## ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" is the thumb-  
print of genuine Aspirin. It posi-  
tively identifies the only genuine  
Aspirin—the Aspirin prescribed by  
physicians for over nineteen years and  
now made in Canada.

Always buy an unbroken package a few cents. Larger "Bayer" packages.  
There is only one Aspirin—"Bayer"—You must say "Bayer".  
Aspirin is the trade mark (registered in Canada) of Bayer Manufacturers of Mono-  
acetic acid esters of Salicylic acid. While it is well known that Aspirin means Bayer  
Manufacture, to assist the public against imitations, the Tablets of Bayer Company  
will be stamped with their general trade mark, the "Bayer Cross".

## Common Council

### Met In Committee

Decided Yesterday to Extend  
Water and Sewerage to  
Douglas Court—Firemen  
Ask for Payment of Sol-  
diers' Day Bills—Other  
Matters Transacted.

The Common Council met in Com-  
mittee yesterday morning and recom-  
mended that water and sewerage ser-  
vices be extended from Douglas Ave-  
nue to Douglas Court.

A delegation from the Salvage Corps  
and Fire Companies were present ask-  
ing for the payment of bills amounting  
to \$294.44 in excess of the \$150 grant  
ed them by the council for the enter-  
tainment of visiting firemen on Sol-  
diers' Day was heard. Their re-  
quest will be considered later.

Tenders for excavation and backfill-  
ing for the installation of an 8 inch  
water main and a 6 inch sewer in Lan-  
caster street, West St. John, were  
opened. Figures were as follows:

Per cubic yard	Rock Earth
Moses, Tobias and Parris	\$6.50
Lewis Stevens	7.00
Ring and Irons	5.00
This work is to be done in connec- tion with the city housing scheme on the West Side. The matter was refer- red to Commissioner Jones.	

Commissioner Fisher said the sup-  
ply of material for paving for next  
year was a serious matter. He had re-  
ceived a letter from Morrison and  
Nowlands, offering between 50,000  
and 100,000 granite blocks at \$37.50.  
Other contractors had expressed the  
opinion that they could not supply this  
material except at a much higher rate.  
Commissioner Jones submitted an  
estimate of the cost of water and  
sewerage extension to Douglas Court,  
where the St. John Housing Com-  
mission is to build and recommended  
that the extension be made at an esti-  
mated cost of \$3,100. He estimated the  
sewer would be about \$300 in the  
water rates.

The recommendation was carried.  
The mayor brought up the matter of  
the harbor commission and said that  
the question should receive attention in  
the near future. As the matter of a plebi-  
scite would entail considerable discus-  
sion the question was held over.

## ROTARY CLUB

### REGULAR MEETING

Old Court House Under Dis-  
cussion Yesterday—Capital  
and Labor Discussed—  
Other Business Transacted.

A hot discussion developed at the  
Rotary Club luncheon yesterday in  
relation to the decision of the Munic-  
ipal Council to tear down the old  
Court House. Other matters taken up  
included the proposed national educa-  
tional foundation. Robert Reid pre-  
sided at the meeting.

The relation of capital and labor in  
the lumbering industry was discussed  
by J. Fraser Gregory. He pointed out  
that owing to the limitations of winter  
and spring working hours the nat-  
ure of cutting and shifting lumber,  
lumbermen should work longer hours  
in summer, especially at the present  
time, when the work due to improved  
machinery, was comparatively easy.

A resolution was adopted that the  
club pledge itself to raise \$1,500 to-  
wards the establishment of a national  
educational foundation as decided on  
by the Winnipeg convention. It was  
further decided that the club give \$500  
towards the local contribution and that  
the remainder be raised by subscrip-  
tion. F. A. Dykeman was chosen  
chairman of a committee who will can-  
vass for the balance of \$1,000.

W. F. Burditt moved that in the op-  
inion of the club it was not advisable  
that the old Court House be torn down.  
In the discussion of the motion, ar-  
guments for and against the resolution  
were strenuously put forward and  
considerable warmth was displayed. It  
was finally decided to set the resolu-  
tion over for further discussion at the  
next meeting.

## PILOTAGE DISTRICT.

Captain G. E. Robertson, federal  
superintendent of pilotage, who was  
expected here early this morning, is  
to take up the question of establishing a  
pilotage district under federal control,  
has advised J. C. Chesley, agent of  
marine and fisheries, that he will not  
be able to come until later in the month.

