POLICE COURT

Convictions obtained against violators of the Motor Vehicles Act in Police Magistrate Morrison's court last week were:

Alphonse Beuninger, Wallaceburg, travelling without lights, \$5 and costs; Louis B. Harris, London, excessive speed, \$20 and costs; F. F. Barber Machinery Co., passing intersection, \$5; Russell Wray, the same, \$5; Joseph A. Famulora, London, 50 miles per hour, \$25; Frank Famulora, London, same charge, \$25; Roland Smith, Bear Line, speeding, \$5; A. J. Barge, Windsor, speeding, \$10; Wm. A. Haslam, Windsor, excessive speed, \$5; W. H. Kearns, Toronto, speeding, \$10; H. T. Cross, Walkerville, \$5; T. Simmons, Walkerville, \$5.

There was an element of humor in the Famulora case. A summons had been issued against one Joseph A. Famulora, living in Windsor, charged with driving at 50 miles per hour, but the police authorities there had been unable to locate him and the summons was returned unserved.

On fair day the traffic officer observed a car travelling at terrific speed, started in pursuit of him, trailed him for some distance, took the time he was making and then placed him under arrest. He was brought to town and the car was impounded pending the disposition of the case. On being asked his name he gave it as Frank Famulora, of London. Then the following conversation took place:

"Do you know Joseph A. Famulora?"

"Why, yes, he is my cousin."

"Is that so. And where is Joe now?"

"He lives with me in the same house," giving the address.

Frank having expressed a desire to plead guilty, he was asked what he intended doing with regard to paying the penalty.

"I'll have to send to London and get one of the fellows to bring down the money," said he.

"Well," said the court, "you had better tell Joe himself to bring down the money. We have been looking for Joe and we would very much like to meet Joe."

Frank accordingly called up Joe and told him the court here had a summons for him and he had better come himself and bring some money with him. In the course of an hour or so Joe appeared on the scene, promptly pleaded guilty as charged, peeled \$27 off a good big roll, shook hands heartily with the magistrate, handed him three real cigars and the incident was closed.

One of the good results of saving is that it knocks the "it" out of slaving.

Here and There

Russia has more illiterates, and at the same time, more bookshops than any other country in Europe.

The largest consignment of silk from the Orient for many months, consisting of 5,500 bales, valued at \$8,000,000, formed part of the cargo of the "Empress of Russia" recently.

A shipment of silk from China, consisting of ten carloads, valued at two million dollars, went forward from Vancouver to New York under special guard over the Canadian Pacific lines recently.

The first of a series of six new seaplanes being constructed for the Canadian Government has just been delivered. The new planes are to be used in forest patrol for the prevention of destruction by fire.

Following the disastrous earthquake and fires which devastated large areas in Japan, the Canadian Pacific liners "Empress of Canada" and "Empress of Australia" were thrown open to the accommodation of thousands of refugees, while the officers and men of the vessels did splendid work in organizing and assisting rescue parties.

The rapid increase in the export butter trade of Saskatchewan during the past year or two, has been the outstanding feature of the Provincial dairy industry. Recently the Saskatchewan Co-operative Creameries made a shipment of 25,000 lbs. of butter to China.

For almost two decades the major portion of the world's supply of cobalt has been derived from the silver-cobalt-nickel arsenides of the Cobalt district, according to figures compiled by the Dominion Bureau of Statistics. The cobalt production of Canada in 1922 was 569,960 pounds, which at \$3.25 a pound, would be worth \$1,862,370.

Canada's trade within the Empire is increasing. For the twelve months ended July, Canada exported to other parts of the Empire goods amounting to \$453,437,829. This is in comparison with \$354,992,074, the figure for the corresponding twelve months previous. Imports from British Empire countries during the two twelve months' periods were: Ended July, 1923, \$195,511,190; ended July, 1922, \$154,185,581.

A wheat crop of 382,514,000 bushels is forecasted in a report issued by the Dominion Bureau of Statistics. The report is based upon the condition of crops at the end of July, and indicates that the Prairie Provinces will produce 357,296,000 bushels of wheat if weather conditions continue favorable. Manitoba, it is expected, will have a total wheat yield of 44,468,000 bushels; Saskatchewan 211,061,000; and Alberta 101,776,000 bushels. Alberta is the only province to show an increased yield as compared with 1922.

A party of five journalists, representing the leading newspapers of Switzerland, who recently arrived at Quebec, are the guests in Canada of E. W. Beatty, President of the Canadian Pacific Railway. They will tour the Dominion in the interior of Swiss colonization. Stops will be made at different points where Swiss people are farming, and opportunity will be given to members of the party to converse with them and find out how knowledge as to the desirability of Canada as a place for Swiss colonists.

In a letter on "Canada and Land Settlement," published by the Morning Post, Sir Geo. McLaren Brown, European manager of the Canadian Pacific Railway, says that the agricultural salvation of Western Canada lies in mixed farming, which calls for smaller and more numerous agricultural holdings than wheat growing does, and results in closer settlement and better communication. The bigger and more densely settled the rural population, the more social amenities there are and greater advantages generally, he says.

EAGER TO COME TO CANADA

This photograph was taken at the European head office of the Canadian Pacific Railway in London, England, and shows a number of men who were induced by the special harvesters rate to make further enquiries with regard to the scheme and conditions to be expected here after the harvest. Nearly five thousand men, the finest to come within the Canadian immigrant class in years, were recruited by the Canadian Pacific, and lack of steamship accommodation necessitated the closing of the doors against almost as many more.
