HEALTHOGRAM

Clean homes for clean souls. Sunshine and dryness are great mis-killers. Never live in a room where the win-ow will not open from the top. Knowledge and action, not money, make a safe and happy home. Sunshine and sanitation go hand in hand.

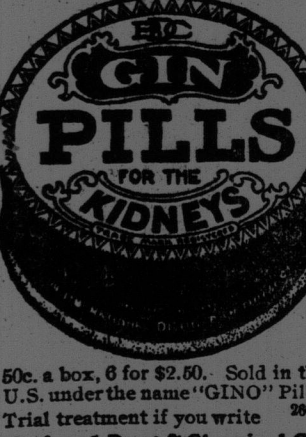

A Neighbor Told Him To Take Gin Pills

FOR THE KIDNEYS

If you want to know what Gin Pills will do for you, just drop a line to Mr. D. A. York, at Belrock, Ont. He will tell you what Gin Pills did for him, after he had suffered with kidney trouble for 15 years. Here is his letter:

"I suffered for about 15 years with my kidneys. I could get nothing to help me. The pain went all through my back and shoulders and down the sides of my legs. When I would sit down for a while, I could not straighten up again, and I would walk a red or more, the pain was so great. After being advised to take Gin Pills, I did so and in a few weeks I was cured. It is about two and a half years since I quit taking them. My back is all right, no pain, no more backache. I thank Gin Pills for it all—they are worth their weight in gold."

D. A. YORK.

50c. a box, 6 for \$2.50. Sold in the U.S. under the name "GINO" Pills. Trial treatment if you write National Drug & Chemical Co. of Canada, Limited, Toronto

---that boy of yours

Bright, healthy lad; sure, he's going to have chances you never dreamed of. You intend to give him a good start in life.

All right—but how? When the time comes, you may be ginchin for money, or any one of a hundred things may have happened.

But you can pay us a small sum each year and at the end of a certain time, or next week, if you should die suddenly, we'll pay over to him (or to his guardian if he is not of age) any amount you may decide, whether it be \$1,000 or \$50,000; and thus you'll be certain that your boy gets the start that you have planned to give him.

Fathers—there's a great idea back of this Imperial Endowment Plan. Let us tell you all about it. Drop us a card. We'll send particulars right away. Address:

THE IMPERIAL LIFE Assurance Company of Canada

HEAD OFFICE, TORONTO

A. P. Allingham, Provincial Manager, St. John

The policyholders' surplus of The Imperial is greater than the aggregate surplus of the eleven other Canadian life companies established during the last twenty years.

German Wounded Sight Seeing in Berlin

Wounded German soldiers and their nurses in a sight-seeing car in Berlin. This photograph shows them in front of the Reichstag and the statue of Bismarck.

Morning War Summary

London, Nov. 10, 9.35 p. m.—The claims of the contending armies in the eastern and western theatres of the war, especially as concerns the situation in West Flanders, dove-tailed to so few respects tonight as to leave but one big fact on land or sea undisputed. That was the destruction of the German raider Emden and the trapping of the German cruiser Koenigsberg, the latter in a palm-lined East African river, under circumstances which read as though they were taken from Stevenson.

The British marine insurance rate was almost instantly cut in half—never since the days of the Confederate warship Alabama has there been such a successful commerce-destroyer as the Emden. Cheers broke forth at Lloyd's on the announcement, and for the moment the struggles of the armies in France, Belgium, Russia and elsewhere were forgotten.

Yet all these armies were at each other's throats—the Germans and Russians clashing in cavalry engagements along the German frontier, the Russians still harassing the Austrians in Galicia, and the French, British and Belgians holding back what appears still to be a tremendous German attempt to break through the Allies' line in the vicinity of Ypres.

Many despatches speak of the movement of German troops eastward from Belgium, as forecasting the necessity of reinforcements along the eastern frontier, but neither the French nor German official statements this afternoon indicated any slackening in the violence of the German attacks in East Flanders.

In fact, the French statement says that between the sea and Armentieres the opposing forces were both acting on the offensive.

The situation along the battle line in France proper, from the standpoint of the Allies, was summed up in a despatch from an "observer with the Indian corps," who says there has been no marked change anywhere, though he professes to see a gradual weakening of the German attacks.

Aside from the military aspects of the war, what stood out boldest today was Germany's reported threat to cut off the food supply which the United States is sending to Belgium, if the Belgians did not return to their cities and make an effort to resume their normal occupations. The Belgian answer is that it has been impossible to resume a semblance of normal activity, because the German soldiers had commandeered all implements and materials necessary to an industrial revival.

Advices from South Africa report the further rounding up of rebels, not far from Pretoria, where an additional 120 men have been killed or wounded.

For the first time since 1790 there has been an execution in the Tower of London, Carl Hans Lody, a German spy, who lived for a time in the United States, being shot to death.

AUSTRIAN REPORT OF RUSSIAN RETIREMENT

London, Nov. 10, 9.05 p. m.—The following despatch from Berlin was received this evening by the Marconi Wireless Telegraph Company:

"It is officially reported from Vienna that the Russians have evacuated the greater part of Bukovina and retired in the direction of the Danube river, where they have been pursued by the Austrian troops, who have taken many prisoners."

