Happy Chance for Frugal Folks

A Mighty Removal Sale of Boots and Shoes

Just at a Time When Everybody Wants Footwear

Having purchased the Russell building, 677 Main street, with the intention of making it our

North End Branch

we will begin on WEDNESDAY MORNING next at nine o'clock a mighty removal sale of all the goods now stocked in our

Mill Street Store

We do not want to carry away a single pair of shoes, and in order to do this will offer bargains such as have not been offered in St. John in many years. All new, fresh, seasonable. Boots, Oxford, Pumps, Colonials and Slippers for men, women and children. In anticipation of a rush, and to arrange the stock to the best advantage, the Mill street store will be closed all day Tuesday, and when the sale begins on Wednesday morning a large staff of sales people will be on hand.

CASH ONLY.

NO GOODS ON APPROVAL.

Mill Street Store

Waterbury & Rising, Ltd.

MACAULAY BROS. & CO., KING STREET, ST. JOHN, N. B.
Our Stores Open 8 a.m. Close 6 p.m. Friday's 10 p.m. Saturdays 1 p.m.

The Correct Shapes and Styles

Parasols

The warm weather, which is now with us, suggests a new sunshade, and our stock of these pretty accessories is now at the top notch of perfection. Not one single new shape has been omitted, and the assortments are large and varied enough to provide ample choice for every lady or child requiring a parasol.

They are shown in dainty new, plain shades, also in shot or pretty ombre effects, many have plain centres with fancy borders, etc.; the shapes are Parasol, Tub, Bell and ordinary while the range of handles are from the natural, crook or Directorate to the more fancy—medallion or painted porcelain.

Ladies' Sunshades - \$1.00 to \$5.50 each
Children's Sunshades - 35c to 1.10 each

MACAULAY BROS. & CO.

PANAMA CANAL

WILL OPEN A FINE MARKET

British Columbia Lumber men will benefit more than Southern neighbors—Little effect on east.

"When the Panama Canal is opened lumbermen on the Pacific Coast will probably be able to sell a good deal of their product in the markets along the Atlantic coast of the United States," said A. B. Hammond of San Francisco, who is at the Royal.

"However, British Columbia lumber operators are likely to benefit more from the opening of the Panama Canal than the American lumbermen on the Pacific Coast. The fact that American vessels will not have any preference in the matter of canal tolls is a great disappointment. American lumbermen on Pacific Coast will have to use American vessels to ship their lumber to the Atlantic coast, and it is well known that it costs more to operate American vessels than those of other nations, and that this means higher freight rates. On the other hand British Columbia lumbermen will

be able to ship lumber to the Atlantic coast in the vessels of any nation, and we will find it difficult to compete with them."

Mr. Hammond said he did not think the lumber industry of eastern Canada would be affected to any extent by the opening of the Panama Canal, as the Canadian lumber exported to the states is not of a kind that entered largely into competition with lumber from the Pacific coast. The principal competition would be with pine from the southern states.

"At present," said Mr. Hammond, "we are shipping lumber around the Horn, and some of our lumber landed at New York is being shipped by rail to the Toronto market. We are also shipping lumber around the Horn to the markets in Great Britain."

Asked as to business conditions on the Pacific Coast, Mr. Hammond said things were rather quiet, and not what they ought to be.

Mr. Hammond is accompanied by Mrs. Hammond and L. H. Hammond.

TIMELY ARRIVAL OF TUG SAVED CREW OF SCHOONER SPARKMAKER

Sprang a leak and capsized at Parrsboro—Will be condemned and broken up.

Special to The Standard.
Parrsboro, N. S., June 13.—The schooner Sparkmaker, bound for this port sprang a leak last Saturday, filled and capsized off the old Parrsboro pier. She had lost her boat a day or two before and her crew of two men had a narrow escape, and but for the fortunate arrival of the tug J. A. Munford, she would have been wrecked. The schooner has since been towed to the beach near the light house and as she is thirty-five years old will be condemned and broken up.

