BOARD OF GOVERNORS

understanding student issues to the Board of Governors.

I feel it is important that strong efforts be made to communicate with and learn from the student body what issues and fair representation should be brought to the members of the Board of Governors.

I will endeavor to make a term on the Board a productive and committed experience.

On Monday, please participate by voting in your student elections!

Respectfully, may I solicit your support.

Philip Carleton

As a candidate for the Board of Governors, there are several issues which I feel are of importance to the university community. Currently, matters such as student aid, funding for student services, rising residence and tuition fees, and health care insurance are of the greatest relevance to UNB students.

I would support an effort to lobby the provincial and federal governments for increased funding of career oriented student employment programs. I would also encourage an examination of the current student aid programs. As most students are well aware, tuition and residence fees have increased drastically over the past four years, while loan and bursary programs have remained relatively stable. Such financial implications must be closely monitored to ensure accessibility to higher education. Blocked access to education is also an issue of concern to students with children. The creation of a day care service for these families would be an effective solution to this problem.

Another issue of importance to the students of UNB is the state of their health insurance package. As it stands now, the current health package is principally concerned with accident coverage. It does not include several areas of need such as corrective lenses,

contraceptives, and dental work. I believe the upgrading of this package would justify a marginal increase in fees, especially to those students who do not have access to another health plan.

My concerns are not solely limited to the finances of students, however, I believe quality representation by students in university government can only be achieved through allowing a variety of students to represent their peers in bodies such as the Senate and the Board of Governors. The university serves many functions in the community. We must keep in mind that one of these roles is to educate and serve the student population. Students, in turn, must provide feedback through their elected representatives, in order to ensure the students needs are met.

I would like to wish the best of luck to all candidates in their efforts to serve their fellow students.

VALEDICTORIAN 1989

Valedictorian - Luigi Rocca

7 good reasons to vote Luigi Rocca for Valedictorian:

1. He doesn't spit when he talks
2. If you don't, his uncle Guido will find you and he will kill you
3. He's been tested for steroids (he's clean)
4. He's honest, trustworthy and he can chug a beer in 20 seconds flat.
5. He can toss a mean pizza.
6. See #2
7. He's never "Knowingly" taken any illegal drugs.

All kidding aside, this is a very special time for the graduates of 1989. Years of good times and hard work will come to fruition when we receive our degrees on May 25. During my stay at UNB I've had the opportunity to be involved in many aspects of university

life both academic and extra-curricular and I've developed a deep sense of pride in being a UNB student. I could very much appreciate the honor and privilege of representing the graduating class of 1989 so that together we can relive the memories of the best years of our lives (so far).

GRAD CLASS PRESIDENT 1990

BRUNSWICKAN SUBMISSION: GRAD CLASS PRESIDENT 1990

TO THE CLASS OF 1990!

As I hope most of the Graduating Class of 1990 may already realize, throughout my years spent here at U.N.B., I have focused a tremendous amount of energy on the new students that have entered the University of New Brunswick and participated in the Freshmen Orientation Program. As I enter my graduating year, I would like to redirect this energy to focus on the students who are now looking to successfully complete their university career here at U.N.B.

In my view, the responsibility of the Grad Class Executive for 1990 will include:

1. Ensuring students that their graduating year will be much more than just a simple "wing-ding" in May but rather a year long festival celebrating the successful conclusion of their academic career.

2. Gathering all graduates together on a frequent basis early in the year to generate cohesiveness between members and tackle common goals that benefit all students of the Graduating Class.

3. Develop (and implement!) a Grad Class 1990 guest lecture series which will include a wide spectrum of speakers to talk exclusively with the students of the Graduating Class on career opportunities following graduation. This will include both job related careers and continuing education at the post-graduate level.

4. Bringing the students of the Graduating Class closer to the Associated Alumni of the University of New Brunswick in order that a relationship develops between these two groups long before the students leave this institution.

5. Through liaison with the Registrars Office, assist graduates in acquiring information on the process of graduation.

From my extensive participation in extracurricular activities within the university community, I can assure all graduates of the Class of 1990 that I will execute the duties of the position of President with great ambition and determination in making the Class of 1990 the most "successful" ever at U.N.B.! Performing the task of President, however, will require creative input from all members of the Graduating Class. It will be my intention to transform this creative input into action in order to acquire beneficial results for all graduates.

In closing, I would ask that you also offer your full support to both John Marshall, candidate for Vice-President Grad Class 1990, and Michael Elliott, candidate for Secretary/Treasurer Grad Class 1990. Both of these individuals have a tremendous amount of talent and ambition that will be required for an effective Grad Class Executive.

ON March 20, I would ask that you support Marc Braithwaite as candidate for President of the Graduating Class 1990.