Keigan, of Penobscot, Me., write: "I have used Dr. Chase's  
Ointment for piles and it has cured me. I can now do my  
work and am free from all pain and suffering."

## St. John Man Has

### Gained 26 Pounds

Charles Allen Finds Tanlac  
To Be Just What He Had  
Been Needing for Fifteen  
Years.

"Yes, sir, I have gained twenty-six  
pounds since I commenced taking Tan-  
lac, and I am in such fine condition  
that I can do as hard a day's work as  
any man," was the statement made to  
a Tanlac representative recently by  
Charles Allen, who lives at 301 Union  
street, St. John, N. B.

"My health broke down while I was  
serving in the Boer War," continued  
Mr. Allen, "and since that time my  
condition has been getting worse all  
the time. For the past nine years my  
stomach has been in an awful fix  
and no matter what I would eat I was  
sure to suffer agony afterwards. Every-  
night that came was misery for me  
for I couldn't sleep but would roll  
and tumble till time to get up. I was  
so nervous that when anybody open-  
ed the door I would almost jump out  
of my chair. Finally I could go no  
longer, so I gave up my work and  
started to the country to take a long  
rest."

"But before I left I decided to buy a  
bottle of Tanlac and take it with me,  
as I had heard and read so much  
about it. I went on to the country and  
began to take my Tanlac and I want  
to tell you I felt so much better when  
I finished my first bottle that I was  
determined to have some more and I  
walked two miles and got it. It has  
been some time now since I finished  
my last bottle but I am feeling even  
finer today than I did then for I am  
heavier and stronger, and my work is  
a pleasure to me. My nerves are  
steady and every day I feel better. I  
can sleep as sound as a child and I get  
up of mornings feeling fine. My ap-  
petite is so good that I am almost  
shamed of the way I eat and every-  
thing I eat digests perfectly, and I  
never have the least pain in my stom-  
ach. Tanlac has proved to be just the  
personal direction of a special Tanlac  
representative. Advt.

## Vocational Board

### Estimated Costs

Plans for Courses Outlined at  
Meeting of Board Held Last  
Evening—Twelve Classes  
Proposed by Industrial  
Committee.

A meeting of the Vocational School  
Committee was held at the residence  
of Dr. F. E. Emery, Coburg street,  
last evening. There were present G.  
P. Hennessey, Thomas Nagle, Mrs. W.  
Edmund Raymond, Alex. Wilson and  
R. Gordon Leavitt.

The resignation of Mrs. E. R.  
Taylor was read and accepted with  
regret. Her successor will be ap-  
pointed by the Board of School Trus-  
tees from among their number.

The report of the Industrial Com-  
mittee was given by George P. Hen-  
nessey as follows:

Proposed Courses for Night Schools.  
Applied mathematics.  
Estimates for builders. This would  
include all building mechanics, car-  
penters, masons, rogers.  
Elementary mechanical drawing.  
Architectural drawing.  
Machine drawing.  
Sketching and reading blue prints.  
Sheet metal patterns draughting.  
A lettering course, including show  
card writing.

Sign painting.  
Elementary course in the theory  
of electricity.  
Elementary electric wiring.  
Elementary motor mechanics.  
These courses would require eight  
teachers. Several of them could be  
taught by one teacher, and a course  
in elementary chemistry might be  
added.

The estimated cost of teachers and  
equipment was \$2,500, allowing for  
twenty-four lessons in each course.  
Mrs. W. Edmund Raymond gave the  
report of the Home-Making Com-  
mittee, showing a programme of three  
classes in sewing, including plain sew-  
ing, dressmaking, and the making of  
children's clothes; a class in millin-  
ery for adults, and classes in home  
economics, including the just knowl-  
edge of purchasing household  
supplies, bread-making and plain  
cooking. It was estimated that six  
teachers would be required, their  
salaries to amount to \$360. The en-  
tire estimated cost, including equip-  
ment, was \$1,000.

An application for a position as  
teacher was received from Miss P.  
Alward, who has had twelve years' ex-  
perience in the public schools and is  
at present one of the teachers in the  
Educational Science and Manual Train-  
ing School on Waterloo street. Several  
other names were mentioned.

Both reports, on motion, were ac-  
cepted and action will be taken on  
the suggestions.