COMING TO ST. JOHN

Mr. J. A. Martin, eastern superintendent for the Otis-Panasonic Elevator Co. of Toronto, has been placed in charge of the Halifax branch, with offices at 146 Hollis street.

Mr. Martin has informed the Standard that he has arranged to visit St. John, as often as may be necessary, in order to keep in close touch with the owners of buildings in which Otis-Panasonic elevators have been installed. For a nominal charge the elevators will be

BUSINESS IN CITY AUTHORIZES PURCHASE OF NEW ENGLAND MOTOR TRUCK

NOT VERY BRISK

One secured last year saved City \$1,000—New Brunswick Telephone Company to place conduits in Main Street—Resolution regarding Sale of Land.

Dullness more marked in manufacturing—Cupid busy in "The Hub"—News of former Provincial people.

Boston, June 12.—Summer weather has arrived early this year. The present week has been very hot and numerous prostrations and several deaths from heat here occurred. The temperature has exceeded ninety nearly every day.

Archibald McLellan, a native of Nova Scotia, has retired as editor of the Christian Science Monitor, an evening newspaper which was started three or four years ago. Mr. McLellan retired because of his duties in other departments of the Christian Science denomination.

The city registry office is doing a record breaking business in issuing marriage licenses. The office is issuing between 90 and 100 licenses daily, the highest in the history of the department.

R. J. Logan of St. John writes to a Boston newspaper stating that he has a curiosity in the form of a clock. He desires to know the age of it. Mr. Logan picked it up in an antique store. So far as can be learned there are few if any like it.

The Rev. G. F. Bolster of South Medford has been called to the pastorate of the West End Baptist St. Church, Halifax.

St. Margaret's Episcopal church, Brighton, is erecting a new chancel sanctuary and cloister in memory of its late rector, the Rev. Augustus Prime. Father Prime was formerly rector of St. Andrew's church, Newcastle, N. B., and many of the parsonages are former residents of the Maritime Provinces. At the ground breaking ceremonies the rector, Rev. Fr. W. G. Read, officiated. Rev. Fr. Joseph Dinney, formerly rector of Hartland, N. B., and once stationed at St. Anne's, Fredericton, handled the shovel and Father Charles N. Field of the Cowley Order gave the address.

The Rt. Rev. Frederic Courtenay, formerly Anglican Bishop of Nova Scotia, was one of the Episcopal clergy who participated in a farewell service to Archbishop Platon of the Russian Church in St. Nicholas Cathedral, New York. The Archbishop is on his way to Russia and will work for closer union between the Anglican and Eastern Orthodox churches.

Among recent deaths of former provincialists are the following: In Boston, Mrs. Deborah A. Carvell, wife of T. Fred Carvell, died June 12, formerly of Fredericton; in East Boston, Mrs. Johanna Keefe, widow of Michael Keefe, formerly of Halifax; in East Boston, June 8, William Griffiths, late of St. John, in Roxbury, June 7, Anthony P. McNulty, formerly of St. John, in Newton Highlands, June 8, Mrs. John Stubbins, widow of Horace C. Stubbins, and mother of Mrs. H. B. Pittfield, aged 95 years, formerly of St. John; in Roxbury, June 7, Timothy Harvey, formerly of St. John; in Newton Centre, June 6, Mrs. Ada O'Rourke, aged 23, formerly of Tignish, P.E.I.; Mrs. Mary Landry, widow of Edward Landry, aged 76, formerly of Cape Breton.

Many Canadians will attend the annual sessions of the Northern Baptist Convention which is to be held in Tremont Temple, Boston, from June 17 to June 25. Newton Theological School and Acadia men will have a reunion. Evangelistic meetings will be held on the Common and the Foreign Missionary Society will observe its 100th anniversary.

Dr. A. Lawrence Mason of Boston, a prominent physician, died suddenly near Albany, N. Y., recently, while on his way to Canada by train. He was a Restigouche. He was well known in New Brunswick as an expert angler and sportsman. He was 72 years of age.

