

Men's \$5.00 and \$6.00 Fall Boots

The majority of shoe manufacturers have withdrawn all prices, and many of them are refusing orders for either immediate or future delivery. The leather to make shoes out of cannot be obtained. Immense warehouses that formerly at this time of year would be brimful of leather of all kinds are now empty. We were more fortunate than many dealers in obtaining delivery of our Fall Shoes, and are able to offer at present high class goods at \$5.00 and \$6.00 a pair. We honestly believe that ere long it will be impossible to buy such goods at these prices as makers are asking more than that for goods today.

MARRIAGES

Elliott-Bain.

Early yesterday morning Miss Anna J. Bain was united in marriage to Frederick Elliott, Very Rev. Mgr. J. J. Walsh, V. G., officiating. The bride is the youngest daughter of the late Patrick and Sarah Bain, and was given away by her brother, John. She was tastefully attired in a tailored suit of grey broadcloth with hat to match. Miss Margaret Bain was attendant of the bride, the groom's brother, James, rendering him the customary services. Mr. Elliott, who is an employe of E. Stephenson & Co., Nelson street, received an electric lamp from the firm and his associates presented him with a fine set of carvers.

MEXICO MUST NOT GIVE AID TO GERMANY

Great Britain Sends Warning Owing to Presence of Submarines in Gulf of Mexico.

Mexico City, Nov. 6.—The Mexican government has been notified by the British ambassador at Washington of the presence of German submarines in the Gulf of Mexico and has been warned that the Allies will take "drastic measures" if the undersea craft receive aid from Mexican ports or sources.

This information was made public by Foreign Minister Aguilar, who issued the text of a note received from the British ambassador through United States Secretary of State Lansing and Charge d'Affaires Charles B. Parker.

The British note demands a strict censorship of the Mexican wireless and says that any failure to maintain Mexican neutrality will be attended by disastrous results. In his reply, addressed to Mr. Parker, Senor Aguilar says that it seems strange to the Mexican government that Great Britain should use the United States state department as an intermediary on a point concerning Mexico alone, especially when Great Britain has an accredited representative to Mexico. Foreign Minister Aguilar says that the Mexican government feels it unjust for the Allies to hold Mexico responsible for submarine activities in the Gulf of Mexico, when the same submarines arrived in American ports and sank ships in American territorial waters without causing conflict or difficulties between Great Britain and United States. He adds that Mexico desires to retain cordial relations with Great Britain.

SAVE YOUR HAIR AND BEAUTIFY IT WITH "DANDERINE"

Spend 25 cents! Dandruff disappears and hair stops coming out.
Try this! Hair gets beautiful, wavy and thick in few moments.

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scourer robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast. If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25-cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made. We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

G. G. R. WILL HAVE FIRE FIGHTING TRAIN

The Transcontinental Railway in future will fight its own fires. This is saying a great deal, as nearly every other road in the United States and Canada depends on city firemen when railroad property catches fire or allows its property to burn, helpless to save it because of lack of equipment. After several fires had destroyed timber-lines along its right of way and threatened to wipe out whole counties, the Transcontinental Railway placed an order with Canadian Government Railways' shop at Moncton, for a fire-fighting apparatus, which consists of a water tank of more than 10,000 gallons capacity, mounted on a flat car, mounted on which is a steam-driven duplex fire pump, with capacity of 300 gallons a minute. Steam for operating the pump is taken from car heater of the locomotive. The device when tested was found capable of throwing two one-inch streams about 200 feet, which will enable the company to reach most fires within its right of way.

Saskatchewan Man Wants Farm. The fame of New Brunswick as a place in which to make a home is spreading all over the country, and people are turning their eyes toward the land of "the big red apple" as the place to live. Yesterday the secretary of the Board of Trade received a letter from a man at present living in Saskatchewan who is desirous of buying a farm of about 800 acres on the St. John river. The secretary of the board will be glad to hear of any farms which would suit this man.

N. B. GOVERNMENT TO PROTECT FORESTS

Whole System will be Reorganized to Prevent Heavy Losses from Fires—A Forest Patrol.

