LADIES ONLY. It is the distinction of this Dikeman op to give complete and authoritative prescription to the new spring suit modes to show not merely the general trend of the new and distinctly different fashions. An almost endless variety, at each garment bespeaks the refinement and quality characteristic of the garments from this shop. To begin with, \$22.50 is the first suit number; from this in easy stages up to \$50, from the plain tailored numbers to the new and popular styles with ribbons. These prices, with the make up finish of Dikeman's garments, will make good reading. There's always a saving invitation to you to look over new things at Dikeman's, so interesting and a little different, a few more aprises, generally speaking. Special stout models from 40½ to 56.

Regular dance tonight. G. W. V. A. c.o.a.

The Corona Club had a much enjoyed programme at its meeting in the Y. W. A. recreational centre last night. Mrs. J. D. Hunter was the chair, and her assistant was Miss Ethel Haw. The president of the club, Miss da Campbell, was in the chair, and there was a large attendance of members. In the business session plans were made for holding a supper and theatre party by way of celebrating the anniversary of the organization of the club.

FEATURES IN THE ONTARIO HOUSE

Hon. Mr. Doherty on Farming Situation; Sam Clarke on Temperance Act.

Toronto, March 2.—A statement on the farming situation by Hon. Manning Doherty, minister of agriculture, featured yesterday's session of the Ontario legislature. He said that, although the prices of farm products had during the last year fallen to an extent far in excess of what had been anticipated and greatly out of proportion to price reductions in other commodities, yet the farmers of Ontario had met the situation bravely and with a confidence that was inspiring. While their condition was as to give serious thought, yet he believed that they were better off than those farmers of any other part of the north American continent.

Sam Clarke, M. L. A., for Northumberland East, Liberal, thought the O. T. A. was wrong in its inception, being too drastic, and he believed the time would come when a more sane, a more rational and a more human measure would be put in force. He favored giving magistrates more discretion and not force them to put a fine of \$200 for first offenders.

If the government was maintaining liquor dispensaries to supply the needs of the sick then \$5.00 a bottle was too much to charge for liquor. "If you are selling it as a beverage than put on the price," he said, "but don't take it out of the sick and the afflicted."

GIRL SWALLOWED POISON. Deed Prompted by Sight of Wedding Auto.

New York, March 2.—Ira Friedman, 30, a garment worker, is battling for life in Harlem Hospital, following her attempt at suicide by swallowing poison at the sight of a passing unknown bride.

Miss Friedman and Harry Rosenthal, with whom she is said to have been keeping company for five years, were walking home when they passed a taxicab to which shoes and gay ribbons had been attached, in token that it bore a newly-married pair.

"I envy that girl in there," the young woman said.

To Rosenthal's query, she answered she would like to get married.

"Why don't you?" he is reported to have asked.

"Will you marry me?" she is said to have asked.

While Rosenthal was framing an answer she stumbled, throwing an empty bottle to the street at the same time.

"I have taken poison," she said. Rosenthal called an ambulance.

FRENCH BIRTHRATE IS FALLING BEHIND

The German Population Increase Three Times That of France

Paris, March 1.—The vital statistics of France bring into bold relief a factor in European politics far more important than many of those today's statesmen occupy themselves with. The population of Germany is growing three times as fast as that of France.

The figures for the first half of 1921 just compiled show an excess of births

over deaths in France of 72,861. For the first three months of 1921 the excess of births over deaths in Germany was 179,856. Double this for the first six months of 1921 and you have 359,712. The population of France is 37,000,000 of Germany 64,000,000. In other words, Germany with a population 1.75 times that of France, has five times as large an increase in population, or, taking into consideration the factor of relative size,

the population of Germany is growing three times as fast as France.

The 1921 figures also show a total of 421,180 births in the first half of the year. In 1920 there were 1,000,000 births in France. The first six months of last year 348,329 people died in France. These figures are the same for the corresponding period of 1920, but the first half of 1920 there were 338,342 marriages compared with 228,185 in 1921, a diminution of 90,000. The first six months of 1921 saw 15,567 divorces, the largest of any one half-year. In 1919, just after the war, there were 600,000 marriages in France and 626,000 in 1920, relatively large figures which might have led to expectation of a larger birth rate in 1921.

GOOD CLOTHES Are The Only Really Economical Clothes

Naturally the question of price enters into your calculations in planning for the Spring Clothing outfit.

We want you to carefully consider GILMOUR'S along the line of economy. We believe we can save you money by the simple method of selling you clothing that will give satisfaction and service.

You will find Clothing—lots of it—marked at figures lower than those at which RELIABLE goods can be bought, but that character of merchandise is really the most expensive. Real economy lies in buying value—not in paying a low price which will only buy POOR GOODS.

Ready Tailored Spring Suits are priced \$25 and upwards. Very special values at \$35, \$40, \$45. Top coats from \$20.