General business in New England remains quiet especially in manufacturing lines. Other parts of the country report more activity.

The tourist travel has begun but will not be at its height until the schools close next week and the week after.

carefully inspected and kept in prime working condition, and when repairs may be necessary the complete stock of repair parts is on hand. The work will be drawn upon, thus obviating all chance of delay or inconvenience. Mr. Martin is also prepared to furnish same and estimates for new elevator installations promptly upon request.

Had No Power Over the Limbs

Locomotor Ataxia, Heart Trouble and Nervous Spells Yielded to Dr. Chase's Nerve Food.

It would be easy to tell you how Dr. Chase's Nerve Food cures locomotor ataxia and derangements of heart and nerves, but it is more satisfactory to you to read this letter.

Mrs. Thos. Allan, R. P. D., 3 Bonbrar, Ont., writes:—"Five years ago I suffered a complete breakdown and frequently had palpitation of the heart. Since the illness I have had dizzy spells, had no power over my limbs (locomotor ataxia) and could not walk straight. At night I had heart palpitations, and would shake as though I had the ague. I felt improved after using the first box of Dr. Chase's Nerve Food, and after continuing the treatment can now walk, eat and sleep well, have no nervous spells and do not require heart medicine. I have told several of my neighbors of the splendid results obtained from the use of Dr. Chase's Nerve Food, and for \$2.50, all dealers, or Edmanston, Bates and Co., Limited, Toronto.

CITY AUTHORIZES PURCHASE OF NEW ENGLAND MOTOR TRUCK

NOT VERY BRISK

One secured last year saved City \$1,000—New Brunswick Telephone Company to place conduits in Main Street—Resolution regarding Sale of Land.

The city commissioners were in regular session yesterday afternoon when the salaries of the clerks in the season's office were fixed. Commissioner Potts was authorized to purchase another motor truck, and the New Brunswick Telephone Co. Ltd. was given permission to place conduits under Main street from Douglas avenue to Bridge street. The proposal to establish an incinerator here was again under discussion and Mayor Frink pointed out that something should be done immediately.

Tenders for the supply of iron pipe for the water and sewerage department were opened and referred to the commissioner to report today. Mayor Frink, Commissioners Wilmore, Potts, Russell and McLellan with the common clerk.

The minutes of the last three meetings were read and approved.

On recommendation of the commissioner of finance and public affairs, J. Howard MacMackin was appointed a constable for the city of St. John with the understanding that he furnish and required bonds for the faithful performance of his duties as required by law.

The salary of Charles A. Emery, chief clerk in the assessors' office, was fixed at \$1,100 per annum, that of W. J. Cotter, second clerk, was placed at \$750 and Roy C. Burley, another clerk, had his salary placed at \$800.

Commissioner Potts was authorized to buy fifty tons of asphalt for use on the streets.

New Motor Truck

The commissioner of public works was authorized to buy another motor truck at an estimated cost of \$5,000, the specifications and prices to be submitted to the council for approval before the car is purchased.

Commissioner McLellan thought that the matter of having a truck which could be utilized for a watering cart as well.

Five year bonds will cover the purchase price of the truck. The matter of retaining walls was next considered, and Commissioner Potts pointed out that there was a great amount of work to do in this connection and he would likely have to ask for an additional appropriation for this purpose. He is to submit an estimate of the amount required.

The Grand Lake Steamship Co. will be given permission to erect a sign on the waterfront, provided the agreement is adhered to.

The commissioner of public works was given authority to make arrangements for the removal of the drinking fountain at Indian town from its present site to the grass plot.

The Marsh road was again under discussion and the commissioner pointed out that the work on it would be continued as fast as possible.

Telephone Conduits

The New Brunswick Telephone Co. Ltd. wished to place conduits in Main street from Douglas avenue to Bridge street. The privilege will be granted provided the company places the conduits and laterals for the use of the city.

