The Rearing of Carves on Skim Milk.

Below we give the calves from skim milk as recommended by Prof, J. M. Robertson, of the Outario Agricultural College, Guelph: It is better, in the opinion of the professor, to take the in the opinion of the professor, to take the in the opinion of the professor, to take the will tell you explain. "Mad they will tell you explain." "Buchun" "Buc each feed, and the calf is kept in any place that will be comfortable. At the end of two weeks skim milk is substituted for new milk, but gradually, the picc. ss of of transition extending over but one week. ome new milk into the ordinary skimmed milk rather than by skimming the new milk at lengthening periods of setting.

At the age of two or three months the milk is fed but twice a day, about four quarts at each feed, the change in increase n quantity always being gradual. The milk should always be fed sweet, and when young should be fed at a temperature of about 90°, and never at a temperature less than 60°. A good guide is that degree of heat which feels comfortable to the sense of touch of the finger. The milk may be most conveniently heated by pouring in

hot water. They should have access to a small quantity of meal, one half bran the other half bruised or ground oats. A small handfull of linseed meal is put into every peck of the mixture. The quantity of the meal should be so increased that they may have all they want of the meal the first season. Always keep the steer calves in the first season to secure more growth, and the heifer calves out save when the sun is warm, to secure constitution and vital force. Proper treatment | CANADIAN APPLES during the first six months, the second six ONIONS, nonths, and the third six months, is

leving the burdens of manufacturers. Expecially is this the case with Green's August Flower and Boschee's German Syrup, as the reduction of thirty-six cants per dozen, has been added to increase the size of the bottles containing these remedies, thereby giving one-fifth more medicine in the 75 cent size. The August Flower for Dyspepsia and Liver Complaint, and the German Syrup for Cough and Lung troubles, have perhaps, the largest sale of any medicines in the world. The advantage of increased size of the bottles will be greatly appreciated by the sick and afflicted, in every town and viliage in civilized countries. Sample bottles for 10 cents remain the same size
