THOMAS' ELECTRIC OIL!

WORTH TEN TIMES ITS WEIGHT IN GOLD. DO YOU KNOW ANYTHING OF IT? IF NOT, IT IS TIME YOU DID. There are but few preparations of medicine which have withstood the impartial judgment of the people for any great length of time. One of these is THOMAS' ELECTRIC OIL, purely a preparation of six of the best Oils that are known, each one possessing virtues of its own. Scientific physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power, and producing effects which could never result from the use of any one of them, or in different combinations. Thus in the preparation of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, or any other ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. It contains no alcohol or any other volatile liquids, consequently loses nothing by evaporation. Wherever applied you get the benefit of every drop; whereas with other preparations nearly all the alcohol is lost in that way, and you get only the small quantity of Oils which they may contain. S.