The New Brunswick government is preparing plans for the reorganization of the whole forest protection system. That the provincial forest possessions of over 18,000 square miles merit the most modern and effective safeguards against fire goes without saying. The notion that forests can be left to take care of themselves has been abandoned by nearly every government on earth having authority over timber lands. Once the responsibility for forest protection is admitted, it behooves a government to build up the most economical and up-to-date patrol service. The maintenance of New Brunswick's forest industry depends absolutely upon the elimination of destructive fires. In 1912, before the slump in the lumber trade was under way, New Brunswick produced nearly 7,500,000 of lumber, shingles, pulp wood and lath, not counting fire wood, fence posts, etc. The New Brunswick Government receives an average of about \$500,000 a year from forest operations and thousands of workmen owe their living to the same source. A very substantial part of the business of our merchants and manufacturers is accounted for by the annual wood harvest.

To those who wonder if New Brunswick can be freed from serious forest fires, it may be pointed out that a private association of Quebec Province, the St. Maurice Forest Protective Association, patrolling two-thirds as much territory as the whole forest area of New Brunswick, have reduced forest fires to an extent hitherto regarded as impossible. This was accomplished by good organization, close inspection of rangers, and authority to regulate the clearing fires of settlers. New Brunswick has the same material already in the way of forest protection, and can enjoy similar immunity by taking similar measures. Lacking them, no government can hope to preserve invaluable timber assets against the ravages of fire.

LOST HIS WAD MYSTERIOUSLY IN THE NIGHT

But Hartland Man will Get Money Back—Women Fear Stern Customs Men.

Special to The Standard. Hartland, Nov. 6.—Some few nights ago J. Kirby Shaw, who lives just below the village, had in his possession one hundred and three dollars. Before retiring for the night he counted his money to see that it all was right and then went to bed, and as usual after a hard day's work, slept soundly. After awakening in the morning he discovered that the entire amount was gone, but how he could not ascertain. After the first shock he put two and two together and became suspicious of a certain person. He placed the matter in the hands of the officers of the law, who got busy at once. Tonight it was said that while no arrests had been made, an arrangement satisfactory to Mr. Shaw was entered into by which he will get his money back.

The Carleton Hay Co. has made a contract with the Dominion government for 2,000 tons of compressed hay, and today starting putting its plan at Woodstock in shape for the beginning of pressing operations next week. The price to be paid to the farmers will be about \$8.00 loose and \$10.00 pressed. There is consternation among the female people of the place today, word having gone forth that a customs officer from Woodstock was coming here to look into the matter of a number of new gowns, coats, etc., which had arrived from Houlton without the formality of passing through the hands of the customs authorities.

NEXT BRITISH LOAN PROBABLY IN JANUARY

London, Nov. 6.—It is confidently expected that the next long term loan will be issued in January, when money usually is easier, and when so large amount of dividend money is seeking reinvestment. This confidence is expressed in the demand for the existing war loan, which carries conversion rights. The terms of the new loan are being widely discussed but are a guess-work. It is thought in some quarters that the loan might come just before Christmas, so as to be well advertised by January. Exchequer sizes, although selling well, do not attract long term investors such as insurance companies, which will welcome a big public issue as soon as possible.

SUFFERED WITH BACK FOR TEN YEARS

Women are the greatest sufferers from weak, lame and aching backs owing to the continual stooping, bending and lifting so necessary to perform their household duties. The cause of the backache comes from some derangement of the kidneys, for were there not something wrong with the kidneys the back would be strong and well, and without a pain or an ache. Doan's Kidney Pills will take out all the stitches, twinges and twinges, limber up the stiff back, and give perfect relief and comfort to all poor, weak backed, suffering women. Mrs. Chas. Thibeau, Church Point, N. S., writes: "For ten years I suffered with my back, and was so weak I could not do my washing or any hard work. Just a little around the house. One day a friend advised me to use Doan's Kidney Pills, and they helped me so much that after I had taken two boxes I could do my washing and since then I have been in perfect health." Doan's Pills are the original kidney pills. Do not accept any substitutes put up under similar names. See that you get the oblong grey box, the trade mark a "Maple Leaf." Price 50c. or three boxes for \$1.25, at all dealers or mailed direct on receipt of price by THE T. MILBURN CO., LIMITED, Toronto, Ont. Specify "Doan's" if ordering direct.
