

Do In Hours With a Tractor Work That Takes Days With Horses

PLAN your time this year in hours of tractor work instead of days of horse work. Start this year's work with a tractor and get your plowing done at exactly the right time and raise bigger crops. Do your work with less hired help, or farm more acres with the same help. Let an Avery Tractor make you as much money in a few hours this year as you made in a day before, with horses.

What You Get In An Avery Tractor

You get a tractor with a "Draft-Horse" Tractor Motor built in our own motor factory especially for tractor work and only for Avery Tractors.

You get a tractor with a "Direct-Drive" Transmission that is the simplest tractor transmission system built and which delivers more of the power of the motor to the belt wheel and drawbar.

You get a tractor with these Avery exclusive and protected features—renewable inner cylinder walls, adjustable crankshaft boxes, duplex kero-

sene and distillate gasifiers, double carburetor, practically unbreakable crankshafts, round radiator, sliding frame transmission, universal self-cleaning, non-slipping lugs, etc.

You get a tractor that is built complete in the three large Avery factories, which insures one high standard of quality; a tractor that is backed by national tractor service through our branches, distributors and dealers which insures prompt and permanent service; and a tractor that is successfully used by farmers in every state of the Union and in 61 Foreign Countries.

Write For the New Avery Catalog

It tells you all about Avery Tractors, Motor Cultivators, Plows and Threshers. Also ask for the Avery Free Tractor Correspondence Course and the Avery Special Circular entitled "100 Questions and Answers to Tractor Troubles."