"It is officially reported that after two days' heavy fighting on the Caucasian frontier the Turkish troops have completely defeated the Russian army and captured the Russian positions."

"A Turkish fleet has pursued Russian ships which were bombarding Kozlu, but the ships escaped in the fog."

GERMAN REPORT OF JAPANESE ACTION

Berlin, Nov. 10.—The Novoe Vremya, a newspaper published in Petrograd, reports that the Japanese government has demanded from China a concession for the construction of a railroad from Sui-Nan, in Shantung province, to the Yang Tse river.

This information was given out to the press today from official quarters.

THE CONSUMER.

(Conservation.)

Carelessness in packing goods for shipment results in breakages and loss. The cost is carried as an overhead expense and the consumer pays.

Accidents happen. The employer carries liability insurance. The insurance company pays, but collects from the employers. The employer in turn collects the additional cost from the consumer.

On account of our excessive fire loss, forest fires occur, causing immense loss to life. To provide for these losses the lumberman must collect recompense from the consumer.

A municipality lays a new pavement; a public service corporation a few days later cuts holes in it, and crumbly attempts to repair the damage. This is part of their cost of doing business, and the consumer pays the bill.

Through defective plumbing and wastefulness in the use of water, excessive pumping expense is incurred. The corporation pays the bill, but collects from the consumer.

WOMEN CAN HELP IN WAR Against Drunkenness

Mothers, wives and sisters owe it to those dear to them to help them stop drinking. Drunkenness is a disease, and the inflamed membrane of the stomach must be healed and the craving removed—the trembling nerves soothed and re-energized—before the victim can stop drinking.

Alcorno is guaranteed to give satisfaction or money is refunded. It builds up the system and renders drink distasteful. Get it to-day at one more \$1.00 per box. Alcorno No. 1 is capsules and tablets and can be given secretly in tea, coffee or food. Alcorno No. 2 is the voluntary drug. Ask for free Alcorno booklet. E. C. BROWN, Druggist, St. John.

A professor in Heidelberg adopted the following plan in selecting women who desired to become trained nurses. "All those who desire to nurse officers step up to the right and the others to my left." Seven women placed themselves to the professor's right. The professor turned to them and said: "You can go home; for ladies who only desire to nurse officers we have no use."

"NORMAN" The NEWEST ARROW COLLAR

3 for 25 cents

Clout, Peabody & Co., Inc., Boston, St. John, Montreal

BELIEVE ME I EAT EVERYTHING

For I Know Stuart's Dyspepsia Tablets Will Digest Any Meal at Any Time.

How often do we see men who can not eat and how often do we hear other men boasting of their abilities to eat. The secret of all health is digestion. The secret of digestion is the juices which are supplied by the body to separate the ingredients needed from those that are of no use to the system.

The Pessimist—"Your appetite digests me. You eat like a giant sloth."

The Optimist—"Believe me, I give my body what it tells me to give it, and whether it be midnight or noon I always obey appetite, and then I eat a Stuart's Dyspepsia Tablet."

When a heavy meal has been eaten the entire body is called upon to furnish the digestive organs with forces to take care of it. The more the strain the weaker become the forces to take care of the next meal as well.

A Stuart's Dyspepsia Tablet aids Nature in Nature's own way. These little tablets are filled with the very ingredients and essences so needful to every normal and perfect stomach.

One quality or ingredient of a Stuart's Dyspepsia Tablet will digest 5,000 times its weight in food. (Think if you can what a big help this means to a depleted digestion. Other ingredients aid in building up the digestive juices and blood. The stomach and intestines and their duties lightened and thus irritation, soreness and raw linings are permitted to be cured by the system naturally, quickly, harmlessly.

Thousands of dyspepsics and stomach sufferers would be glad to tell you what Stuart's Dyspepsia Tablets have done for them. This is what makes these tablets sold in every drug store in this country, price 50 cents.

To anyone wishing a free trial of these tablets please address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich. A small sample package will be mailed free.

ECONOMIC EPIGRAMS

Of course it may require some thought to ask your merchant for something made in Canada. But nowadays most of us are thinking pretty hard and to good effect too. Way not chip in your little effort along this line? Every little helps.

Come to think of it, there's so little of what we need that in a natural ice mine, the ceiling, walls and floor being covered with ice perpetually. Curiously during summer the ice is thicker than in winter. The origin of this ice mine is a mystery to all scientists.

There may be some difference of opinion as to the advisability of putting Canadian women on the Voter's List. But just about now there are mighty few manufacturers who wouldn't like to be put on the Women's Patronage List and perhaps the best test of women's ability to vote will be her ability to grasp the "Made in Canada" idea.

Many great movements are based on what some people call sacrifice. The buy "Made in Canada" movement is highest patriotism and enlightened selfishness, prosperity to self and country and satisfaction in the purchase.

While the Kaiser is doing his best to bung up the British Empire, what's the matter with you and the rest of us doing what we can to make him lose? All we have to do is to keep things steady. He can't rock the boat so long as we buy goods made in Canada.

