

CHAS. GORMAN LEADS IN TOTAL BASES

ONLY HOME RUN ALSO MADE BY WATER CAPTAIN

W. Bartlett and Mountain Tie for 2nd—Saint Johns Lead in Team Batting

CHARLIE GORMAN, of the Water Department team, who garnered the only home run in the first series of the Senior Amateur Baseball League, led the whole league in the total base aggregate in that series, with a tally of 80. Bartlett of the Saint Johns was a close second, being only one base behind the leader, and at that, he played in one game less than Gorman. Mountain, of the Saint Johns, also totaled 29, and was the leader in the number of doubles scored in the series. Aubrey Snodgrass, league leader in batting average, stood in fourth place in the base aggregate.

In spite of Gorman's lead, his team took second place to the Saint Johns in the team base totals, the standing being 197 to 194. The Trojans' tally was 155.

POLICE GUARD FOR GIANTS.

PITTSBURGH, July 16—Explaining his action in asking police protection for members of the New York National League baseball team, during the last series with Pittsburgh, Roger Bresnahan, in charge of the Giants in the absence of Manager John J. McGraw, said he had learned from what he considered "pretty straight" sources that the New York players were in danger of an attack as a result of an altercation between Catcher Snyder of the Giants, and Coach Onslow, of the Pirates, in New York, June 20. He said it was "only commonsense" to guard against possible disorder.

Medical Mistletoe

In the former days it was believed that the mistletoe had some mysterious medicinal virtues, but it was thought to become a really efficacious remedy, all mistletoe used medicinally must be plucked from an oak tree upon which the parasite rarely grows. It was considered unlucky to cut this, or to sell it. In 1657 the only oak known to bear mistletoe grew in Norwood, England. Some persons cut this mistletoe and sold pieces to London apothecaries at 10 shillings a time. Accordingly, we read that of these "sacreligious" wretches one fell lame, each of the others lost an eye, and the ring-leader broke his leg.

How About This One Fans?

There was an Intermediate game of baseball on the North End grounds last evening and apart from that fact that the Nationals defeated the Y. M. C. I. in an interesting game, the score being 6 to 3, there is another angle to the contest which has aroused the ire of the players and it is this: There were present, as interested spectators, between 200 and 300 people, all nearly adults. The hat was passed around and the large sum of 35 cents was the total proceeds from this particular source. Now these boys are trying to play the game, intermediates, who in the very near future will be in senior company. They need encouragement. It cost money for balls and other necessary equipment but the boys can not last long on 35 cents per game. Surely a game that attracts between 200 and 300 people and that is worth watching is worth at least a nickel or a dime from each spectator. What about it?

The score by innings was as follows:
Y. M. C. I. 000000210—3
Nationals 002300100—6
Batteries—Y. M. C. I., Harkin and Garnett; Nationals, Bettle and Beckett.

Cabinet Kelvinators

Model 233—\$610. This is a deluxe cabinet of gleaming white porcelain, interior, too, is of white vitreous porcelain, and is easily kept spotlessly clean. Its outside dimensions are 67-1/4 inches high, 40-1/4 inches wide, and 24 inches deep. It has 12 square feet of shelf space with food storage capacity of 91-2 cubic feet. The Kelvinator has four trays in which 84 cubes of ice (12 lbs.) can be frozen in one time. Corkeboard insulation is used throughout.

Model 231—\$585. This model is the same as that described above except that the cabinet is of choice flush-painted plywood construction, finished in the very highest quality white enamel pyroxylin. This exterior finish is of the hardest and most durable white enamel.

Model 232—\$595. Dimensions, construction, arrangement and ice capacity of this model are the same as those of model 231 except that the exterior is of quarter sawed golden oak.

Model 229—\$410. This is a smaller deluxe model, also of white vitreous porcelain, beautifully trimmed with polished metal corners and edging. The interior, too, is of white vitreous porcelain. The outside dimensions are—height 60 inches, with 20-1/2 inches depth 24 inches. This model has 9-1/2 square feet of shelf space permitting you to freeze 42 cubes of ice (6 lbs.) in one time. The insulation consists of the very highest quality corkboard throughout.

Model 227—\$375. This model is the same as Model 229, except that the exterior is of hard wood construction with ash panels, finished in the very best quality white enamel pyroxylin.

Model 228—\$375. Similar to Model 227 except that the exterior is of quarter sawed golden oak.

Model 226—\$340. The dimensions of this model are the same as those of the three preceding ones. The interior is glossy white enamel on galvanized iron. This type of construction has been highly refined in the manufacture of these cabinets and is extremely handsome and very durable.

Model 230—\$340. Cabinet is exactly the same in size and construction in Model 226 except exterior is of rich golden oak.

GARMAN REPORTED SAFE

TORONTO, July 15—Bliss Carman, the Canadian poet, who was reported to be staying at Twilight Inn, Tanterville, N. Y., which was burned yesterday, has been at Twilight Park, Raynes Falls, N. Y., according to word received by a friend here. It is particularly in the last letter received here he said he would remain at Twilight Park most of the summer. Anxiety for his safety was felt when news was received of the destruction of the inn and the burning to death of a number of guests.

The poet's skit is much more attractive than the plain one with the summer tailors, and is particularly adapted to the short length that is now the vogue.