Sewer connections from a manhole in Mill street to the North street sewer will be given the New Brunswick Telephone Co. Ltd. provided they agree to the usual conditions.

Commissioner Potts drew attention to the appropriation of \$10,000 for sidewalks. Although this amount had been appropriated there was at present only about \$4,000 available and he asked the commissioners just what idea they had concerning the matter.

Commissioner McLellan pointed out that the commissioner of public works should make a statement in regard to the expenditure of the \$6,000 and he would ascertain how the money was being expended.

Commissioner Potts would secure a detailed account of the expenditure made by the former commissioner and submit it to the tender were the work should be made for permanent use.

Commissioner McLellan called attention to the paper burning plant at the British street dump and thought some better arrangement should be made.

The commissioner of public works will see what can be done.

The Incinerator

Mayor Frink thought the matter of a public incinerator should be taken up at once. The disposal of waste materials was an important thing and all the legal power necessary had been given the city about fifteen years ago, but the incinerator was not yet built. It was the intention to have a city here there must be modern appliances. The cost of an up to date incinerator would be about \$50,000. Westmount has one right in the heart of the residential section and there was nothing objectionable to it. The man who established it there had his picture placed in the city hall. Here in St. John there had been talk of incinerators as soon as any site was mentioned, but it did not proceed to establish a plant here.

Halifax there had been some objection to the plant, but we were better equipped with sewerage and would not have the same kind of objectionable material to handle.

The commissioners then went into committee and opened the tenders for iron pipes for the water and sewerage department. The tenders were received from D. Y. Stewart & Co., United States Cast Pipe and Iron Foundry, T. McAvity & Sons Ltd., Yvonne & Apple, John Burchill & Co., Canadian Fairbanks Morse Co. Ltd., Francis Hankin & Co. B. & H. S. Thompson & Co. Ltd., Drummond, McCall & Co.

OVER ELEVEN THOUSAND MORE ACRES SOWN IN WHEAT

Hundred and Eighty-five Thousand more acres than last year—Good harvest anticipated.

Ottawa, June 12.—In a bulletin issued today by the Census and Statistics Office preliminary estimates are given of the area sown to the principal grain crops in Canada as well as reports on their condition according to returns made by crop-reporting correspondents on June 1. The reports show that throughout the Maritime Provinces seeding was delayed through the lateness of the spring. In Ontario and Quebec the condition of grain is generally satisfactory, notwithstanding a long spell of dry weather; in many places, however, the meadows were beginning to suffer from the effects of drought. Conditions throughout the west were reported as generally favorable, though rains would be welcome especially in Manitoba and Southern Alberta.

The total area under wheat in Canada is provisionally estimated at 11,203,800 acres, or 188,800 acres more than in 1913. The area under spring wheat is reported as 10,230,500 acres, or 185,500 acres more than in 1913, and the area expected to be harvested of fall wheat is 973,300 acres or 3,300 acres more than last year. The acreage of oats is placed at 10,811,000 acres or 2,000 acres less than last year, and rye 11,070 acres as compared with 119,300 acres last year. The estimated area under hay and clover is 2,206,000 acres as compared with 8,169,000 acres in 1913.

In the three Northwest provinces, Manitoba, Saskatchewan and Alberta, the total wheat area is estimated at 10,247,400 acres as compared with 10,036,000 acres in 1913; that of oats at 6,086,000 acres as compared with 5,192,000 acres in 1913; that of barley at 1,641,000 acres as compared with 1,025,000 acres in 1913. These differences represent increases of 211,400 acres for wheat, 284,000 acres for oats and 16,000 acres for barley; or a total increase of 521,400 acres for the three crops as compared with 1913. The wheat area in Manitoba is somewhat less than last year, viz: 2,788,000 acres as compared with 2,804,000 acres in 1913. In Saskatchewan the area under wheat is 5,848,300 acres as compared with 5,720,000 acres, and in Alberta it is 1,613,100 acres against 1,512,000.