Oysters cannot live in the Baltic Sea, because it is not sufficiently salty. Oysters can live only in water that contains at least 87 parts of salt in every 1,000 parts of water.

What Dyspeptics Should Eat

A PHYSICIAN'S ADVICE

"Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity, therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starch, sweet or fatty foods, and are trying to keep up a miserable existence on gluten products, I would suggest that you should try a meal of any food or foods that you may like, in moderate amount, taking immediately afterwards a teaspoonful of bisulphated magnesia in a little hot or cold water. This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bisulphated magnesia is doubtless the best food corrective and antidote known. It has no direct action on the stomach; but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining, it does more than could possibly be done by any drug or medicine. As a physician, I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with drugs instead of getting rid of the acid—the cause of all the trouble. Get a little bisulphated magnesia from your druggist, eat what you want at your next meal, take some of the bisulphated magnesia as directed above, and see if I'm not right."

WHY DE WET REBELLED.

Fiased Five Shillings for Thrashing a Kaffir.

A Five Shilling Rebellion was the phrase used by General Smuts, South African minister of defence, speaking at a meeting in Johannesburg on Saturday. General Smuts' declaration that the union government was prepared to see the thing through may be accepted with confidence in view of his successful handling of the labor crisis a few months ago.

General Smuts' statement on Saturday at a review of the motor transport that DeWet's oration at Yrede would always stamp his rebellion as a five shilling affair had reference to DeWet's grievance against a magistrate for inflicting a fine of five shillings on him for thrashing a Kaffir. Curiously enough the name of the town where DeWet broke in rebellion is named Dutch Peace.

THE COAL SITUATION

(Coal Age, New York, Nov. 7.)

As a result of the continued mild weather, anthracite consumers are becoming indifferent about accumulating further stocks, and the companies are pushing hard for business. The short cold snap of last week stimulated buying for the moment, but all sales are now in free supply, and orders generally scarce. Evidence of the poor business in the northwest is seen in the light lake shipments, which are fully 25 per cent behind last season. In spite of the slow-up toward the close of last month, the production was unexpectedly large, but a continuance of the mild weather will undoubtedly result in a heavy decline in shipments, operation having been somewhat curtailed through the current week.

Circular prices on the Hampton Roads coals in the coastwise trade are purely nominal, all spot business being subject to such severe competition that heavy concessions are now the rule. Some coal loaded on contract is being refused and is exceedingly difficult to move. The local spot demand has practically disappeared, and there is absolutely no life in the northwest in the steel industry is noted in the Pittsburgh district, while some of the mines shipping the lake markets are already beginning to close down and the end of the current month will see many of these idle. One compensating feature of the light lake trade, however, is that the tonnage has months gradually tapering off for several months so that the trade will not be subjected to the customary shock of an abrupt cessation of shipments. The short cold snap of last week caused a run of domestic orders, but it was not of sufficient duration to affect the general situation, and had also been discounted to a certain extent. The general heaviness in all lines of industry, particularly iron and steel, together with the further restriction in the lake trade, due to the congestion at the upper lake ports, are the predominating features in the current market. The real test of the trade will occur about two weeks when the lake shipping closes down entirely.

The southern market has touched the bottom for several years, both as regards prices and demand, but the erators have adopted rigid curtailment policies and have the situation well in hand. The middle western trade through October was a big disappointment, the tonnage showing a heavy decline, particularly at some points such as Chicago, where it is estimated at 60 per cent normal. However, close observers see indications of a change for the better in the very near future. Many furnaces have now started up for the winter's run and there have been some heavy orders for war supplies placed in the middle west, which will stimulate manufacturing.

In the Alleghenies, just beyond Con-desport, Pa., there is a cave a few feet below the surface which in a natural ice mine, the ceiling, walls and floor being covered with ice perpetually. Curiously during summer the ice is thicker than in winter. The origin of this ice mine is a mystery to all scientists.

KNOW YOUR SWEATERS

"A pessimist is a man who has the choice of two evils and chooses both."

"An optimist, well he takes a turn around the links."

Have you seen the new mackinaws and Canadian and English sweaters?

Come right in and let us have the pleasure of showing 'em. They are just the most cheerful companions one can ask for.

"Style all the while."

Prices? From \$3.50 to \$7.50.

IN ONE MINUTE! CLOGGED NOSTRILS OPEN--COLDS AND CATARRH VANISH

Stops Nasty Discharge, Clears Stuffed Head, Heals Inflamed Air Passages and You Breathe Freely.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it—Apply a little in the nostrils and inside the throat. By moving the balm up air passages of the head will open you will breathe freely; dullness and headache disappear. By moving the balm up air passages of the head will open you will breathe freely; dullness and headache disappear. By moving the balm up air passages of the head will open you will breathe freely; dullness and headache disappear.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous dripping into the throat, and raw dryness is distressing but truly needless. Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

Sift it. Then you'll notice its wonderful fineness

They enable Rainbow Flour to mix with the milk and yeast more easily and thoroughly than other flours. The bread bakes evenly into the lightest, whitest loaves imaginable.

And remember—everything we print about Rainbow Flour can be quickly proved in your own kitchen.
