RASPBERRIES RISE, BLUEBERRIES DROP

Ripe and Green Tomatoes and Other Produce Brought By River Boats

Native ripe tomatoes, some green tomatoes and a few summer squash were brought down the river steamer's Majestic and Hampton yesterday. The boats brought fair freights of country produce. Raspberries were in sharp demand and there were only a comparatively few crates offering so the price went to 20 cents a box. There was a big quantity of blueberries and the price slumped to from 10 to 12 cents a box. Only a few new potatoes were on board and these brought from 80 cents to \$1 a bushel.

The native ripe tomatoes came from Wickham and sold for 40 cents for a five pound basket. Green tomatoes brought 22 a bushel. Only a small quantity came down. Peas are scarce now, and there were only a few bushels on the two boats. Peas sold for \$1.20 a bushel but beans were plentiful and brought only 80 cents to \$1 a bushel. There was only a small number of summer squash and these early samples of the crop brought high prices. Butter sold for 92 cents a pound and the eggs brought 38 cents a dozen.

WOULD REPEAL PROHIBITION ACT

St. John's, Nfld., Aug. 11.—On Friday and Saturday the views of the people heard by the committee of both Houses on the proposed measure regarding the sale of alcoholic liquors. The Government has, however, decided to introduce it as a party measure and it is anticipated the bill will be passed. Its purpose is the repeal of the Prohibition Act. It will permit the sale of wines and beer in hotels and the purchase of alcoholic liquors by individuals to the extent of a bottle a day. The different districts will be enabled to state whether or not they desire distribution centres which will be limited to one of 5,000 of the population.

N. B. LUMBERMEN ASKED TO DO SAME

Punish Fire Setters by Taking Work Away From Them.

An excellent method of punishing infractions of the forest fire law by employees of lumber and pulp and paper companies working in the woods has been adopted by the Eastern Division of the Southern St. Lawrence Forest Protective Association.

This body of limit holders has decided to place on a special list the names of any persons working in the bush in the employ of any member of the association who has set or causes to be set a forest fire through negligence or carelessness. This list of careless employees will be sent to all members of the association and no further employment will be given to any of the guilty ones.

The first offence automatically means a suspension from employment for not less than one year or more than five years; for the second offence, not less than two years and not more than 10 years.

The co-operation of the lumbermen of New Brunswick has been requested so as to make the plan apply to both provinces.

SAYS SEED POTATO CROP TO BE RECORD

Minister of Agriculture Predicts Sale of 250,000 Barrels.

That more than 250,000 barrels of New Brunswick potatoes would be sold this year, the southern United States this year was the opinion of Hon. D. W. Messersau, Minister of Agriculture, who was in the city last night.

These potatoes would not be sold in a lump but would be purchased in small quantities by buyers who would soon be making their appearance in the province.

Mr. Messersau's prediction that 250,000 barrels of potatoes would be sold was based on the report of one of the men of his department who had just returned from a trip to the southern states.

The potato crop promised to be the largest ever produced in the province, Mr. Messersau said. A large acreage by fifty per cent had been planted this year and from present indications the yield would be more than average.

Agricultural conditions generally throughout the province, Mr. Messersau reported to be very favorable. The hay harvest was well advanced and places but in others there was a good yield.

In reference to potatoes more attention should be given to the finding of a market for the crop, he thought. In the past it seemed that production was the main purpose in view. He thought this was wrong and that more energy should be applied to the marketing end of the business. If a market could be found there would be no question of the production.

TELEGRAPH CO. ELECTS

The annual meeting of the New Brunswick Electric Telegraph Co. was held at noon yesterday at the Kennedy House, Rothesay, and after the transaction of routine business the officers were elected as follows: President, Dr. A. The company is the original one which built the line from St. Stephen to St. Andrews, which it still owns. The line is now operated by the Western Union Telegraph Company.

WAS HIT BY CAR

A young man of the city is suffering from a deep scalp wound and a severe shaking up from the result of an automobile accident Saturday evening. The young man was standing talking to a friend in an auto on a North End street when a car came around the corner at high speed, striking the young man and knocking him down. The driver of the car, he says, kept right on going, seemingly not caring whether the man he struck was killed or not. The wound in the head required several stitches to close it up.