On June 1 the condition of field crops, as measured by a standard in which 100 represents the promise of a full crop was very favorable. The points are as follows: Fall wheat, 79; spring wheat, 92; all wheat, 91; oats and barley, 92; rye, 83; peas, 92; mixed grains, 93; hay and clover, 90; alfalfa, 88, and pastures, 90.

Assuming that the conditions between now and harvest will be equal to the average of the past four years 1910-1913, the above percentages represent the promise of yields equal to the four year average in the case of spring wheat, rye and barley and inferior in the case of oats by 1 p. c., and in the case of fall wheat by 2 p. c.

On June 1 the condition of field crops, as measured by a standard in which 100 represents the promise of a full crop was very favorable. The points are as follows: Fall wheat, 79; spring wheat, 92; all wheat, 91; oats and barley, 92; rye, 83; peas, 92; mixed grains, 93; hay and clover, 90; alfalfa, 88, and pastures, 90.

THINKS SWEARING ALL RIGHT.

Providing the provocation equals the offence of Jones stepping on Smith's corns. Far better to use Putnam's Corn Extract—It does cure corns and warts in one day without pain. Try "Putnam's," free from acids, and painless, price 25c. at all dealers.

OBITUARY.

John R. Cumming.

At an early hour yesterday morning the death of John R. Cumming took place at his residence, 161 Princess street, after an illness of about six months. Mr. Cumming was born in England, and came here when a young man. He is survived by his wife, five sons, John R., and William of this city; Frederick of Fredericton, N. B.; Walter of Boston, Mass.; and Arthur of Leithbridge, Alta., and three daughters: Miss Maude of the Victoria School staff; Miss Edith of the staff of T. McAvity and Sons, and Miss Hatlie at home. Mr. Cumming was a member of the Victoria School staff, and his funeral will take place on Wednesday.

Thomas Coen.

At St. Peter's Redemptorist rectory in North End, where he had so faithfully and diligently labored for the last thirty years, Thomas Coen, known to the world as Brother Hugh, C.S.B., passed away yesterday morning about 7.30 o'clock. He had not been in good health for some time, but had remained actively at his duties until a short while ago when pneumonia set in, resulting in his death. Brother Hugh was sixty-five years of age and a native of Roscommon, Ireland.

When a young man, he came to this country, joining the Redemptorist Order as a brother in Annapolis, Maryland, and coming to St. John in 1884. Here he remained up to the time of his death, giving capable service and making himself endeared by all those with whom he came in contact by his obliging disposition, his sanity, life, and his readiness to please. He was a valuable asset of the rectory and will be keenly missed.

Brother Hugh has been at St. Peter's rectory just a little while after the late Rev. Father Oates was in charge. He has served under two other fathers, the late John Burchill, and the late Father Fairbanks.

He is survived by one sister, of the Sisters of Charity, in Boston. His funeral will probably be held on Wednesday morning with burial in the church cemetery, and his body will lie in state in the Chapel of the Holy Child, hood today.

Price, 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Toronto, Ont.

Ordering direct specify "Doan's."

ELDERLY ACROBAT

MAKES HIT AT LYRIC

Elmo Eddy, the seventy-year-old acrobatic rope jumper, appeared at the Lyric yesterday and gave an exhibition the equal of which is seldom seen out of the Lyric theatre. His bounciness on the slack rope was thrilling in the extreme, and he won the approval of the audience from the time he first stepped on the stage until his departure. Favorable comments for the act were freely given by the members of the audience.

"Th Mysterious Shot" was the film feature at the Lyric, and it was in keeping with the other high grade features of the entertainment. This film story told of a western life in gripping form.

The weekly news and other features helped to round out a complete programme.

Terribly Afflicted With Lame Back. Could Not Sweep The Floor.

When the back aches and pains it is almost impossible for women to do their housework, for every move and every turn means an ache or a pain.

Women are beginning to understand that
