who resigned some time ago.

Three names were selected to be recommended to Hon. Dr. King, minister of Soldiers' Civil Re-establishment, who will select from the named.

It was considered advisable not to make public the names to be recommended. The delegates who were present at today's meeting were President C. B. Hawkins, Fredericton; Secretary H. Priestman, McAdam; L. T. Thingley, Moncton; E. G. Morris, River Glade; J. G. Hart, Saint John; W. C. Whipple, McAdam; J. S. Scott, Fredericton.

Women In Raid On Moonshine Stronghold

GREENVILLE, S. C., Dec. 28.—Crusading women have won what revenue agents found impossible in Greenville county's "Dark Corner," where the distilling of corn whiskey went on undisturbed. In recent months, however, with women taking the leading part, citizens of the district have launched an attack against the moonshiners.

Numerous stills have been destroyed and some arrests by parties that included no officers of the law. Ministers have encouraged the movement.

For years the "Dark Corner" regarded the "revenuers" as mortal foes and many a bloody battle was fought, but the production of corn whiskey went on undisturbed. In recent months, however, with women taking the leading part, citizens of the district have launched an attack against the moonshiners.

Numerous stills have been destroyed and some arrests by parties that included no officers of the law. Ministers have encouraged the movement.

Famous Old Recipe For Cough Syrup

Easily and cheaply made at home,
but it beats them all for
cough relief.

Thousands of housewives have found how to save two-thirds of the money usually spent for cough preparations, by using this well-known old recipe for making cough syrup. It is simple and cheap but it has no equal for results. It gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 24 ounces of Pinex from any drugstore, pour it into a 16-oz. bottle, and add plain granulated sugar syrup to make 16 ounces. If you prefer, use clarified honey, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs, loosens and raises the phlegm, soothes and heals the membranes and gradually, nothing better for bronchitis, hoarseness or brounchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract and palatable guarol, known the world over for its healing effect on membranes.

To avoid disappointment, ask your druggist for 24 ounces of Pinex with directions. Guaranteed to give absolute satisfaction or money promptly refunded.

FARMERS HARDEST PERSONS TO FOOL

Late Harry Houdini Tells of Experiences Among Country Folk

NEW YORK, Dec. 28.—Harry Houdini found farmers "harder to fool than city people," and several times the magician's tricks nearly failed when he performed them face to face with rural audiences.

"In country parts, where men themselves perform the magic of making the soil bear harvest, I've found them less gullible," he wrote in an article published today by Farm and Fireside. "They know it's just a trick."

Houdini's first training in legions of the small towns, with traveling shows and later as a magician at country fairs.

As an example Houdini told of an experience in an Iowa town, where he undertook to escape from a thief-proof barn within an hour.

"Finger the looks as I would I could make no impression on them," he said. "I exhausted myself and leaned against a door section to rest for a final spurt. To my amazement the door opened and the witnesses applauded me. I bowed with grace and went back to the farm house to dress. The farmer came into the bedroom and explained that, out of pity, he had left that section of the barn-door unlocked, unbolting."

VAIN EFFORT MADE FOR FATHER'S LIFE

Three Children Each Give Four Blood Transfusions—Case is Remarkable

MIDDLETOWN, N. Y., Dec. 28.—Charles Sundstrom, of this city, for many years one of the best known contractors in the state, is dead after a long illness, during which two sons and a daughter did all in their power to save him, each giving of their blood four times in efforts to put new life in his veins.

His case is regarded as one of the most remarkable on record. He was 62 years of age and three children.

Mr. Sundstrom, a mechanical engineer, was a member of the firm of Sundstrom and Stratton, contractors, which has built many sections of railroads and canals in various parts of the country.

He was born at Rockholm, Sweden, on Aug. 15, 1860. He was a son of Peter A. Sundstrom, who was the first man to make horseshoe nails with a machine. Young Sundstrom came to this country with his father at the age of 12 years and, although he could not receive a formal education, he learned his profession well and engaged first as a seaman and next as a rigger in Philadelphia, New York and other cities.
