

THIRTY-NINTH ANNUAL REPORT
— OF THE —
Board of Managers of St. Andrew's Church
BEING FOR THE YEAR 1889.

1. In presenting the Annual Report for 1889, the Board of Managers have much pleasure in congratulating the congregation on the uniform measure of prosperity which has attended its temporal affairs during the year.

Although many respected and beloved friends have been removed from amongst us by death, and many others having from various causes, either left the city or removed beyond the bounds of the Church, yet we have the gratification to report that every vacancy has been filled up, and that there is a greater demand for sittings (especially in the body of the Church) than we can supply.

2. With the view of encouraging those who are contributing to the ordinary revenue of the Church by means of envelopes, we obtained permission at the last Annual Meeting to issue printed Quarterly Statements, showing the names, sittings and amount contributed by each, instead of Monthly Receipts as formerly, and we find that those Quarterly Statements have given general satisfaction, because they have not only served the purpose of an acknowledgment of their liberality, but show a complete list of all the contributors, and also a summary of the result at the end of each quarter.

3. From the Treasurer's Financial Statement it will be observed that the sum of \$5,237.70 has been contributed for
